A CURRICULUM DESIGNED TO HELP YOU FIND YOUR PATH

In 1891, A.J. Drexel founded this university with the dream to establish an institution that would fully prepare its students to excel in their future careers. To meet his vision, Drexel has developed a model of learning that takes students beyond the typical collegiate experience as they are challenged to apply what they've learned in the classroom by working in the real world alongside mentors and industry professionals, pushing the boundaries of knowledge and achievement.

Drexel's curriculum is uniquely designed to put our students at the forefront of innovation. Here, you can pursue your interests and build a learning experience that works for you. Our university does not restrict students to a singular focus, instead allowing them to take the lead in their own studies as they assist faculty and staff with major projects in our state-of-the-art facilities. With your classroom-based learning supplemented with our cooperative education program (co-op), you can gain up to 18 months of entry-level professional work experience in the United States and abroad, building an impressive résumé and obtaining a unique working perspective — all before you graduate.

Drexel's health professions programs will allow you to explore your passion and equip you with the capabilities needed to make a lasting impact in your career field. These programs ask how you can improve the well-being of communities and challenge you to apply your knowledge to benefit the lives of others. We know there is no limit to what you can achieve — you simply need the opportunity to begin.

Finding Your Path

Drexel is a place that will allow you to develop and explore your own unique path. Here, you will discover how you can bring your interests and inspirations to life and make an impact in the world. To learn more of what it means to be a Dragon and get a sense of all the possibilities that await, visit drexel.edu/academics.

NURSING

At Drexel, we know that nurses play a vital role in the health care system, and we pride ourselves on ensuring that our nursing students feel prepared and confident when they step into these roles. You'll have access to cutting-edge technology and state-of-the-art facilities as you work alongside experienced and renowned faculty who have dedicated their lives to serve and heal others. After completing the program, you will graduate Drexel with all the tools you need to start saving lives.

POTENTIAL CAREER OPPORTUNITIES

Registered Nurse, Home Health Aide, School Nurse

MAJORS

- Nursing

PUBLIC HEALTH AND HEALTH PROFESSIONS

From researching diseases to working with shelters, Drexel's health professions and public health programs can help you make a real and lasting positive impact on the community. You will have the opportunity to take advantage of the University's partnerships with institutions like the Philadelphia Department of Public Health, The Children's Hospital of Philadelphia, and others through our co-op program — providing you with hands-on experience working in the field even before you graduate. With these experiences, you will be able to become a champion for health care as a human right, both domestically and internationally.

POTENTIAL CAREER OPPORTUNITIES

Therapist, Medical and Health Services Manager, Natural Sciences Manager, EMT and Paramedic, Community Health Advocate, Physician Assistant, Physical Therapist, Nutritionist, Occupational Therapist

Drexel University Health Sciences Building Lobby

Dornsife School of Public Health

MAJORS

- Exercise Science
- Global Public Health
- Health Data Analytics
- Health Sciences
- Health Services Administration
- Human Development and Counseling
- Nutrition and Foods
- Public Health

PRE-HEALTH PROFESSIONS

Whether your goal is to work in medicine, dentistry, pharmaceuticals, or even as a veterinarian, Drexel's pre-health programs provide a strong foundation of knowledge applicable to a number of fields. Our university offers a variety of programs to explore, as well as the option to blend your interests to create a unique and personalized learning experience. By the time you graduate, you will have a competitive edge to prepare you for your journey to an advanced degree.

POTENTIAL CAREER OPPORTUNITIES

Medical Doctor, Veterinarian, Pharmacist, Dentist

MAJORS

- Biological Sciences
 - Biomedical Engineering
 - Chemistry
 - Engineering
 - Physics
 - Psychology
 - Neuroscience
-
- Undeclared – Sciences

FOOD SCIENCE

Diet is inescapably tied to the welfare of communities, and in Drexel's food science programs you will be able to examine the relationship between nutrition and the health of the populations as you discover ways to improve the quality and access of food. The diversity of the city of Philadelphia, the city Drexel calls home, means that there is no shortage of wells to draw inspiration from. You will have the chance to study and explore cuisines from all over the world, expanding your knowledge of the history, culture, and the business of food from a variety of sources.

POTENTIAL CAREER OPPORTUNITIES

Dietitian, Nutritionist, Chef, Food Scientist

Culinary Arts and Science Students

Drexel's Department of Nutrition Sciences

MAJORS

- Culinary Arts and Science
- Nutrition and Foods

Why Choose Drexel?

At Drexel, we take pride in offering state-of-the-art facilities for our students. No matter your field of study, you will have a wide variety of resources at your disposal, from student-run media outlets to cutting-edge labs.

