

PATHWAYS TO HEALTH PROFESSIONS

The College of Nursing and Health Professions' Pathway to Health Professions Bachelor of Science degree enables students to fulfill all of the health science prerequisites for post-baccalaureate and graduate programs. This fully integrated program prepares students for careers in nursing, cardiovascular perfusion, physician assistant studies, exercise physiology, cardiac rehabilitation therapy, occupational therapy, and physical therapy.

The curriculum is a four-year course of study with one co-op experience and is centered on courses in the natural sciences, health sciences, as well as elective courses in mathematics, humanities, and social sciences. Courses in clinical research are also included, which prepare students for possible employment in clinical research settings.

Students desiring specific information about the major are encouraged to contact the Undergraduate Admissions Office at 1.800.2.DREXEL. Students are also encouraged to visit the website at drexel.edu/healthAdmin/programs/healthProfessions.
