

## ENVIRONMENTAL STUDIES AND SUSTAINABILITY

The BA in Environmental Studies and Sustainability is for students who want to address contemporary environmental issues from the perspective of the humanities. By taking courses alongside their classmates in the Environmental Science and Geoscience programs, these students gain a valuable background in field research and the basics of environmental sampling. This technical expertise complements the liberal arts skills they gain in communication, collaboration, creative and critical thinking, leadership, and — equally important — optimism. Through Drexel's co-op program, students in this major gain the competitive edge of occupation-specific skills and knowledge and a sense of professionalism.

**Employers Who Have Hired Drexel Students Include:**

Academy of Natural Sciences of Drexel University  
 CDM, Inc.  
 EDF Renewable Energy  
 MilkCrate  
 Philadelphia Water Department  
 The Schuylkill Center for Environmental Education

This BA program prepares students to work in government agencies; corporations; and nonprofits that develop, implement, or are affected by environmental policies. Fields of interest include:

- Sustainability Planning and Implementation
- Urban, Regional, and Community Planning
- Geographic Information Systems
- Environmental Communications
- Environmental Journalism
- Environmental Law
- Park Management and Outdoor Recreation
- Environmental Consulting
- Environmental Policy Analysis

Students wanting specific information about the major are encouraged to stop by the Department of Biodiversity, Earth & Environmental Science at 3201 Arch Street, Ste. 240, call 215.571.4639, or visit the department's website at [drexel.edu/bees](http://drexel.edu/bees).
