Behavioral Interviewing

What is it?
Evaluates a candidate’s (YOUR) experiences and behaviors in order to determine their potential for success.

Why is it used?
Based on the premise that past performance is the best predictor of future behavior.
The STAR Method

A structured manner of responding to a behavioral-based question.

**Situation:** Describe a specific event or situation, not a generalized description, of what you have done in the past.

**Task:** What goal were you working toward?

**Action:** Describe the actions you took to address the situation with an appropriate amount of detail and keep the focus on YOU.

**Result:** Describe the outcome of your actions and don’t be shy about taking credit for your behavior.
