ARCHITECTURAL ENGINEERING

The Architectural Engineering Major Program prepares graduates for professional work in the analysis, design, construction, and operation of residential, commercial, institutional, and industrial buildings. The program also helps students develop familiarity with all aspects of safe and economical construction. Students study the principles of structural support and external cladding, building environmental systems, and project management and develop depth in at least one of these areas.

The program integrates building disciplines including coordination with architects, construction managers, as well as civil, mechanical, and electrical engineers. Students use computer-aided design tools to understand system interactions, perform cost analysis, and present their work. The first two years of the curriculum cover fundamentals necessary for all engineers. The pre-junior and junior years emphasize building systems and the principles governing their performance. In addition to the core engineering and science, students learn architectural approaches through studio design. Seniors focus on either structural or building environmental systems design, as well as a full-year realistic design project. The academic program is complemented by exposure to professional practice in the co-op experience.

Students wanting specific information about the major are encouraged to stop by the department office at room 251 in Curtis Hall, call the department at 215-895-2341, or visit their website at www.drexel.edu/cae.

**JOB TITLES**

<table>
<thead>
<tr>
<th>Architectural Engineering Intern</th>
<th>Structural Engineer</th>
</tr>
</thead>
<tbody>
<tr>
<td>CAD Drafts person</td>
<td>Transportation Engineering Specialist</td>
</tr>
<tr>
<td>Operational Engineer</td>
<td>Construction Project Engineer</td>
</tr>
<tr>
<td>Special Projects Manager</td>
<td>Engineering Technician</td>
</tr>
<tr>
<td>Structural Designer</td>
<td>Field Inspector</td>
</tr>
</tbody>
</table>

Employers who have hired Drexel students include:

- Ammann & Whitney
- AstraZeneca
- CVM Engineers
- EwingCole
- Grant Thornton, CPA
- Klein & Hoffman
- Kling
- McBride Engineering Solutions
- Pennoni Associates
- Philadelphia Housing Authority
- Philadelphia Streets Department
- Toll Brothers

Please refer to the SCDC website (www.drexel.edu/scdc) for our most recent co-op salary information.
