

HEALTH SCIENCES

The Bachelor of Science in Health Sciences program at Drexel University exposes students to a wide variety of careers in healthcare and related professions. Our emphasis on interdisciplinary study coupled with expert faculty gives students the opportunity to explore different facets of health-related professions before matriculating into specialized graduate programs or entering the workplace. Whether you are on the fast track to a career in health professions or still finding your path, our Health Sciences program offers a multitude of options for completing your degree.

Courses in health and clinical sciences, research methods, statistics, and healthcare ethics are combined with a core curriculum of mathematics, humanities, and social sciences to provide a fully integrated and comprehensive curriculum. Our multidisciplinary approach enables students to develop clinical, research, and interpersonal skills that provide a highly competitive edge in the marketplace and admission to post-graduate studies.
