

# DREXEL UNIVERSITY

INSPIRED BY CHANGE,

DESIGNED TO LEAD.

---

# Let Your Ambition Lead the Way

Change is a constant driver of new ideas. Each and every day, innovation pushes the limit of what's possible.

---

The next generation of leaders will be the ones who embrace this fact, the ones who use it as their guiding principle. Whether you're looking to make an impact in the classroom, the laboratory, or out in your community, you must recognize the established boundaries and limitations...then use your ambition to move beyond them.

Since 1891, Drexel University has served as the launch pad for students ready to channel their passion, curiosity, and vision to change the world around them. Our unique academic model allows the University and our Dragons to remain at the forefront of possibility by not only studying the latest practices and theories but by putting them to the test alongside industry leaders and professionals.

You need a place that will allow you to challenge the norm: to make your mark while turning your aspirations into reality. Drexel not only provides you with the necessary knowledge, opportunities, and support structures to make a difference — we help you start today. Because your ambition can't wait.

# CREATE YOUR PATH OF DISCOVERY

Your education will serve as the foundation for everything you do. Whether you want to create an environment-friendly transportation system, develop brain mapping techniques to treat Alzheimer's disease, or help propel criminal justice reform, you need an education that will prepare you to learn, grow, and excel.

Drexel's dynamic curriculum is specifically designed to take you beyond the typical college experience, preparing you to meet the challenges of an ever-changing world. Here, your education will combine advanced academics with experiential learning, providing the opportunity to expand upon your classwork by working side by side with your professors, learning directly from the leaders of your field through our cooperative education program, gaining valuable experience in research, leveraging our organizational partnerships to participate in groundbreaking initiatives, and so much more.

At Drexel, you'll be encouraged to take an active role in your education. Our unique model will put you on the front lines of innovation, allowing you to discover and explore the current practices, strategies, and breakthroughs that are actively being used to push the boundaries of what we know and can achieve. Then, you'll bring new knowledge and viewpoints to enrich classroom discussion with your professors and classmates, ensuring the University's offerings remain current, relevant, and market informed.

## BECAUSE HEROES CAN'T WAIT

The College of Nursing and Health Professions' Disaster Simulation program presents students with emergency situations and requires them to respond in real time, allowing them to practice meeting catastrophic challenges — before they happen.

 [drexel.edu/undergrad/student-stories](https://drexel.edu/undergrad/student-stories)

# ESTABLISH YOUR INTELLECTUAL FOUNDATION

The ability to achieve your goals is rooted in the strength of your preparation, and the most effective preparation begins with superior academics.

Drexel provides an unparalleled classroom experience, where you'll find rigorous and challenging courses presented in state-of-the-art facilities and taught by respected faculty composed of leaders and visionaries of their field. And the best part is that you won't have to wait to get started. You'll take classes in your major from the moment you arrive, along with preparatory courses to help you hit the ground running.

## The Evolution of Your Education

Here, you'll develop an interdisciplinary academic path designed to meet your interests. Your experience can incorporate a variety of concentrations and options — everything from entrepreneurship courses or our Bachelor of Arts in Law program to our innovative neuroscience major — allowing you to build a comprehensive knowledge base applicable to your goals. Not only that, you'll do so under the guidance of a dedicated team of advisors, counselors, and mentors focused on helping you to develop into a well-rounded scholar prepared to exceed all expectations.

**100+** majors

**1,946** number of courses

**10:1** student to professor ratio

**20+** Accelerated, Combined, and Bridge Degree programs

**19** median class size

**2,232** faculty

# APPLY YOUR KNOWLEDGE AND EXPLORE THE PROFESSIONAL WORLD

Even while recognizing the intrinsic value and importance of classroom learning, you'll need the chance to apply your knowledge in the real world to truly see just how everything fits together.

