Welcome to Keystone Health Plan East POS

About this provider directory

This directory contains a list of participating primary care physicians (PCPs), specialists, hospital and ancillary providers that are part of the panel for your TenetPreferred program. You also have access to other available medical providers and facilities, which are part of the Keystone Health Plan East Point-of-Service (POS) network. For updated or more detailed information on the Keystone Health Plan East POS network, visit our website at www.ibx.com or call Customer Service at 1-800-ASK BLUE (1-800-275-2583), Monday through Friday, 8 a.m. to 6 p.m. to request a hard copy directory.

Under your TenetPreferred program, you must choose a primary care physician (PCP) to directly provide your health care and refer you to specialists when required. Each family member may choose his or her own PCP, including a pediatrician for children. You have two options in choosing a PCP, and those options are summarized below. Please refer to your benefits materials for details. Choose carefully to maximize your benefits.

- **Lowest out-of-pocket option.** By choosing a PCP from this TenetPreferred directory you will receive the highest level of benefits under your benefits program. Your co-pays are lower, and most provided services are 100 percent covered if you receive services from a TenetPreferred physician or hospital. If you need specialty or hospitalization care, ask your PCP to refer you to a provider listed in the TenetPreferred directory to maximize your benefits.
- **Highest out-of-pocket option.** Keystone Health Plan East POS allows you access to all other participating Keystone Health Plan East PCPs, specialists, and hospitals in the Keystone Health Plan East POS network. Your out-of-pocket costs will be highest if you seek care from PCPs, specialists and hospitals that are not listed in the TenetPreferred directory.

This TenetPreferred directory is current as of the date it is published. It is important to know that when you enroll in this plan, covered services are provided through the Keystone Health Plan East POS health care provider network. Keystone reserves the right to add or delete participating physicians, hospitals, and/or other health care providers at any time. Keystone cannot guarantee the continued participation of any one doctor, hospital, or other health care provider. *It is very important that you verify your provider's network membership before receiving services.* The information in this directory is current as of the date listed on the back cover which is the date the printed directory was submitted for publication. For updated or more detailed information regarding participating providers, visit our website at www.ibx.com, or call Customer Service at 1-800-ASK-BLUE (1-800-275-2583), Monday through Friday, 8 a.m. to 6 p.m.

Primary Care Physicians

When you join Keystone, you must select a primary care physician (PCP). This provider, either a group of physicians or a solo practitioner, will provide or arrange for all medically necessary services. Each PCP has a provider identification number under his or her name or practice name. *Enter this number on your Enrollment Form.* This directory contains a list of the TenetPreferred primary care physicians that you can access for care and maximize your benefits. You also have access to all Keystone Health Plan East POS participating primary care physicians, however, your out-of-pocket costs will be higher.

This section also identifies PCPs who have been recognized as Patient-Centered Medical Homes (PCMH) by the National Committee for Quality Assurance (NCQA). Practices with a PCMH designation are organized with a physician who leads a team of care managers and health educators to help make sure patients, particularly those with chronic illnesses, receive key tests, take medication as directed, and have access to tools and resources to stay well. The PCMH is intended to provide more personalized, coordinated, effective, and efficient care. Practices that achieve NCQA's PCMH recognition meet specific standards to enhance access and communication, provide patient self-management support, and track and coordinate care. PCMH practices are identified by an asterisk next to their office address as either 2008 Patient-Centered Medical Home or 2011 Patient-Centered Medical Home recognition. For more information regarding Patient-Centered Medical Homes, visit our website at www.ibx.com or www.ncqa.org.

This section is arranged alphabetically by state, county, type of practice, and then by practice or provider name within each listing. Each entry includes the practice or provider name, provider identification number, address, phone number, and the participating physicians within the practice (if applicable).
