

INFORMATION SYSTEMS

The Bachelor of Science in Information Systems (BSIS) emphasizes the efficient design and use of information and information technologies. The information systems curriculum has no single application focus. It is directed toward the art and science of managing information in all application environments. Students learn how to determine information needs, design appropriate information systems, manage those systems, and measure the systems' performance. The emphasis is on the users of computers, and on building professional-level information systems skills. To further emphasize the business aspect of the degree, the BSIS curriculum includes a built-in business minor.

Students interested in specific information about the major are encouraged to stop by the department office in Room 306 of the Rush Building, call the department at 215.895.2474, or visit drexel.edu/ccci.

Employers Who Have Hired Drexel Students Include:

Cigna Corporation
COMCAST CORPORATION
Day & Zimmermann, Inc.
Dechert, LLP
Drexel University
Independence Blue Cross
Johnson & Johnson
JPMorgan Chase & Co
Morgan Lewis Bockius
NRG Northeast Retail (formerly
Energy Plus)
PJM Interconnection LLC
SAP America
University of Pennsylvania

JOB TITLES

Business Intelligence Analyst
Data Warehouse Developer
Information Security Analyst
IS Enterprise Architect
Operations Data Intelligence
Quality Assurance Analyst

Relational Database Developer
Software Quality Assurance
Support Specialist
Systems Administrator
User Experience Designer
Web Application Developer