Our renowned cooperative education program, also known as co-op, will allow you to put what you've learned in class to the test. Ranked second in the nation, according to *U.S. News & World Report*, Drexel Co-op provides you with the opportunity to integrate up to 18 months of full-time professional work experience into your academic schedule. Each co-op experience built into your schedule — whether it be with a global organization, a nonprofit, a local startup, or even a government agency — presents a unique opportunity to see firsthand how the knowledge you've gained is currently being applied in the field and how the workplace is adapting to meet the evolving needs of employers. You can choose from a variety of academic calendars, allowing you to participate in up to three different co-op experiences. And the Steinbright Career Development Center, our world-class cooperative education and career preparation resource, will be here to help you every step of the way.

## The Value of Experience

So much more than just a standard internship, co-op allows you to take real positions with respected companies, enabling you to test-drive your career while building an impressive résumé before you graduate. The majority of undergraduate co-ops are both full-time and paid, and of those that are both, the gross median six-month salary is more than \$20,000. More than 80% of all co-op positions are paid by the employer. And when you return to class, you'll be ready to apply your newfound knowledge to your courses and to serve as a valuable resource to your classmates and professors, able to share enhanced insights and perspectives that can't be found in any textbook.

## WHAT IF YOU KNEW? CO-OP AT DREXEL

"What people in traditional four-year programs don't get is a sense of what you can do, a sense of possibility of what's out there."

## FIND THE GUIDANCE YOU NEED TO LAND A POSITION YOU LOVE

The Steinbright Career Development Center is one of the largest collegiate co-op and career services teams in the world. With a comprehensive staff of skilled and dedicated career services professionals, Steinbright is an invaluable resource that will ensure that you're fully prepared for success from the moment you arrive on campus.

The Center not only facilitates Drexel's co-op program, but it also provides essential services such as career and educational counseling, career exploration strategies, personality assessments for career path guidance, pre-health and pre-law advising, and application process assistance. Steinbright also presents workshops that will help you create a compelling résumé and cover letter, hone your interview skills, and build a professional network.

Always keeping your individual goals in mind, Steinbright's Career Services staff will provide you with the tools, knowledge, and expertise that will help you to identify and develop a rewarding career path that speaks to you.

# EXPLORE YOUR CURIOSITY AND SEE WHERE IT LEADS

Your intellectual interest is one of your most valuable traits, and Drexel emphasizes the importance of asking questions and finding meaningful answers — it's what has helped us emerge as one of the nation's leading R1-level research universities.

Our facilities and courses are designed to enable you to go further and discover more about the world around you. From state-of-the-art labs to our innovative Expressive and Creative Interaction Technologies (ExCITE) Center, Drexel presents unique research opportunities that will encourage you to collaborate and learn from your peers and research mentors.

If you're eager to gain research experience, you may be interested in the Students Tackling Advanced Research (STAR) Scholars Program. This 10-week program will allow you to conduct a faculty-mentored research or creative project in the summer of your first year. STAR concludes with student presentations, along with the possibility of presenting work at local, regional, and national conferences. STAR Scholars' work has also been published in major research journals.

# EXPAND THE HORIZONS OF YOUR LEARNING

As a Drexel student, you can take your education abroad.

Have you ever had the opportunity to live and learn in another country, fully immersing yourself in an entirely different culture? Our team can help you make it happen. You'll not only gain a broadened perspective and earn course credit, but you'll also deepen your understanding of yourself and how our cross-cultural relationships can affect the global issues that face our society.

In addition to studying abroad, Drexel students interested in pursuing global opportunities can also participate in international co-op or programs that combine the two experiences.

