Program Educational Objectives
School of Biomedical Engineering, Science and Health Systems
Undergraduate Program

**PEO – Professional Presence.** As a result, within a few years, the graduate has established an Internet presence, either through professional organizations, social networking and/or other activities which demonstrate an appreciation and use of modern technological capabilities.

**PEO – Workforce Skilled in Integrating Engineering, Design, and Life Sciences.** As a result, graduates will identify opportunities to contribute to society from a variety of positions, ranging from biomedical engineering, biotechnology design and development to practicing clinicians, lawyers, innovators, entrepreneurs and business managers. The graduate may also pursue further education in the form of graduate and professional degrees.

**PEO – Leadership in Research, Innovation and Design.** As a result, the graduate will make significant or meaningful contributions in his or her chosen field, either through research publications and/or presentations, the development of a product or process, obtaining patents for new products and/or processes, or other evidence of contributing to the advancement of knowledge, particularly in fields integrating engineering and the life sciences.

**PEO – Ethical Reasoning, Behavior and Professionalism.** As a result, the graduate will demonstrate adherence to the professional codes of conduct appropriate to his or her field of study and/or practice, as well as exhibit behavior consistent with accepted standards of fiduciary responsibility, good judgment and professional accountability.

**PEO - Communication.** As a result, graduates will have outstanding communication skills as evidenced by their professional publications and/or presentations, and in their productive interactions with co-workers. The graduates may also use their communication skills to foster collaborative effort in the broader community and/or may represent his or her company, institution and/or laboratory to other interested parties.

**PEO – Personal Engagement.** As a result, the graduate will be working independently and/or with others to effectively and efficiently achieve personal and organizational goals, engage in community or public service, create a product or process that fills a social need, and/or participate in educating individuals about an issue of societal concern.
