### Weekly Class Schedule – Class Breakdown

**Why do I have to go to ONE class SO many times?!??!**

1) **Lecture Class (e.g. CHEM 101-A : WF 9:00 – 9:50 AM)**
   - Class where information is first taught in presentation setting

2) **Recitation Class (e.g. CHEM 101-011: T 8:00 – 8:50 AM)**
   - Class where example problems and worked out solutions are presented

3) **Lab Class (e.g. CHEM 101-089: W 4:00 – 5:50 PM)**
   - Class where students conduct experiments based on concepts discussed in lecture and recitation classes

**ALL of these classes are equally important to your overall grade!**

- **Online Classes**
  - UNIV 101 is provided online. Online classes are just as important as regular classes
Weekly Class Schedule – Class Breakdown

### Exam 080? What are THOSE!?
- Exam 080, also known as common exams, are not actual weekly classes. They are time slots designated in your schedule to reserve time for exams you will have to take for any class. Thus, you will only have these exam periods when you have an exam for a class.

### What does “R” mean in my class schedule?
- Classes will list the days of the week the class will be taking place. In the detail schedule (later shown), letters are used to represent days of the week. In order to distinguish between Tuesday and Thursday, the letter T will represent Tuesday and the letter R will represent Thursday.
