The Hedwig van Ameringen Executive Leadership in Academic Medicine® (ELAM) program aims to increase and sustain the number and impact of women in academic leadership positions in the health sciences.

A Legacy of Leadership
ELAM carries on the legacy of advancing women in medicine begun by the Female Medical College of Pennsylvania, the nation’s first women’s medical school. ELAM continues as a national resource hosted by Drexel University College of Medicine. Since its inception, the one-year, part-time fellowship has expanded to target diverse health professions and to reach a broader, global stage.

A Timeline of Expanding Influence
1995 – medical school faculty
1997 – dental school faculty
2003 – pharmacy school faculty
2006 – faculty from schools of public health
2012 – international medical schools

Over 1000 Fellows have been sponsored by 85% of accredited U.S. medical schools
50% of accredited U.S. dental schools
In addition, 34 public health faculty have completed the program

Five have come from schools outside of North America (Brazil, Britain, Saudi Arabia, Switzerland). 74 schools have had 5 or more fellows, and of those, 39 have had 10 or more fellows.

Recognized for Excellence
1999 American Council on Education’s Office of Women in Higher Education Network Leadership Award
2004 American Dental Association’s Dr. Edward B. Shils Entrepreneurial Education Fund Award
2010 Association of American Medical Colleges’ Women in Medicine Leadership Development Award
2015 American Dental Education Association Gies Award for Outstanding Vision, Public or Private

ELAM-based Research
Funded by foundations including the Robert Wood Johnson Jr. Foundation and the NIH. Results, which have been published in numerous academic journals, show that:
- Deans at medical and dental schools in the U.S. and Canada report positive impact of ELAM alumnae on their schools and the alumnae themselves.
- Compared to other mid-level and senior women faculty, ELAM participants are more likely to hold administrative leadership appointments, achieve full professor rank, and report leadership aspirations, education, and skill.
- Participation in the ELAM program increases self-efficacy.
Changing the Face of Academic Leadership
Alumnae of the Hedwig van Ameringen Executive Leadership in Academic Medicine program hold executive leadership positions at 247 academic health organizations. These include:

61 Chief Executive / Academic Officers (Presidents/Chief Executive Officers, Executive Directors, Provosts and Chancellors)
17 Associate / Vice / Senior Associate Provosts
48 Vice Presidents
32 Deans of Accredited U.S. Schools
- 16 of the 26 women deans at medical schools
- 7 of the 12 women deans at dental schools
- 4 of the 13 women deans at public health schools
- In addition, 5 ELAM graduates are deans of U.S. graduate schools
181 Associate / Senior Associate / Vice Deans
- 154 at medical schools
- 18 at dental schools
- 14 at public health schools
185 Department Chairs
- 158 department chairs at medical schools
- 16 at dental schools
- 11 at public health schools

15% of alumnae identify as racial or ethnic minorities (African American, Asian American/Pacific Islander, Hispanic/Latina, Native American/Alaskan Native).

Leading Organizational Change
Institutional Action Projects started during the fellowship address needs and priorities of home institutions and promote organizational change. These initiatives apply learned strategies in program and relationship building to a broad range of challenges resulting in:

- New medical and dental curricula
- Comprehensive faculty mentoring and career development programs
- Translational centers for biomedical research, clinical innovation and community engagement
- New policies for faculty recruitment, retention and compensation
- Global health research and outreach strategies
- Clinical quality improvement programs’ design and implementation

*Note that all statistics are according to ELAM records as of October 2017.*
