RULES & REGULATIONS

A Message About Participant Safety & Responsibility

All participation is voluntary and participants assume all risks when they take part in any activity. It is the responsibility of all participants to verify their own health, accident and injury insurance status and to consult a physician prior to participation. The University does not provide health, accident and injury insurance for recreational activities.

In addition, we ask that participants report any concerns to Recreation Center staff such as: unsafe facilities, out of order equipment, any leaks or spills, a member who is not feeling well, or having difficulty performing an activity, a member who is engaging in an unsafe activity, or any potential concerns you may have so that we may investigate. Should an injury occur in the facility and/or during participation in any program, a facility manager will make arrangements for emergency transportation when appropriate. In case of facility emergency, fire alarm or the like, all facility users are to exit at the nearest exit sign immediately.

This brochure is meant to provide a basic overview of area policies in our facilities that are formulated to ensure a safe, secure and comfortable facility for campus recreation experience. We reserve the right to add, delete or adapt a policy for the best interest of participant safety and facility management. Any questions, please contact Dan Simmons, the Senior Associate Athletic Director for Recreational Athletics at 215-895-2025 or des26@drexel.edu
