

HEALTH PROFESSIONS

AT DREXEL UNIVERSITY

DREXEL UNIVERSITY
PHILADELPHIA, PA

Because Compassion Can't Wait

A NOTE FROM OUR DEAN OF UNDERGRADUATE ADMISSIONS

Are you driven by your passion for helping people? Does your empathy fuel your desire to improve the quality of life of anyone facing medical hardship? Is your ultimate goal to work toward making the world a healthier place? If so, the nursing and health professions programs at Drexel University might be right for you. A Drexel education can give you direct access to working professionals and patients, building your career the moment you enter your first course.

Drexel is a premier global R-1 level research institution that has been preparing students through practical and experiential education for over 125 years. Our innovative model of learning pairs world-class academics with real-world experience, uniquely preparing students to thrive and excel in their fields.

Having served as a successful blueprint of career training since 1919, our cooperative education program (known as co-op) provides students with the opportunity for professional work before graduation. Drexel Dragons experience their chosen industries with the leaders of today and gain the necessary firsthand knowledge to become the leaders of tomorrow. Students leave our doors on graduation day with a full understanding of the path they have chosen.

This is a place that will allow you to develop your skills and encourage you to use them for the greater good. Utilizing academic and volunteer-based partnerships with our community, our students are among the most engaged students in the nation. They are not only making an impact on campus, but also in the city of Philadelphia and around the world through academics, service, and leadership.

At Drexel, you can make your mark on the world. I encourage you to explore our nursing and health professions programs – along with everything else this great University has to offer you.

Sincerely,

Michael J. Keaton
Dean of Undergraduate Admissions

Benjamin Franklin Parkway, Philadelphia

01 NURSING

Nurses save lives every day. Those who commit to mending the ailments of others are some of the most valuable and virtuous members of society. To dedicate one's life to helping others is in itself commendable, but the ability to think critically, respond quickly under pressure, and work tirelessly in the most challenging of settings is admirable on a far more elevated level. With a Drexel education, you can use your passion to make a difference in an emergency department, hospital, or private practice.

Starting on your first day, you'll be challenged by the best techniques that health care has to offer, developing patient-focused skills through interactive labs that simulate real-world scenarios. Along with interprofessional training and clinical experience, you'll find direct patient access, collaboration with health professionals, and Drexel's renowned cooperative education program, also known as co-op. Through co-op, your classwork will mesh with firsthand experience, as you partner with thought leaders in the industry and work one on one with actual patients — all before you graduate.

By the time you receive your degree, you will be equipped with the powerful tools that allow you to carry out your desire to help others. Drexel's Nursing program will allow you to make a lasting impact on the world around you. Learn more about our Nursing program at drexel.edu/academics.

HEALTH
PROFESSIONS &
PUBLIC HEALTH

College of Nursing and Health Professions

Along with the nurses who keep a practice functioning come those who design and implement the next wave of health care innovation. Through the desire to improve the health and well-being of those around them, counselors, advocates, and administrators have pushed profound advancement within the last century. These continuous improvements to access and quality of care require experts who dedicate their time to honing skillful application, allowing people around the world to successfully seek and find help from their caregivers.

Whether your goal is to counsel those struggling with addictions, aid recovering patients through specialized physical therapy regimens, or champion health care as a human right around the world, Drexel provides the knowledge and hands-on training you'll need to excel in this forward-thinking industry. Located in Philadelphia, a vital hub of the medical community, our unique model allows you to strengthen and build upon your technique side by side with leading professionals.

This combination of traditional learning, clinical, and hands-on experience, as well as community service, will not only prepare you to succeed after graduation but will allow you to hit the ground running in your chosen industry. The next wave of health care revolution is here. Learn more about our Health Professions and Public Health programs at drexel.edu/academics.

PRE-HEALTH PROFESSIONS

Before you enter the workforce as a medical professional, whether you aim to become a veterinarian, pharmacist, dentist, doctor, or anything in between, you must lay the groundwork to build your career upon. These prestigious roles require hard work and professionalism as well as a rigorous and demanding education. Drexel's pre-health options will set the stage for your future in your chosen industry and arm you with the necessary knowledge to excel within it.

