

DREXEL UNIVERSITY
HEALTH
SCIENCES
BUILDING

ABOUT THE BUILDING

The Health Sciences Building is a state-of-the-art facility that brings together Drexel University's health-related fields of study in one modern space.

For the first time in our history, the College of Nursing and Health Professions, the College of Medicine and its Graduate School of Biomedical Sciences and Professional Studies can share social lounges, lab spaces and group collaboration rooms to support interdisciplinary education, teamwork and growth.

Located in the heart of University City, the Health Sciences Building fosters innovation in education, inspiring students, educators, providers and researchers in an environment that can transform science, health care and service in our communities.

BUILDING FEATURES

Interdisciplinary group learning spaces
High-tech anatomy labs

State-of-the-art clinical simulation center and standardized patient exam rooms

Student lounges, common spaces and ground floor cafe

1,450

Tradespeople collaborated to construct this building

At Drexel University College of Medicine, we are committed to preparing our students to engage fully with the world of today and tomorrow. Our educational environment is designed not only to create excellent physicians and entrepreneurs, but to develop game-changers in the field of medicine.

MD Program

Our MD program embraces students from all backgrounds and encourages them to pursue their academic and extracurricular passions. The MD program's innovative curriculum and exceptional faculty provide a world-class education that helps our students take on real-life challenges at home and abroad.

