

### CO-OP & CAREER GUIDES

## **ENVIRONMENTAL STUDIES**

The BS in Environmental Studies is an interdisciplinary program that draws on the University's

academic strengths in science, technology, social science and communication. Courses and faculty are drawn from a diverse set of academic programs: including the natural sciences, social sciences and the humanities. The program also benefits from Drexel's urban location -- as issues related to urban sustainability policy and planning, including urban redevelopment and land reuse practices, transportation policy, green building, energy efficiency, urban farming and food systems, recycling, and racial and class-based environmental justice and health -- are core topics of the program of study.

# Employers who have hired Drexel students include:

Abington Reldan Metals, LLC
Philadelphia Department of Commerce
Philadelphia Water Department
Philadelphia Zoo
The Partnership CDC
The Humane League of Philadelphia

The Environmental Studies degree is designed to prepare students for a wide set of vocational opportunities with governmental agencies, corporations, and nonprofit organizations that develop, implement and communicate environmental policies. Students are strongly encouraged to gain valuable professional experience through Drexel's cooperative education program.

Students wanting specific information about the major are encouraged to stop by the department office in room 326 in the PSA Building, call the department at 215-895-2455 or visit their website at <a href="https://www.drexel.edu/culturecomm/ccdept/programs/envr/es">www.drexel.edu/culturecomm/ccdept/programs/envr/es</a> main.asp.