# DARE TO BRING YOUR IDEAS TO LIFE

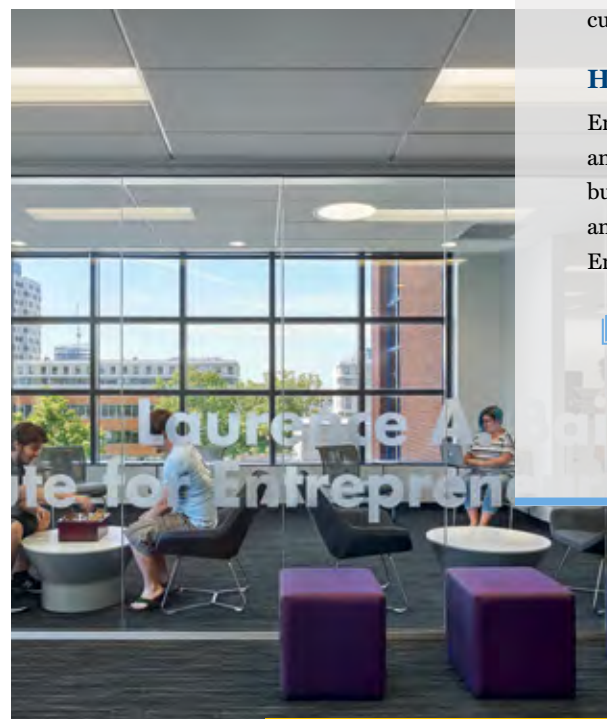

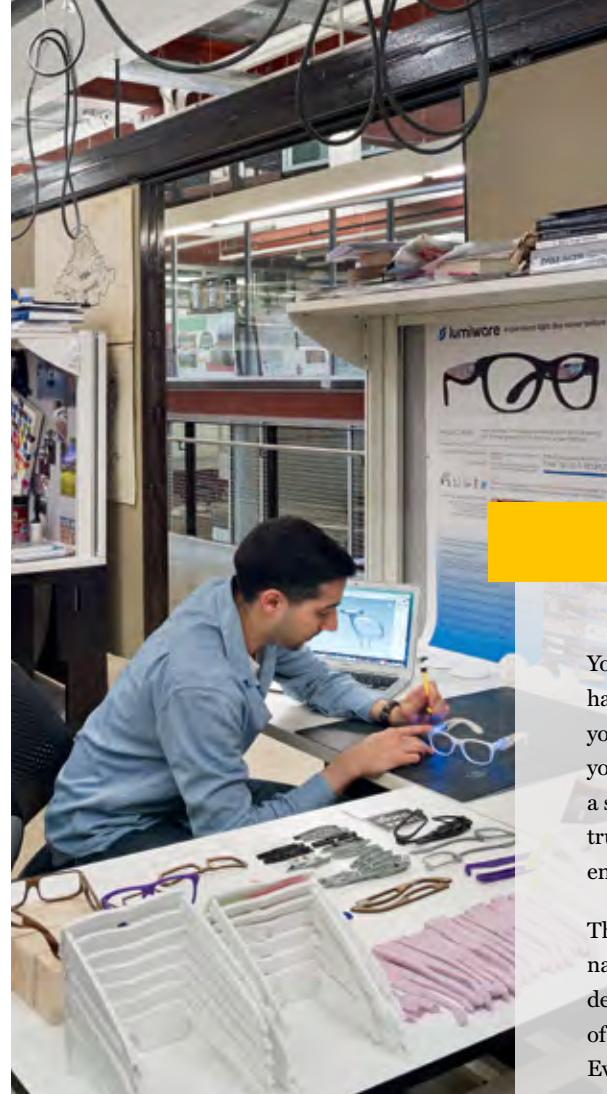

You may feel that you have the entrepreneurial spirit, but have you ever put that feeling to the test to see just what you could accomplish? Whether you've already started your own company or you have an idea and want to create a startup, Drexel offers the guidance you need to develop a true entrepreneurial mindset and the resources to take your endeavors to the next level.

The Charles D. Close School of Entrepreneurship is the nation's first independent school of entrepreneurship to offer degrees, with options including a three-year accelerated plan of study and more traditional four- and five-year programs. Even if you're interested in other majors, Drexel has infused entrepreneurial thinking and application into the curriculums and courses across all disciplines.

## Hit the Ground Running

Entrepreneurial co-ops encourage students to take the lead and are granted to those who have established an ongoing business, providing \$19,000 in scholarship, mentorships, and a dedicated workspace in our Baiada Institute for Entrepreneurship.