Our Approach

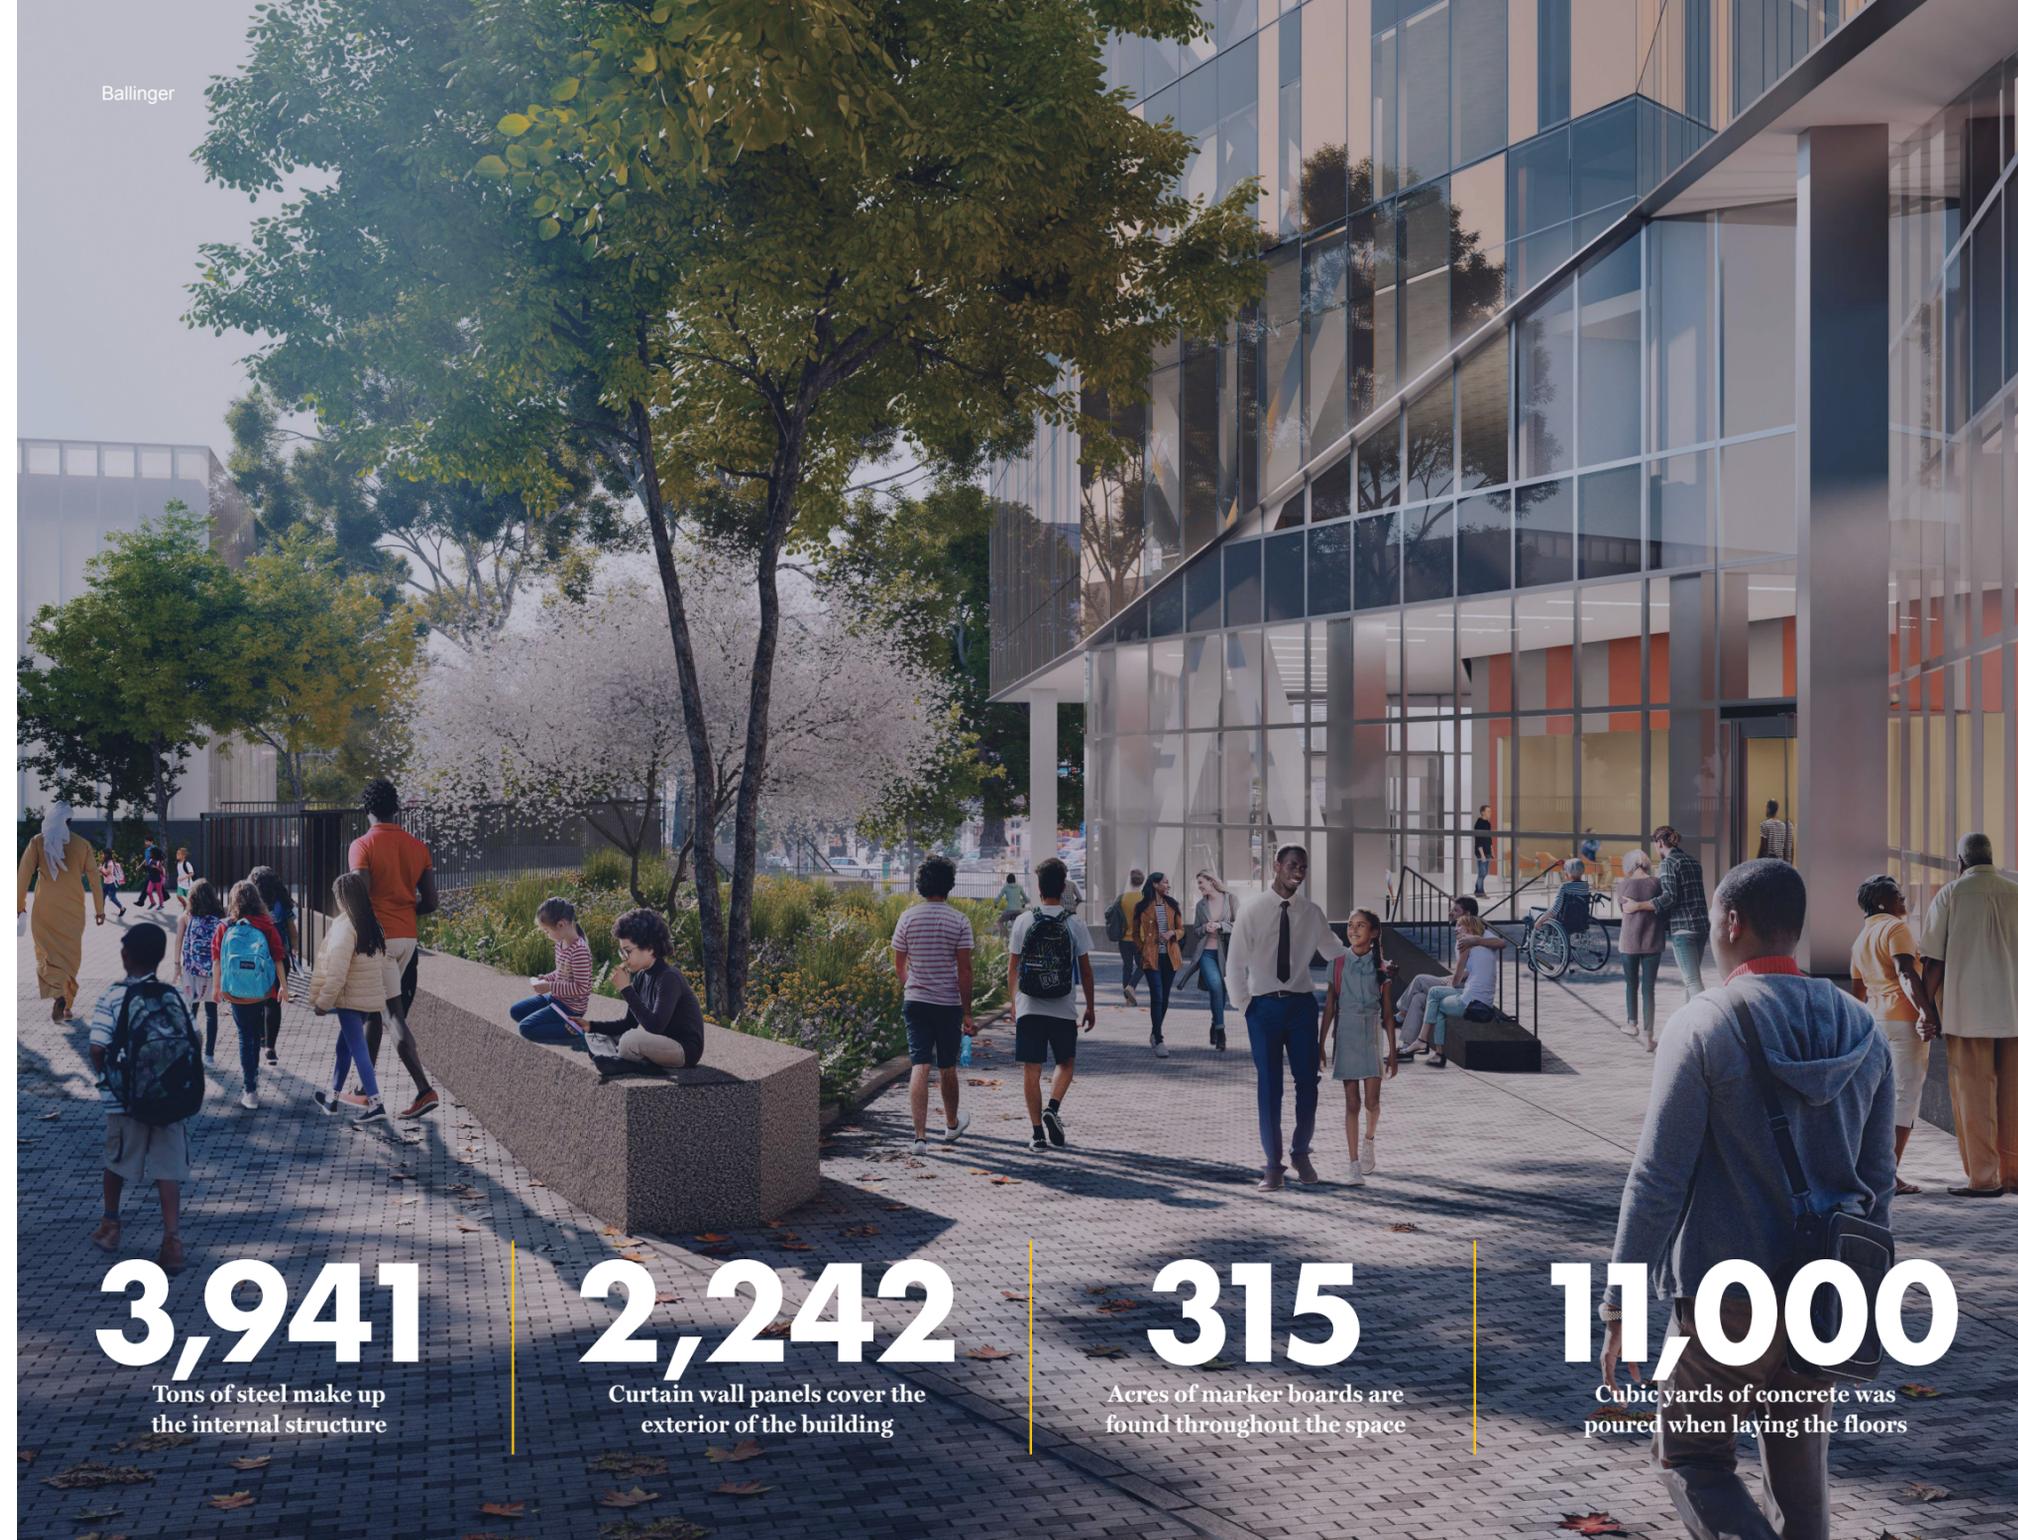

Our students are encouraged to be global citizens who strive to promote better and equitable health by engaging with local and international communities. Our civic-minded approach to learning emphasizes real-world problem solving and meaningful community service.

Graduate School of Biomedical Sciences and Professional Studies

The Graduate School of Biomedical Sciences and Professional Studies prepares tomorrow's leaders in the fields of biomedical scientific discovery, medicine and allied health professions.

Committed to preparing students for careers as scientists and successful health professionals, we offer extensive certificate, master's and doctoral programs. Our curriculum ensures that students understand and explore other disciplines, as they gain expertise in their own field of study. Our programs emphasize real-world experience and help guide students to make career decisions matched to their abilities and the world's evolving needs.

Ballinger

3,941

Tons of steel make up the internal structure

2,242

Curtain wall panels cover the exterior of the building

315

Acres of marker boards are found throughout the space

11,000

Cubic yards of concrete was poured when laying the floors

Drexel University's College of Nursing and Health Professions (CNHP) is a vibrant and values-driven educational community located in Philadelphia. At CNHP, students aren't content to accept the world as it is. They are people of purpose who embrace the role of change agents, enlisting in the necessary work of finding innovative, evidence-based solutions to systemic problems such as health disparities.

Diversity and inclusion are fundamental to all of CNHP's endeavors, enriching our educational, research and practice experiences. Students arrive with intellect, passion and ambition, and they graduate with the practical knowledge and experience they need to deliver high-quality care and service. They understand that solving problems requires bringing people together from across disciplines, with different expertise and perspectives. It takes a team-based, collaborative approach—one of the hallmarks of a CNHP education.