COLLEGES, FACILITIES, & RESOURCES

College of Arts and Sciences

The College of Arts and Sciences challenges students to see beyond their own perspectives, understanding the problems of today to pioneer the solutions of tomorrow. With a diverse range of programs spanning multiple disciplines, faculty and students continue to drive positive change in the world, in areas as disparate and important as cancer research, environmental sustainability, and prison reform. With this comprehensive, real-world education, graduates can respond confidently to the world's most pressing issues — now and long into their future.

Students of the College collaborate on disciplines in labs, research facilities, and creative spaces, including:

- The Academy of Natural Sciences of Drexel University
- The Drexel Publishing Group (DPG)
- The Joseph R. Lynch Observatory
- The Maya Literary Magazine, Drexel's student-run undergraduate publication
- The Papadakis Integrated Sciences Building
- The Weight, Eating and Lifestyle (WELL) Center

School of Biomedical Engineering, Science and Health Systems

The School of Biomedical Engineering, Science and Health Systems promotes health and quality of life through education, research, and innovation that integrates engineering and life sciences in a global context. The school teaches students to develop solutions and see opportunities to translate science into saving lives and improving health while encouraging expansive collaboration and networking that will prepare them for the world's emerging biomedical challenges.

In collaboration with other colleges and schools at Drexel, The School of Biomedical Engineering, Science and Health Systems offers many resources for expanding thinking, including:

- The Bossone Research Enterprise Center
- The Coulter-Drexel Translational Research Partnership Program

College of Engineering

The College of Engineering continues its long tradition of education that brings the theoretical into real-world application. The academically comprehensive, globally engaged institution prepares students to engineer change and lead in fields like architectural, civil, computer and cybersecurity, mechanical, materials science, chemical engineering, and more. Through practical experience, and knowledge gained from renowned faculty who engage in novel research and teach the foundations of engineering and courses in emerging subjects, students connect to the world around them and to the exciting advances that aim to solve society's greatest challenges.

The College is located in several buildings across campus with labs and new equipment that prepares students to take on the challenges in industry and research:

- The Innovation Studio
- The A.J. Drexel Nanomaterials Institute (DNI)
- The C. & J. Nyheim Plasma Institute
- The Center for Electric Power Engineering
- The ExCITe Center

Dornsife School of Public Health

The Dornsife School of Public Health prepares ambitious students to fight for the health and human rights of the world's growing urban populations and use the insights and innovations to benefit communities of all types around the world. Dornsife prepares students with experience in and out of the classroom, research opportunities, and partnerships with local organizations to improve the health of populations.

Located in Nesbitt Hall on our University City Campus, Dornsife highlights include:

- The Urban Health Collaborative
- The Ubuntu Center on Racism, Global Movements, and Population Health Equity

College of Nursing and Health Professions

The Drexel University College of Nursing and Health Professions (CNHP) is a vibrant and values-driven educational community which prepares students to become successful professionals who excel in a rapidly changing environment. Students engage in hands-on experiential learning through mentorship of expert faculty and experienced leaders. CNHP provides students with the tools to become agents of change and find innovative, evidence-based solutions to systemic problems.

This college boasts of a state-of-the-art facility to reinforce best practices in health care, including:

- The Stephen and Sandra Sheller 11th Street Family Health Services at Drexel University
- The Human Anatomy Laboratory
- The Drexel Food Lab
- The Health Sciences Building

ENHANCED OPPORTUNITIES

At Drexel, learning goes well beyond the traditional classroom. We encourage our students to pursue different opportunities, such as studying abroad, immersing themselves in the local community, and developing their own course of study.

Honors Program: At the Pennoni Honors College, the Honors Program serves as a catalyst for enhanced intellectual exploration. Composed of curious and active learners, this program offers exclusive access to Philadelphia events, advising and mentoring, dedicated housing, and a Living Learning Community, along with specialized opportunities to complete service and develop leadership skills. Honors students in this program are scholastic ambassadors at Drexel, raising their academic experience to the next level.

Civic Engagement: We believe in the importance of giving back to local communities — there are always opportunities to make an impact and serve the community here. Students can get involved on campus through Drexel's Lindy Center for Civic Engagement and the Dornsife Center for Neighborhood Partnerships during community-based learning courses and volunteering for community service. But our impact doesn't stop there; our dedication reaches out globally to improve the world around us.

Custom-Designed Major: The Custom-Designed program is suited for highly motivated students whose interdisciplinary curiosity and ambition cannot be satisfied by a traditional major. This path enables you to pursue an individualized course of study in place of an existing major, either by developing a plan with your advisor or by combining existing majors and minors to match your career goals. As a student in this unique program, you'll be advised by staff from the Honors College and mentored by a Drexel faculty member who has expertise in at least one of the areas in your course of study.