# MAKE OUR CITY YOUR HOME

Since our founding in 1891, Drexel has been proud to call Philadelphia our hometown. It's a place where history was made: This is where the Founding Fathers of the United States outlined the Declaration of Independence, drafted the Constitution, and forged American democracy. Philly has a no-nonsense, revolutionary feel to it, and Drexel students embody that. We refer to the city as our extended campus, where you can explore, learn, and take advantage of all it has to offer.

Philly is a bustling, cosmopolitan city composed of quaint neighborhoods, each one different from the next. If you head to Fairmount, you'll be able to enjoy some of Philadelphia's great museums; in South Philly, you can try some of the best local foods, like our famous cheesesteak; and a few blocks away in Old City, you'll see and hear artists and musicians who have made Philly their home. Our part of town, known as University City, is recognized as the heart of the city's higher learning community.

Everything that Philly has to offer is within easy reach. And if you don't feel like walking, Philadelphia's public transportation system can get you there. Drexel is blocks away from the William H. Gray III 30th Street Station, a transportation hub with access to subways, buses, regional trains, and Amtrak.

# STRIVE TO INSPIRE CHANGE AND BUILD A NEW LEGACY

## Select regional partners

Do you have the drive to help others? Drexel is committed to becoming the most civically engaged university in the nation, and we hold the promotion of inclusivity, equity, justice, and opportunity for individuals within our local communities and across the globe as an institutional priority.

At Drexel, you'll be introduced to the concepts, methods, and skills required for effective engagement through our CIVC 101 course. Presented by the Lindy Center for Civic Engagement, this introductory course will immerse you as an active participant, providing the opportunity to see the benefits of public service firsthand as you collaborate with neighborhood philanthropic organizations and nonprofits.

- Children's Hospital of Philadelphia

### Partnerships With Purpose

The Lindy Center partners with leaders on local, national, and international levels to provide additional volunteer initiatives and community-based learning courses that address a wide variety of areas of public good and social responsibility, including education, health care, and community advocacy. Through these experiences, our students are encouraged to learn, engage, and reflect in order to grow as engaged citizens ready to make a meaningful impact by furthering the principles of community partnership and social justice within their homes and throughout the world.

# JOIN A COMMUNITY OF DRAGONS

We are Drexel Dragons. It's a distinction and a badge of honor we cherish; one that shapes everything we do. We work hard, we play hard, and we dream big...and we do it together.

Dragons have an undeniable inner fire that motivates us to achieve more. Whether it be in the classroom, out on co-op, building new student organizations, or while taking on challengers at the athletic courts, we're always on the move and looking to make our mark.

When you become a Dragon, you'll be joining a supportive community built on diversity, equality, fairness, inclusion, and respect — here, everyone has a voice and is encouraged to use it. No matter what our differences may be, we band together and support each other as we strive to achieve our goals. Although we may come from all walks of life, our bond and kinship go far beyond our differences. A Dragon is a Dragon for life.

## ALL DRAGONS WELCOME

"There's so many ways you can be involved, and there's so many ways Drexel enables its students to be involved with one another."

 [drexel.edu/undergrad/student-stories](https://drexel.edu/undergrad/student-stories)

# BECOME A PART OF SOMETHING BIGGER THAN YOU CAN IMAGINE

Life on campus will be a big part of the college experience, especially in a fast-paced urban environment like Philadelphia. Our Dragons view Drexel's campus as their own little corner of the city: the perfect spot to live, study, and play.

In order to ensure you'll have every opportunity to fully immerse yourself in campus life, we have a 2-Year Residency Program, which requires all incoming first-year students (with a few exceptions) to live on campus for their first two years at Drexel. But whether you're living here or commuting to school, you'll quickly find that there is a lot to experience at Drexel outside of classes. If you'll be living on campus, our residence halls have accommodations to meet your needs. There are plenty of options, from suites to Gender-Inclusive Housing and Living Learning Communities, where you can connect with students who have similar interests.

## Connecting All Dragons

If you're transferring to Drexel, you can choose between our on-campus residence halls and Drexel-affiliated housing options, which offer all of the benefits of off-campus living while being able to stay in close proximity to school. Students opting to commute to class are encouraged to get involved and connect with campus life through our Student Life team.