Drexel students enjoy a wide variety of opportunities that prepare them for a successful future. Our BA/BS+MD Early Assurance Program provides combined admission into your undergraduate program and Drexel University College of Medicine, streamlining your path to becoming a doctor. Although traditional pre-health majors are designed to prepare you for a career as a medical doctor, a Drexel education can also prepare you for veterinary, dental, or pharmacy school. In each program, you'll work alongside pre-health advisors who will guide you to choose the right courses, identify your career goals, and apply for medical school.

A Drexel pre-health education will give you a competitive edge and a full résumé of work experience before you graduate; no other school can uniquely prepare you for your chosen industry in the way that Drexel's cooperative education can. Learn more about our opportunities for the pre-health professions at drexel.edu/academics.

FOOD SCIENCES

Culinary Arts and Sciences Students

The health professions are tethered to the welfare of communities at large. The cornerstone of health is diet; with a meticulous work ethic and a desire to improve the quality and access of food, you can make a direct impact on the lives of those around you. Through Drexel, you'll be connected with and take part in nutrition centers, top restaurants, food manufacturers, and anything in between.

Food scientists and culinary professionals serve essential roles that change and improve lives every day. From your first day at Drexel, you'll learn the science, history, culture, systems, and business of food, applying that knowledge to understanding the influence of nutrition on humankind. Whether you intend to promote and create sustainable practices through the reduction of food waste, combat childhood obesity, run a five-star restaurant of your own, or simply promote a healthy lifestyle, Drexel can aid you in your quest to improve the health and safety of society.

By the time you graduate and are ready to enter the workforce, you will have already built a résumé of real-world experience that will set you apart from your peers. At Drexel, you'll partner with the leaders of the industry to explore and shape the food culture of tomorrow. Learn more about our food sciences programs at drexel.edu/academics.

COLLEGES

COLLEGE OF ARTS AND SCIENCES

The College of Arts and Sciences challenges students to see beyond their own perspectives, understanding the problems of today to pioneer the solutions of tomorrow. With a diverse range of programs spanning the humanities, social sciences, and natural sciences, faculty and students continue to drive positive change in the world, in areas as disparate and important as cancer research, environmental sustainability, and prison reform. The college provides a comprehensive, real-world education that empowers graduates to respond confidently to the world’s most pressing issues — now and long into their future.

SCHOOL OF BIOMEDICAL ENGINEERING, SCIENCE AND HEALTH SYSTEMS

The School of Biomedical Engineering, Science and Health Systems promotes health and quality of life through education, research, and innovation that integrates engineering and life sciences in a global context. The school teaches students to develop solutions and see opportunities to translate science into saving lives and improving health while encouraging expansive collaboration and networking that will prepare them for the world’s emerging biomedical challenges.

COLLEGE OF ENGINEERING

The College of Engineering continues its long tradition of education that brings the theoretical into real-world application. The academically comprehensive, globally engaged institution prepares students to engineer change and lead in fields like architectural, civil, computer and cybersecurity, mechanical, materials science, chemical engineering, and more. Through practical experience, and knowledge gained from renowned faculty who engage in novel research and teach the foundations of engineering and courses in emerging subjects, students connect to the world around them and to the exciting advances that aim to solve society’s greatest challenges.

COLLEGE OF NURSING AND HEALTH PROFESSIONS

The Drexel University College of Nursing and Health Professions (CNHP) is a vibrant and values-driven educational community which prepares students to become successful professionals who excel in a rapidly changing environment. Students build strong professional foundations as they engage in hands-on experiential learning, and through mentorship of expert faculty and experienced leaders. At CNHP, our students aren’t content to accept the world as it is. They are people of purpose who embrace the role of change agent, enlisting in the noble and necessary work of finding innovative, evidence-based solutions to systemic problems such as eliminating health disparities. And they understand that solving the problems we face in our nation and world today require bringing together people from across different disciplines, with different experiences, expertise, and perspectives. It will take a team-based collaborative approach—one of the hallmarks of a CNHP education.

