Drexel to provide educational opportunities in the “practical arts and sciences” for women and men of all backgrounds. The Drexel Institute of Technology gained university status in 1970, becoming Drexel University. On July 1, 2002, Drexel entered a new era as Philadelphia’s technological leader in health sciences education, when the University was officially united with the former MCP Hahnemann University creating Drexel College of Medicine, College of Nursing and Health Professions, and the School of Public Health. In 2005, the Drexel College of Law was created to provide a practical education and experiential learning to a diverse student body. Drexel University’s mission is to serve its students and society through comprehensive, integrated academic offerings enhanced by technology, cooperative education and clinical practice in an urban setting.
