Financial Aid:

The University does not provide direct stipends or scholarships to Physician Assistant students. The Financial Aid Office acts as an intermediary for agencies providing scholarships and loan assistance through traditional sources. Due to diminishing amounts of federal scholarship and loan funds, students are urged to actively begin securing financial aid now. Applicants for federal and state scholarships should file immediately. Applications for loans will be accepted by lending institutions in April (please check directly with your bank or savings and loan institution).

Students are also encouraged to investigate additional, lesser known sources of aid such as fraternal organizations, employers' educational funds, etc. Additionally, college/university counselors and the financial aid offices at schools where you may be currently attending are often good sources of financial aid information.
