Join our diverse and vibrant Drexel Dornsife School of Public Health community. Understand what drives the health of populations and what we can do to make them healthier. Create healthier cities. Gain real-world experience in Philadelphia and be prepared to make an impact on the health of cities all over the world. Partner with policy makers and communities to eliminate health disparities. Learn to translate evidence into practice and policies.

Our programs combine rigorous training with hands-on, practical experiences. Students benefit from engagement with a broad set of community partners and collaborators in Philadelphia and across the globe.

Founded on the principle that health is a human right, the Dornsife School of Public Health is committed to improving population health and promoting health equity by generating rigorous evidence and transforming that evidence into action.

Drexel University is home to the only fully accredited school of public health in the Philadelphia region.

For the most up-to-date list of programs, please visit drexel.edu/grad/pubhealth.
Dornsife School of Public Health academic programs prepare graduates to identify what drives the health of populations and what we can do to make them healthier.

Our students benefit from training that is broad in scope but also focused on skills and practical experiences. Students work with faculty who are committed to creating an inclusive environment that promotes learning and exchange and supports the individual needs of students.

Four departments and eight centers provide extensive opportunities for student engagement in research and practice as part of their program. Faculty expertise spans a range of areas in research, as well as public health practice and policy.

Our students also benefit from our close connections to hundreds of partners from government, business, nonprofits, and communities in the city of Philadelphia.

A newly designed MPH curriculum emphasizes the solid interdisciplinary training and practical skills needed to address today's public health challenges, while allowing for specialization through graduate minors. Learn how to complete your MPH degree in only five quarters, giving you a head start in the job market.
The Dornsife School of Public Health is located in the newly renovated Nesbitt Hall in the geographic heart of Drexel's University City Campus. Nesbitt Hall includes two large lecture halls, research and collaboration space, and the University's only dedicated space for nursing mothers. The Dornsife School of Public Health is within close proximity to the Hagerty Library, Drexel Recreation Center, and numerous academic facilities.

The Dornsife School of Public Health is also home to a number of innovative research centers and projects including:

- The A.J. Drexel Autism Institute
- Center for Firefighter Injury Research & Safety Trends
- Center for Hunger-Free Communities
- Center for Nonviolence and Social Justice
- Center for Population Health and Community Impact
- Center for Public Health Readiness and Communication
- Maternal and Child Health Program
- Urban Health Collaborative

**“We champion health as a human right, and we view social justice as critical to health.”**
PHILADELPHIA
Philadelphia is the nation's sixth largest city, with a metropolitan population of over six million. It is renowned for its historical sites and the diversity of its neighborhoods, and as a center of the pharmaceutical, electronics, and finance industries. The city offers countless arts, entertainment, and recreational attractions including museums, theaters, major league sports franchises, and one of the nation's largest urban park systems, as well as first-class shopping, dining, and nightlife.

ADMISSION
Admission for graduate study at Drexel University requires a bachelor's degree from an accredited institution in the United States or an equivalent international institution. Although admission requirements vary by program, regular admission typically requires a minimum grade point average (GPA) of 3.0 for the last two years of undergraduate work. The GPA for any graduate work must be at least 3.0. Applicants for post-master's status must show potential for further study by having maintained at least a 3.0 GPA in their master's-level studies. (Individual departmental requirements may exceed this minimum.) Applicants apply to all programs through SOPHAS. The Admissions Committee evaluates all credentials submitted by applicants to determine a student's ability and potential to succeed in graduate study. In addition, the committee is interested in the applicant's ability to contribute to his/her program of study and to the University community as a whole.

Applicants may only apply to one program at a time. Apply online at drexel.edu/grad/apply.

FINANCING
Students must complete the Free Application for Federal Student Aid (FAFSA) to be considered for federal aid. Students must complete this form annually to determine eligibility. File online at fafsa.gov using Drexel's school code, 003256. To learn more, visit drexel.edu/grad/financing.

Two thirds of MPH students in the class of 2016 received scholarships. For MD/MPH students, credit is awarded for Drexel University College of Medicine coursework and generous tuition support is available for the MPH component of the dual degree.

Additional information is available at drexel.edu/dornsife/admissions/scholarships-tuition-financial-aid.

Merit-based aid in the form of fellowships and scholarships, as well as teaching, research, and assistantships, are awarded by the graduate departments based on availability of funds. You are automatically considered for merit scholarships; however, questions regarding assistantships should be directed to sphadmissions@drexel.edu.