DORNSIFE SCHOOL OF PUBLIC HEALTH

The Dornsife School of Public Health prepares ambitious students to fight for the health and human rights of the world’s growing urban populations and use the insights and innovations to benefit communities of all types around the world. Dornsife prepares students with experience in and out of the classroom, research opportunities, and partnerships with local organizations to improve the health of populations.

COLLEGE OF ARTS AND SCIENCES

The College’s diverse academic programs provide countless hands-on experiences across campus and beyond. Students collaborate on disciplines in labs, research facilities, and creative spaces, including:

- **The Academy of Natural Sciences of Drexel University**, ranked by Best College Reviews as the #2 “Most Amazing Higher Ed Natural History Museum” in the country! The Academy offers students access to exciting research opportunities and more than 18 million specimens and archival collections.
- **The Papadakis Integrated Sciences Building**, a 130,000 square-foot LEED Gold-certified facility with state-of-the-art teaching and research laboratories, classrooms, and North America’s largest biowall.

SCHOOL OF BIOMEDICAL ENGINEERING, SCIENCE AND HEALTH SYSTEMS

The school offers many resources for collaboration with other colleges and schools at Drexel and beyond, including:

- **Bossone Research Center**, which features various specialized labs dedicated to research in biomedical systems and imaging, biomechanics, biomaterials and tissue engineering, bioinformatics and computational engineering, cardiovascular engineering, neuroengineering, and drug delivery.

COLLEGE OF ENGINEERING

The College is located on our University City campus in several buildings across campus with labs and new equipment that prepares students to take on the challenges in industry and research, including:

- **The Innovation Studio**, a 20,000-square-foot makerspace combining design and fabrication where first-year engineering students begin doing hands-on engineering design from their first term all the way through senior design in their culminating project. Working together, students generate concepts and then take their designs to production via 3D printers, soldering stations, the wood shop, or the Drexel Machine Shop.
- **A.J. Drexel Nanomaterials Institute (DNI)**, the College’s newest lab, is one of the best-equipped in the world for the synthesis, characterization and electrochemical testing of novel materials, with room for up to 50 researchers. Across the College, research opportunities are widely available to undergraduates through the University’s STAR program, department programs, and faculty research labs.

FACILITIES & RESOURCES

COLLEGE OF NURSING AND HEALTH PROFESSIONS

The college will be opening its new state-of-the art facility in 2022. Some of its current resources that reinforce best practices in health care include:

- **Stephen and Sandra Sheller 11th Street Family Health Services at Drexel University**, a health center where nursing, nutrition sciences, behavioral health counseling, health sciences, and health administration students learn from the nurse leaders and clinicians.
- **Center for Interprofessional Clinical Simulation and Practice**, which allows students to safely practice patient interactions and care in clinical settings on computerized manikins and standardized patient actors, enhancing students’ skills prior to real patient contact.
- **The Human Anatomy Laboratory**, which provides a unique hands-on learning experience for undergraduate and graduate students taking human anatomy courses.
- **Drexel Food Lab**, a lab space incorporating food analysis that is utilized for upper-level food science coursework.
- **Community Wellness HUB**, which is a place-based, community-driven, health promotion partnership between Drexel University and the residents of Mantua and Powelton Village. Through the support of volunteer staff, the HUB offers free health and wellness programming and disease prevention education, including screening, counseling, and referral services, that addresses the top health needs of Mantua and Powelton Village residents, uncovered while conducting the “We’re Here Because We Care” Building Healthy Communities Together initiative.
- **Academic Bistro**, which is our unique dining room that serves as a classroom both for our students and for some of the area’s best chefs and food minds.
- **Bistro Garden**, which provides raised beds of deep fertile soil prepared, planted, maintained, and harvested by Drexel students under the direction of instructors of the popular “The Kitchen Garden” course.

DORNSIFE SCHOOL OF PUBLIC HEALTH

Dornsife is located in Nesbitt Hall on our University City Campus. A few highlights include the School’s eleven research centers and programs, such as:

- **The Urban Health Collaborative**, which works to improve health in cities by increasing scientific knowledge and public awareness of health disparities and methods of improving health around the world.
- **A New Center on Racism and Health**, which will leverage strengths across the school’s departments and many partners across the University, synergizing work on racial health inequities.