# ALLOW YOUR PASSIONS TO GROW AND TAKE THE CENTER STAGE

While we know you'll be focused on becoming an accomplished scholar, your life at Drexel won't be just studying and homework. At Drexel, you can get involved with over 250 student clubs and organizations. These groups revolve around academics, hobbies, and more. So, no matter what your interests are, you'll find groups of like-minded Dragons. And if you can't find an organization that's right for you, we'll provide the resources to help you start your own.

Also, no matter what your major, you can participate in the performing arts and are eligible for performing arts scholarships. There is a broad array of opportunities, including taking classes and private lessons and auditioning for professional-level dance, music, or theater ensembles, which are led by accomplished members of the Philadelphia arts community.

Whether you'd like to get involved with Greek life, participate in on-campus performances, or choreograph your own Jedi Knight lightsaber duel, you can do it all at Drexel.

# TAKE YOUR GAME TO A HIGHER LEVEL

Although Drexel is known for its academic excellence, here you can also be a star athlete. Our Drexel Dragons are fierce competitors, and they participate on 18 Division I NCAA teams. Each year, over 440 students play against the nation's best, and we play to win. Drexel Basketball is also now a member of the storied Philadelphia Big 5.

If you prefer to cheer on our Drexel Dragons, the DAC Pack is our most school-spirited student organization. Decked out in your best blue and gold, you can root for our teams with your friends and classmates.

## Always on the Move

You can also take on a more relaxed level of competition by joining one of our club or intramural sports teams alongside the more than 8,400 students, faculty, and professional staff who participate in Drexel's recreational programs each year.

When you want to get a great workout or just have some fun with friends, Drexel has the fields, courts, and indoor and outdoor locations you need. This includes our volleyball and tennis courts, the Vidas Athletic Complex, the Daskalakis Athletic Center (also known as the DAC), and our award-winning Recreation Center.

## BECAUSE CREATIVITY CAN'T WAIT

Hannah Beier, a photography major from the Antoinette Westphal College of Media Arts & Design, developed a new design process that took her work from socially distant Philadelphia living spaces all the way to the cover of *Time* magazine.

 [drexel.edu/undergrad/student-stories](https://drexel.edu/undergrad/student-stories)

# BEGIN YOUR JOURNEY TODAY

You're looking for so much more than the typical university experience. You have the drive and the ambition to excel, the determination to move beyond what's expected.

By providing a unique combination of advanced academics and real-world experience, Drexel's model of learning will allow you to develop as an innovative master learner, ready to use the knowledge of today to confront the challenges of tomorrow. This is a place that develops thoughtful visionaries ready to transform their industries, fields, and communities. As a Drexel Dragon, you'll discover what you want to do and will be prepared to do it.

**The world is ready for change — and you have what it takes to shape a brighter tomorrow. We can't wait to see what you'll accomplish.**

## BECAUSE ADVOCACY CAN'T WAIT

Thomas R. Kline School of Law Professor Wendy Greene has co-crafted C.R.O.W.N. Acts and other legal reforms to fight discrimination based on the style or treatment of one's hair, manner of dress, or other defining characteristics that extend beyond skin color.

 [drexel.edu/undergrad/student-stories](https://drexel.edu/undergrad/student-stories)

# THE APPLICATION PROCESS

## First-year application deadlines

At Drexel, we carefully consider every application. The members of our Admissions Committee use a holistic review process to assess all aspects of the application personally. We believe it's important to enroll right-fit students.

### Early Decision ..... November 1

Early Decision is the perfect option for students who know Drexel is the school for them and would like a decision in December of their senior year. This is a binding application plan and, if admitted, students must withdraw all other active applications and commit to enrolling at Drexel.

### Early Action..... November 1

Like Early Decision, Early Action allows students to receive an admission decision in December of their senior year. Early Action admission is not binding and, if admitted, students have until May 1 to submit an enrollment deposit.

