

## INFORMATION TECHNOLOGY

BSIT students learn how to understand and apply core information technologies; approach the application of information technology from a user-centered perspective aimed at meeting the needs of users and organizations in a societal and global context; apply sound methods and approaches to identify and analyze IT problems and design, implement, and evaluate effective and usable IT solutions; display personal and interpersonal IT career skills, including the ability to work on a team, to communicate with technical and nontechnical people, and to pursue lifelong learning. In addition to the core coursework in information systems and information technology, the major includes 12.0 credits towards a minor in business. Only 12.0 additional credits would be required to complete a minor in business.

Students wanting specific information about the major are encouraged to stop by the department office at room 306 of the Rush Building, call the department at 215.895.2474, or visit their website at [cci.drexel.edu](http://cci.drexel.edu)
