

BS IN ENGINEERING

The Bachelor of Science in Engineering (BSE) is a flexible and customizable undergraduate program offered through the College of Engineering. The BSE program is designed for students who are seeking a broad interdisciplinary education rooted in engineering. The major is structured so students achieve a strong foundation in the basic sciences, math and fundamentals of engineering. Upper level engineering electives can be chosen to fit the individual interests and career objectives of the student.

The BSE program allows the student to create their own engineering curriculum path with the assistance of their BSE advisors. The program is also flexible enough to allow students to complete up to two minors in other areas of interest such as environmental studies, finance, entrepreneurship, media arts, pre-law or pre-med.

Common B.S. In Engineering Plans of Study include:

- Engineering/Pre-Law
- Engineering/Entrepreneurship
- Engineering/Business Administration
- Engineering/Pre-Health
- Engineering(BSE)/MBA

Students wanting specific information about the major are encouraged to stop by the department office in the Bossone Research Center, call the department at 215.895.2241, or visit their website at drexel.edu/engineering/programs/undergrad/Engineering/BSE.

Employers Who Have Hired Drexel Students Include:

AECOM/DMJM Harris
AT&T Mobility
CDI Corporation
Cigna
Exelon Corporation
Faithful+Gould
Intel Corporation
Johnson & Johnson
Pfizer
Philadelphia Water Department

JOB TITLES

Business Analyst
Data Analyst
Engineering Technician
Product Designer

Production Assistant
Project Manager
Research Assistant
Systems Engineer
