

## **FINANCE**

A strong global economy relies upon professionals who have a mastery of how to allocate money to its highest valued use. The study of finance provides students with an in-depth understanding of how businesses raise and invest capital, how individuals allocate their savings among different investment alternatives, and how markets function to equate the demand for capital by firms and the supply of capital by investors.

Students wanting specific information about the concentration are encouraged to stop by the department office at Gerri C. LeBow Hall, call the department at 215.895.2145, or visit their website at: [lebow.drexel.edu/academics/disciplines/finance](http://lebow.drexel.edu/academics/disciplines/finance).
