You may have completed this survey in a prior term. Our records indicate that you may have completed this survey in a prior term. Because your postgraduate plans may have changed, we are requesting that you please complete the following parts of the Graduate Exit Survey: Post-graduation plans (Required) The first part of the survey asks what you will be doing after you graduate. We are collecting this information to help Drexel programs to improve, but you should also know that the Department of Education mandates that we collect this information. Even though you may have provided this information in a prior term, we ask that you complete this part. Evaluation of your Drexel Experience (Optional) The second part of the survey asks you to reflect on your experience at Drexel. This is information that we will use to improve the educational experiences and services we provide for current and future students. You will be given the option to skip this section of the survey if you do not wish provide new responses. We realize that some of these questions might not apply to you given the timing of your graduation; if that is the case, feel free to skip them. The survey should take between 12-15 minutes to complete. Please answer each question carefully and honestly. Please know that this survey is not anonymous, but the Office of Institutional Research, Assessment, and Effectiveness (IRAE) has a strict policy on maintaining the confidentiality of student survey data: Part I – Post graduation plans Because many of our academic programs and some administrative units are required to report this information due to regulation or the requirements of accreditation, the items from Part 1 will be made available in an identifiable format to a limited set of individuals in these administrative units. Part II – Your Drexel Experience For the items in this section of the survey, identifying information in the associated survey data (e.g., University ID, name, any open-ended responses that are identifying) will not be made available to anyone outside of IRAE. Original survey data will be kept in a secure, password-protected location within IRAE. Data will only be summarized in any oral or written reports in groups of five or more individuals. Although you may be required to visit the survey link, your responses to any and all questions in the survey are voluntary – you may skip any question that you prefer not to answer, for whatever reason. The only questions requiring answers are those necessary for the survey to function properly. Thank you again for your response – be assured that the information you provide will be summarized and reviewed by the leadership in order to help the University improve.