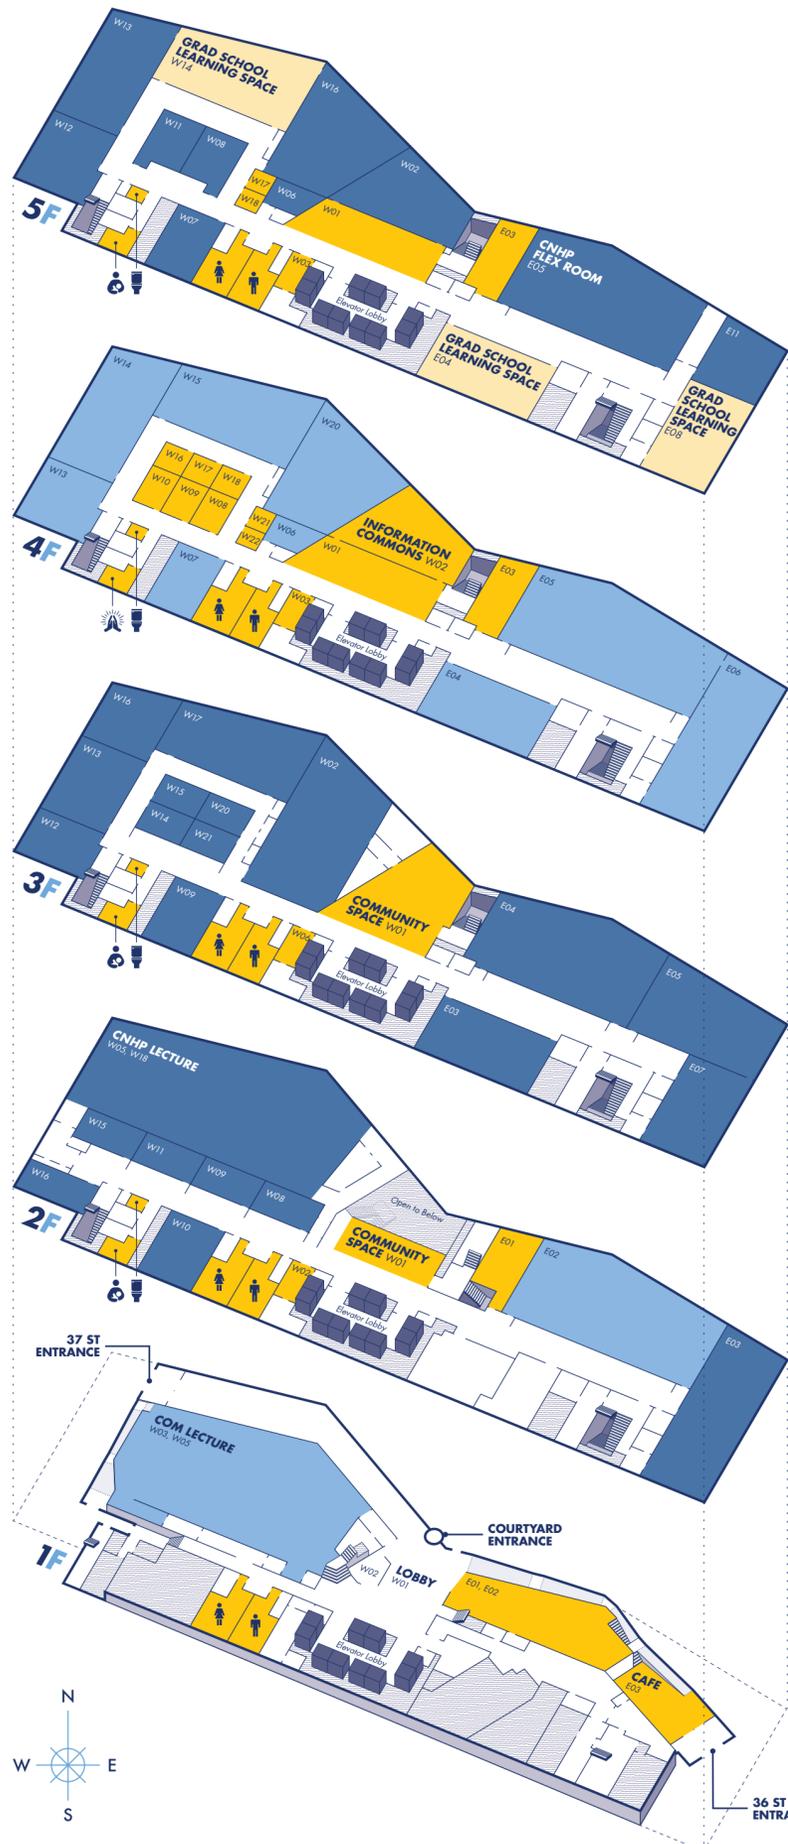

CNHP Departments

- Counseling and Family Therapy
- Creative Arts Therapies
- Food and Hospitality Management
- Health Administration
- Health Sciences
- Nutrition Sciences
- Physical Therapy and Rehabilitation Sciences
- Physician Assistant
- Undergraduate and Graduate Nursing

Our Approach

Both in person and online, the College offers advanced and innovative lifelong learning opportunities for students, from undergraduates to returning students seeking new skills or embarking on new careers. Drexel is committed to meeting the educational aspirations of all people.