### Regular Decision ..... January 15

Through the Regular Decision application process, students will receive a decision in early spring and have until May 1 to submit an enrollment deposit.

### Winter Entry Program ..... October 1

The Winter Entry Program is an admission plan that offers first-year students the chance to start their enrollment during Drexel's winter quarter in January.

 View "Applying to Drexel?" at: [drexel.edu/undergrad/student-stories](https://drexel.edu/undergrad/student-stories)  
Drexel Video

## Submitting your application

First-year student applications can be submitted via the Common Application or the Coalition Application.

 Learn more about these submission options at [drexel.edu/undergrad/apply](https://drexel.edu/undergrad/apply).

## Standardized test scores

For the majority of majors and programs, first-year students applying for fall 2024 and the Winter Entry Program can choose to do so under our Test-Optional policy, which allows students to choose whether to include standardized test scores as part of their application. Non-native English speakers may be required to submit an approved English proficiency exam.

 To learn more about the submission of standardized test scores, visit [drexel.edu/undergrad/apply/tests](https://drexel.edu/undergrad/apply/tests).

## Transfer application deadlines

There are many reasons you may consider transferring to Drexel, and as you make your transition, we'll be here to help you every step of the way. Drexel has a vibrant and active transfer community, with approximately 500 new students joining us each year. Qualified applicants are considered on a rolling basis through all terms, although it is recommended to apply as early as possible and follow the priority deadlines for the best results. The latest you can apply is one month prior to the start of the term. International applicants are encouraged to apply by the posted deadlines.

### Starting Term      Application Review Begins In

Fall (September) ..... January  
Winter (January)\* ..... August  
Spring (Late March/early April)\* ..... November

\*Not all majors enroll in spring and winter terms

*Please Note: The Accelerated Career Entry (ACE) BSN Program differs in application process and schedule. To learn more about applying to the ACE program, visit [drexel.edu/undergrad/ace](https://drexel.edu/undergrad/ace).*

 View "Finding Your New Home: Transferring to Drexel" at: [drexel.edu/undergrad/student-stories](https://drexel.edu/undergrad/student-stories)  
Drexel Video

## Submitting your application

Transfer students may submit applications through the Common Application or Drexel University's Admission Application.

 Learn more at [drexel.edu/undergrad/apply/transfer](https://drexel.edu/undergrad/apply/transfer).

## Transfer requirements

Transfer applicants must submit official college transcripts. Those who have completed less than 24 semester credits must submit high school transcripts. Depending on the program you are applying for, additional prerequisites or materials may apply.

 For more information on program-specific prerequisites, visit [drexel.edu/undergrad/apply/prereqs](https://drexel.edu/undergrad/apply/prereqs).

# VALUE & OPPORTUNITY

## First-year financial aid

Drexel offers merit and need-based financial aid. In the 2022–2023 academic year, the average scholarship and grant aid offered to first-year students was \$34,053\*, which includes federal, state, and institutional aid. All applicants must complete the CSS Profile, and all U.S. citizens and permanent residents must complete the Free Application for Federal Student Aid (FAFSA) to be considered for the most available aid.

### Early Decision and Early Action Deadlines

CSS Profile ..... November 15  
FAFSA (Priority) ..... February 15

### Regular Decision Deadlines

CSS Profile ..... February 15  
FAFSA (Priority) ..... February 15

### Winter Entry Program Deadlines

CSS Profile ..... October 8  
FAFSA (Priority) ..... October 8

## Transfer financial aid

Drexel offers competitive financial aid opportunities for transfer applicants. In the 2022–2023 academic year, the average scholarship and grant aid offered to transfer students was \$31,199\*, which includes federal, state, and institutional aid. While students will be reviewed for scholarships during the admissions review process, we highly recommend completing the Free Application for Federal Student Aid (FAFSA) as soon as possible to maximize their eligibility for support; international applicants should submit the CSS Profile to be considered for Drexel need-based aid.

