GRANTS AWARDED AND FUNDED PROJECTS

Daly, B.P. Principal Investigator: Shire Pharmaceutical Company-Drexel University Collaborative, "MindFun". Technology application that seeks to improve executive function skills in children and adorelscents diagnosed with attention-deficit/hyperactivity disorder (ADHD). Seven month grant (2013) with direct costs totaling $190,000.

Daly, B.P. Principal Investigator: Pew Charitable Trusts, "Prevention Produces Positive Outcomes." Clinical research program in which clinical psychology and school psychology graduate students co-lead with teachers an evidence-based prevention and intervention program in a school-based setting that promotes social competence and positive behavioral skills in children and youth from low-income families. Two year grant (2014-2016) with direct costs totaling $114,000.

Daly, B.P. Principal Investigator, Antelo Devereux Award for Young Faculty, Drexel University. "Executive Function of College Students: Comparisons between Students with and without Childhood Trauma." The aim of this study is to investigate the relationship between childhood trauma exposure and subjective and objective indices of executive function in college students. One year award (2012-2013) with direct costs totaling $10,000.

Daly, B.P. Principal Investigator: Career Development Award, Drexel University. "The Prevention of Behavioral and Socio-Emotional Problems Among At-Risk, Minority Youth in School-Based Settings." The aim of this award is to receive mentorship from an internationally recognized expert in evidence-based practice and school-based mental health. This project also is designed to expand current behavioral and socio-emotional prevention and intervention programs in school-based settings while also significantly increasing the involvement and exposure of Drexel undergraduate and graduate students to clinical research with at-risk, underserved youth, in a school-based setting. One year award (2011-2012) with direct costs totaling $7,500.

Daly, B.P. Co-Investigator: The Trauma Center at Justice Resource Institute, Inc, "Developmental Trauma Disorder National Validation and Comorbidity Field Trial." The aim of this project is to help formulate a developmentally-focused trauma diagnosis in children and adolescents. Two year grant (2011-2013) with direct costs totaling $37,500.

Daly, B.P. Principal Investigator: Pew Charitable Trusts, "Teaching Children to Succeed." Clinical research program will train new teachers to provide evidence-based prevention and intervention programming in a school-based setting that promotes the healthy development of children and youth from low-income families. Three year grant (2010-2013) with direct costs totaling $167,000.

COMPLETED GRANT FUNDED PROJECTS

Daly, B.P. Co-Investigator: Department of Health and Human Services, "Youth Risk Behavior Survey for Obesity and Tobacco Prevention". Subcontract from the School District of Philadelphia and the Department of Health in Philadelphia to conduct the obesity and tobacco questions from the Youth Risk Behavior Survey (YRBS) in Philadelphia's high schools in odd numbered years. One year sub-award (2010-2011) from Temple University with direct costs totaling $9,915.

Daly, B.P. Principal Investigator: Department of Health and Human Services, "Youth Risk Behavior Survey for Obesity and Tobacco Prevention". Subcontract from the School District of Philadelphia and the Department of Health in Philadelphia to conduct the Youth Risk Behavior Survey (YRBS) in Philadelphia's high schools in even numbered years. Two year grant (2010-2012) with direct costs totaling $127,435.

Daly, B.P Principal Investigator: Center for Disease Control and Prevention, "Youth Risk Behavior Survey and School Health Profile". Subcontract from the School District of Philadelphia to conduct the Youth Risk Behavior Survey (YRBS) in Philadelphia's high schools in odd number years and the School Health Profiles in even numbered years. Co-direct the School District's Material Review Committee and maintain the Health Education Resource Center. Five year grant (2008-2013) with direct costs totaling $341,730.

Daly, B.P. Principal Investigator: Pew Charitable Trusts, "Temple University Partnership Prevention Project." Clinical research project that provides evidence-based prevention and intervention programming in an urban, low-income, school-based setting directed at preventing and reducing child physical, behavioral, social, and emotional problems as well as promoting healthy development. Three year grant (2007-2010) with direct costs totaling $225,000.

Daly, B.P. Co-Principal Investigator: College of Health Professions, Interdisciplinary Research Fund. "Sensory Processing Patterns in Children Diagnosed with Attention Deficit Hyperactivity Disorder (ADHD). Pilot study examining the relationships between sensory processing patterns and the three diagnostic subtypes of ADHD in children. One year grant (2009-2010) with direct costs totaling $4,803.

Daly, B.P. Co-Investigator: National Institutes of Health, National Institute for Child Behavior and Development (NICHD), (1 R21 HD049244-01 A1), "Ameliorating Attention Problems in Children with Sickle Cell Disease." Objectives of this study were to assess the safety and efficacy of stimulant medication (methylphenidate) in children with sickle cell disease and attention deficits. Two year grant (2007-2009) totaling $200,000.
