This material is for informational purposes only. Not all health services are covered. See plan documents for a complete description of benefits, exclusions, limitations and conditions of coverage. Plan features and availability may vary by location and are subject to change. Providers are independent contractors and are not agents of Aetna. The availability of any particular provider cannot be guaranteed, and provider network composition is subject to change. Aetna does not provide care or guarantee access to health services.

In case of emergency, members should call 911 or the local emergency hotline, or go directly to an emergency care facility.

The following is a partial listing of exclusions and limitations under the Aetna MedicareSM Plan (PPO):

- Services that are not medically necessary or covered under the Original Medicare Program;
- Plastic or cosmetic surgery unless medically necessary;
- Custodial care;
- Experimental procedures or treatments beyond Original Medicare limits;
- Routine foot care that is not medically necessary

Higher cost sharing may apply for out-of-network services. Precertification, or prior approval of coverage, is requested for certain services. Providers must be licensed and eligible to receive payment under the federal Medicare program.

Health information programs provide general health information and are not a substitute for diagnosis or treatment by a physician or other health care professional. Information is believed to be accurate as of the production date; however, it is subject to change.

Discount programs provide access to discounted prices and are not insured benefits. The member is responsible for the full cost of the discounted services.

Health benefits and health insurance plans contain exclusions and limitations.

*The Medicare Coverage Gap Discount Program will provide manufacturer discounts on brand name drugs to Part D enrollees who have reached the coverage gap and are not already receiving "Extra Help." A 50% discount on the negotiated price (excluding the dispensing fee) is available for those brand name drugs from manufacturers that have agreed to pay the discount.

There are three general rules about drugs that Medicare drug plans will not cover under Part D. This plan cannot:

- cover a drug that would be covered under Medicare Part A or Part B.
- cover a drug purchased outside the United States and its territories.
- generally cover drugs prescribed for “off label” use, (any use of the drug other than those indicated on a drug's label as approved by the Food and Drug Administration) unless supported by criteria included in certain reference books (eg, American Hospital Formulary Service Drug Information, the DRUGDEX Information System and the USPDI) or its successor).

Additionally, by law, the following categories of drugs are not normally covered by a Medicare Prescription Drug Plan unless we offer enhanced drug coverage for which additional premium may be charged. These drugs are not considered Part D drugs and may be referred to as “exclusions” or “non-Part D drugs”. These drugs include:

- Drugs used for the treatment of weight loss, weight gain or anorexia;
- Drugs used for cosmetic purposes or to promote hair growth;
- Prescription vitamins and mineral products, except prenatal vitamins and fluoride preparations;
- Barbiturates;
- Outpatient drugs that the manufacturer seeks to require that associated tests or monitoring services be purchased exclusively from the manufacturer as a condition of sale;
- Drugs used to promote fertility;
- Drugs used for symptomatic relief of cough and colds;
- Non-prescription drugs, also called over-the counter (OTC);
- Benzodiazepines;
- Drugs when used for the treatment of sexual or erectile dysfunction.

Aetna receives rebates from drug manufacturers that may be taken into account in determining Aetna's Preferred Drug List. Rebates do not reduce the amount a member pays the pharmacy for covered prescriptions.

Enrollees must use network pharmacies to receive plan benefits except in limited, non-routine circumstances when a network pharmacy is not available, including illness while traveling within the United States but outside of the plan's service area where there is no network pharmacy. An additional cost may be incurred for drugs received at an out-of-network pharmacy. Quantity limits and restrictions may apply.