EXPERIENTIAL LEARNING

In 1891, A.J. Drexel founded this University with the dream to establish an institution that would fully prepare its students to excel in their future careers. To meet his vision, Drexel has developed a model of learning that takes students beyond the typical collegiate experience by combining world-class academics with real-world application. Our students are challenged to apply what they've learned in the classroom by working alongside mentors and industry professionals who push the boundaries of knowledge and achievement.

As a leading research institution, Drexel carries a long and storied history of innovation. Here, you'll not only assist faculty and staff with major projects, but you'll also have the opportunity to take the lead in your own studies — including graduate-level research during your first year — in our state-of-the-art facilities and labs. You will be encouraged to ask important questions and consider how the answers you find impact the world around us.

For over 100 years, our curriculum has also featured our cooperative education program, which enables students to test-drive different careers while learning side by side with the leaders of their respective fields. Through Drexel Co-op, students can build an impressive résumé and gain up to 18 months of professional work experience in the United States and globally at Fortune 500 companies, nonprofits, startups, a variety of governmental agencies, and more. The majority of these positions are full-time and paid, and those that are carry a median six-month salary of over \$19,000. Co-op will allow you to explore your options and narrow down your interests, ensuring you are on a fulfilling career path that meets your needs and expectations. With each experience, you'll gain a unique working perspective that can't be found in any textbook, allowing you to serve as a knowledgeable resource for fellow classmates and professors as well as inform classroom instruction moving forward.

The Steinbright Career Development Center, one of the largest collegiate co-op and career services teams in the world, sets you up for success at Drexel from day one. Whether you're looking for potential co-op employers, research opportunities, or post-graduate endeavors, Steinbright connects you to Drexel's constantly growing network of employers and industry leaders while also building your résumé and interview skills through workshops and information sessions. Our unique combination of world-class career services and dedicated counseling professionals will help guide you to discover your interests and develop your professional tools.

ENHANCED OPPORTUNITIES

At Drexel, learning goes well beyond the traditional classroom. We encourage our students to pursue different opportunities, such as studying abroad, immersing themselves in the local community, and developing their own course of study.

Honors Program: At the Pennoni Honors College, the Honors Program serves as a catalyst for enhanced intellectual exploration. Composed of curious and active learners, this program offers exclusive access to Philadelphia events, advising and mentoring, dedicated housing, and a Living Learning Community, along with specialized opportunities to complete service and develop leadership skills. Honors students in this program are scholastic ambassadors at Drexel, raising their academic experience to the next level.

Civic Engagement: We believe in the importance of giving back to local communities — there are always opportunities to make an impact and serve the community here. Students can get involved on campus through Drexel's Lindy Center for Civic Engagement and the Dornsife Center for Neighborhood Partnerships during community-based learning courses and volunteering for community service. But our impact doesn't stop there; our dedication reaches out globally to improve the world around us.

Custom-Designed Major: The Custom-Designed program is suited for highly motivated students whose interdisciplinary curiosity and ambition cannot be satisfied by a traditional major. This path enables you to pursue an individualized course of study in place of an existing major, either by developing a plan with your advisor or by combining existing majors and minors to match your career goals. As a student in this unique program, you'll be advised by staff from the Pennoni Honors College and mentored by a Drexel faculty member who has expertise in at least one of the areas in your course of study.

Global Opportunities: These options include study abroad, international co-op, and more. All Drexel students can take advantage of study abroad, which enables them to live and learn in another country while immersing themselves in the culture. Using our worldwide connections, students have been able to choose from six continents and 65 countries! International co-op takes study abroad one step further; students not only live in another country but also gain work experience as they test-drive a potential career. Students currently on international co-op are working in over 35 countries.

A CONNECTED COMMUNITY

Philadelphia, Pennsylvania, is a revolutionary town founded on revolutionary thinking — much like the ambition Drexel students have for influencing change in the world. As the sixth largest city in the United States, the City of Brotherly Love is an extension of our campus and, as a student here, you'll take full advantage of all it has to offer.

