Workshop # 3
Research in Other Contexts and Creativity
Beyond books and articles, where would you look for context for your STAR project?
Truvia and the Fruit Fly

Look at the *Exel article* and describe:

- The intended audience
- The purpose
- The conclusion
- Could this be important information? How? Why?
Communication

First, think about your mentors...

- How do they share their research?
Communication

• How do you communicate to others?
• How do you think your mentors communicate to other researchers?
• Is this different?
Communication

- Why am I asking you this?
- Why might this be important?
Publication Cycle

https://prezi.com/mkyozhiilcbg/research-publication-cycle/
Research

- Invisible College (informal communication)
- Conferences
- Trade Publications
- Websites/Blogs
Publication Cycle

Do you have a place in the Publication Cycle?
What do you contribute?
Why is being aware of this important?
Are there other ways to share information?
Infographics...

Communicating Data

Each group has a set or Data or Information that you need to visually communicate. Keep in mind that not everyone will know background information on your data.
Communicating Data

Collaboration

Do your mentors collaborate with others?
Next Time...*

Workshop # 4: Presentations

Please bring:

• Your laptop
• And, as always, your intellectual curiosity
