

## "VISION2020

## Vision 2020 Speakers Bureau

The pipelines are full. When it comes to the top leadership positions, where are the women?

Women have taken full advantage of educational and career opportunities, filling the classrooms and comprising 50% of middle management, but today, on average only 18% of senior leadership positions are held by women.

Vision 2020 speakers address this topic and others from a variety of perspectives and offer solutions and action.

The Vision 2020 Speakers Bureau celebrates women's achievements, asks thought-provoking questions about why progress has stalled, and offers ideas to increase women's leadership by the year 2020.

Vision 2020, a national initiative of the Institute for Women's Health and Leadership at Drexel University College of Medicine, connects organizations and individuals across the country to take action to achieve equality for women and girls by the year 2020, when our nation will celebrate the centennial of women's right to vote.

drexel.edu/vision2020

## Vision 2020 speakers have expertise in the areas of Vision 2020's five national goals:

■ Achieving pay equity ■ Increasing the number of women in senior leadership positions ■ Promoting family-friendly workplace policies and practices ■ Educating new generations of girls and boys to respect each other ■ Mobilizing women voters

ision 2020 speakers are innovative leaders, women and men who bring knowledge, experience, passion and commitment to their presentations and panel discussions. From conferences to workshops to meetings, Vision 2020 speakers can adapt to any format. Vision 2020 works with corporations, universities, schools, associations and other professional organizations around the country.

Vision 2020 speakers have been featured at meetings of the Environmental Protection Agency, McDonald's Women Owners Network, Association for Women in Science, Association of Junior Leagues International and many others.

Vision 2020 Speakers Bureau Offers

Speakers who know how to engage their audiences.

Expertise across professions, including business, law, finance, government, communications and the nonprofit sector.

Variety in topics and approaches.
Topics include pay equity, the value of shared leadership among women and men, and voter mobilization, among others.