Philly culture is known for being as diverse as its many neighborhoods. From our University City Campus in the hub of Philadelphia's higher-learning community, it's easy to get to the stadiums in South Philly, take in some history in Old City, and enjoy the park in Rittenhouse Square. When you're not in classes, there is plenty to do, no matter how you like to spend your free time. Being in the fourth most walkable city in the country according to Walk Score has its perks: concerts, performances, restaurants, and athletic events are all easy to access.

Public transportation is just steps away from campus — it's easy to enjoy an authentic cheesesteak and then visit the famous Philadelphia Museum of Art. You will find that all areas of the city are interconnected by simple means of travel, and getting to historic sites around the city or connecting to various locations across the country is an easy task. Living in Philadelphia provides access to everything from farmers' markets in Lancaster County to ski and snowboarding locations in the Pocono Mountains to the best beaches in the Mid-Atlantic.

The Writers Room

FIRST-YEAR APPLICATION PROCESS

There is no typical Drexel student. Our students are ambitious, curious, complex, and bold. Candidates are selected based on their ability to thrive in our unique academic environment and make contributions to our diverse community. Through a contextual and holistic review process, we carefully consider each applicant, evaluating their personal qualities, academic journey, and intellectual promise.

Application Deadlines

EARLY DECISION NOVEMBER 1
Early Decision is the perfect option for students who know Drexel is the number one school for them. This is a binding admission plan; if admitted, students must withdraw all other active applications and commit to enrolling at Drexel.

EARLY ACTION NOVEMBER 1
Early Action means that students can apply by an earlier deadline to receive an admission decision sooner than students who apply Regular Decision. Early Action admission is not binding.

REGULAR DECISION JANUARY 15
Through the Regular Decision application process, students will receive a decision in early spring.

Submitting Your Application

First-year student applications are accepted through either the Common Application or the Coalition Application.
drexel.edu/undergrad/apply

Standardized Test Scores

Drexel University is Test-Optional for students applying for fall 2022 and 2023. For non-native English speakers, there may be additional testing requirements.
drexel.edu/undergrad/apply/tests

Financial Aid

Financial aid is available to domestic and international students in the form of merit scholarships and need-based grants. There are a few applications you should learn about to maximize the financial aid you are eligible for, such as the Free Application for Federal Student Aid (FAFSA) and CSS Profile.
drexel.edu/undergrad/financing

TRANSFER APPLICATION PROCESS

There are many reasons you may consider transferring to Drexel; as you make your transition, we'll be here to help you every step of the way. Drexel has a vibrant and active transfer community. Qualified applications are considered on a rolling basis through all terms. Applications must be received one month prior to the start of the term for which you are applying.

Application Deadlines

STARTING TERM	APPLICATION REVIEW BEGINS IN
Fall (September)	December
Winter (January)*	October
Spring (Late March/Early April)*	November

*Not all majors enroll in our off-terms

Priority Deadlines

STARTING TERM	DEADLINE
Fall (September)	APRIL 15
Winter (January)*	NOVEMBER 15
Spring (Late March/Early April)*	FEBRUARY 15

*Not all majors enroll in our off-terms

There may be other deadlines for international students. Please visit **drexel.edu/undergrad/apply/deadlines** for more information.

Submitting Your Application

Transfer students may submit applications through the Common Application or Drexel University's Admission Application.
drexel.edu/undergrad/apply/transfer

Financial Aid

Drexel offers competitive financial aid opportunities for transfer applicants. While students will be reviewed for scholarships during the admissions review process, we highly recommend filing the Free Application for Federal Student Aid (FAFSA) and CSS Profile as soon as possible to maximize their eligibility for support. **drexel.edu/undergrad/financing**

VISIT OPPORTUNITIES

There are many different ways to visit Drexel University throughout the year, both on campus and virtual, including Information Sessions and Tours, Open Houses, Transfer Tuesday and Thursday events, and more. Whether you'd like to learn about restaurants in the area, what to do in University City, or even the best places to hear some local music, you can see it all by visiting us in Philadelphia — or through our virtual tours.
