UNIV 241: Modern Medicine

[Modern Medicine: Examining the State of the Art](#)

UNIV 241 (listed under “University-Wide Courses”)
Spring Term, 2008, Thursdays, 6:00-8:50 p.m., 3 credits

<http://www.drexel.edu/greatworks/>

What are the frontiers of medical research and practice today? How do medical schools REALLY work? Where does medical research funding come from, and how does it get spent? How did we decide what counts as “medicine” anyway? If the state of the art in medicine is interesting to you, then you won’t want to miss the next Great Works Symposium on “Modern Medicine.”

UNIV 320: Writing and Peer Tutoring Workshop

UNIV 320 is a writing course that gives you the opportunity to reflect on writing and to grow as a writer. We will approach the subject of writing and creativity through the question of how and what it means to help others with their writing. We will read and discuss many aspects of writing as it pertains to a university environment, society at large, and to our personal lives. Furthermore, as a member of UNIV 320, you will take part in a unique program to bring a culture of writing to Drexel University. As such, the course will train you to work as a peer tutor in the University Writing Program. After successful completion of the course, you will be assigned to a particular writing intensive course and paid \$715.00 per term. UNIV 320, along with continuing in-service training during each term will give you an introduction to the pedagogy and experience you will need to be an effective peer tutor.

Find this course on-line under “University-wide Courses.” For further information and enrollment approval, contact Harriet Millan, millanhl@drexel.edu.