### Deadlines

FAFSA ..... Recommended one month prior to the start of term  
CSS Profile ..... Recommended one month (International applicants only) prior to the start of term

\* Includes only grant and scholarship awards for students who received financial aid

## By the numbers

<b>\$58,293*</b> Tuition	<b>\$2,405*</b> Fees	<b>\$17,550*</b> Room and Board
Average Financial Aid Package for First-Year Students		Average Financial Aid Package for Transfer Students
<b>\$34,053**</b>		<b>\$31,199**</b>

\* Based on the standard enrollment for an incoming first-year student for the 2023–2024 academic year

\*\* For the 2022–2023 academic year; includes only grant and scholarship awards from federal, state, and institutional sources for students who received financial aid

## Undergraduate awards

Some of the most common award offerings for first-year and transfer students include:

### Drexel Merit Scholarship – Amount varies

Full-time on-campus applicants (except for our second-degree Nursing program, known as ACE, or those applying for a second bachelor's degree) are automatically considered for these academic performance-based awards.

### Phi Theta Kappa Scholarship – \$500 (awarded per term enrolled in full-time coursework)

Offered to Phi Theta Kappa Honor Society members who apply as transfer students to one of our full-time, on-campus programs (ACE students are not eligible).

### Drexel Grant – Amount varies

To be eligible to receive this institutional need-based award, all first-year and international transfer applicants are required to submit the CSS Profile, domestic transfer students must submit only the FAFSA.

### Federal/State Financial Aid – Amount varies

Applicants are required to file the Free Application for Federal Student Aid (FAFSA) to be considered for federal and state grants, loans, and work-study funding.

### The Drexel Promise

All transfer students who have earned an associate degree from an accredited Pennsylvania or New Jersey community college are eligible for a scholarship providing 50% of their tuition cost. Those who qualify are not required to submit a CSS Profile.

# VISIT OUR CAMPUS

## Are you interested in visiting Drexel?

There are plenty of options that will fit even the busiest of schedules.

### Visit campus

#### Open Houses

Open Houses take place on exclusive weekends throughout the year. You and your family will get an in-depth look at academic programs, connect with current Dragons, and experience our dynamic urban campus firsthand.

#### Campus Visits

Campus Visits are offered throughout the year Mondays through Fridays and on most Saturdays. Each Campus Visit includes an Information Session and student-guided campus tour. The Information Session highlights Drexel's cooperative education program, our academic offerings, and the admission and financial aid processes. Plus, there's plenty of time for you to ask any questions. During the campus tour, you'll take a look at our academic buildings, recreation center, and a residence hall.

Learn more at [drexel.edu/undergrad/visit](https://drexel.edu/undergrad/visit).

#### Transfer-Specific Visit Opportunities

Held exclusively for prospective transfer students, Transfer Tuesday and Transfer Thursday events provide you with all the information you'll need to apply to Drexel for an upcoming term.

Learn more at [drexel.edu/undergrad/visit](https://drexel.edu/undergrad/visit).

### Learn more in your hometown

#### Connect With Counselors

You can also meet with admissions representatives at a variety of events. Students are invited to these events, which are held all over the country and the world — from college fairs to high school visits to regional receptions. If you are unable to meet with us in person, we also participate in virtual college fairs and are available for individual meetings online to answer your questions.

Find your admissions counselor at [drexel.edu/undergrad/contact/representatives](https://drexel.edu/undergrad/contact/representatives).

### Want to know what Drexel is really like?

#### Admissions Blog

Our Admissions Blog gives you an insider's view. From hints about the admission process to a preview of life on campus and in Philly, learn from those who know it best.

#### PaperClip

PaperClip is a collection of unique stories about Drexel experiences written by students offering a rare behind-the-scenes look from our Dragons' point of view.

#### Virtual Tour

Can't make it to campus? Don't worry — our virtual tours provide a unique perspective of what you'll find here at Drexel. Whether you'd like to learn about the restaurants in the area, what to do in University City, or even the best places to hear some local music, you can see it all through our virtual tours.

#### YouVisit

Explore our University and take a closer look around via our interactive YouVisit walk-through experience.
