ENTP 450: Launch it!

“Launch It!” is a class in which you will work hard to start your business. It is not a business-planning class. It is designed for you to roll up your sleeves and actually start your company. Seats are limited, so you need to meet certain criteria to qualify for the class. This is because you will be receiving one-on-one guidance and mentoring in the process of starting your company. So, prospective “Launch It!” participants need to demonstrate that they are serious about starting their company.