Global Opportunities: These options include study abroad, international co-op, and more. All Drexel students can take advantage of study abroad, which enables them to live and learn in another country while immersing themselves in the culture. Using our worldwide connections, you can choose from six continents and 35 countries! International co-op takes study abroad one step further; students not only live in another country but also gain work experience as they test-drive a potential career. Students currently on international co-op are working in 21 countries.

A CONNECTED COMMUNITY

Philadelphia, Pennsylvania, is a revolutionary town founded on revolutionary thinking — much like the ambition Drexel students have for influencing change in the world. As the sixth largest city in the United States, the City of Brotherly Love is an extension of our campus and, as a student here, you'll take full advantage of all it has to offer.

Philly culture is known for being as diverse as its many neighborhoods. From our University City Campus in the hub of Philadelphia's higher-learning community, it's easy to get to the sport stadiums in South Philly, take in some history in Old City, and enjoy the park in Rittenhouse Square. When you're not in classes, there is plenty to do, no matter how you like to spend your free time. Being the most walkable city in the country according to USA Today 10Best has its perks: concerts, performances, restaurants, and athletic events are all easy to access.

Public transportation is just steps away from campus — it's easy to enjoy an authentic cheesesteak and then visit the famous Philadelphia Museum of Art. You will find that all areas of the city are interconnected by simple means of travel, and getting to historic sites around the city or connecting to various locations across the country is an easy task. Living in Philadelphia provides access to everything from farmers' markets in Lancaster County to ski and snowboarding locations in the Pocono Mountains to the best beaches in the Mid-Atlantic.

Your Future Can't Wait

Ready to become a Dragon? Drexel prides itself on making the application process as smooth as possible. Students applying for first-year admission are offered the choice of applying Early Decision, Early Action, or Regular Decision.

FIRST-YEAR APPLICATION PROCESS

There is no typical Drexel student. Our students are ambitious, curious, complex, and bold. Candidates are selected based on their ability to thrive in our unique academic environment and make contributions to our diverse community. Through a contextual and holistic review process, we carefully consider each applicant, evaluating their personal qualities, academic journey, and intellectual promise.

Application Deadlines

EARLY DECISION NOVEMBER 1

Early Decision is the perfect option for students who know Drexel is the number one school for them and would like a decision in December of their senior year. This is a binding admission plan; if admitted, students must withdraw all other active applications and commit to enrolling at Drexel.

EARLY ACTION NOVEMBER 1

Early Action allows students to apply by an earlier deadline to receive an admission decision in December, but that decision is non-binding.

REGULAR DECISION JANUARY 15

Through the Regular Decision application process, students will receive a decision in early spring.

WINTER ENTRY PROGRAM OCTOBER 1

Students start classes in January, providing them with the same level of academic rigor and more time to plan.

Submitting Your Application

First-year students can apply through either the Common Application or the Coalition Application.

drexel.edu/undergrad/apply

Standardized Test Scores

Applicants can choose whether to include standardized test scores as part of their application under Drexel's Test-Optional policy. International applicants whose first or native language is not English must take an approved English proficiency exam.

drexel.edu/undergrad/apply/tests

Financial Aid

Financial aid is available to domestic and international students in the form of merit scholarships and need-based grants. There are a few applications you should learn about to maximize the financial aid you are eligible for, such as the Free Application for Federal Student Aid (FAFSA) and CSS Profile.

drexel.edu/undergrad/financing

TRANSFER APPLICATION PROCESS

There are many reasons you may consider transferring to Drexel. As you make your transition, we'll be here to help you every step of the way. Drexel has a vibrant and active transfer community. Qualified applications are considered on a rolling basis through all terms. Applications must be received one month prior to the start of the term for which you are applying.

Application Priority Deadlines

STARTING TERM

Fall (September) April

Winter (January)* October

Spring (Late March/Early April)* February

*Not all majors enroll in our off-terms

Submitting Your Application

Transfer students may submit applications through the Common Application or Drexel University's Admission Application.

drexel.edu/undergrad/apply/transfer

Financial Aid

Drexel offers competitive financial aid opportunities for transfer applicants. While students will be reviewed for scholarships during the admissions review process, we highly recommend all U.S. citizens and permanent residents file the Free Application for Federal Student Aid (FAFSA) to be considered for institutional need-based aid; international applicants should submit the CSS Profile to maximize their eligibility for support.

drexel.edu/undergrad/financing

Students who have earned an associate degree at a regionally accredited community college in either Pennsylvania or New Jersey are eligible for The Drexel Promise, a renewable scholarship for 50% of the cost of their tuition as they work to complete their bachelor's degree at Drexel.
