Please provide information about your project.

6

Describe your project or initiative in a couple of sentences, including the issue your project is seeking to address. Who is involved in your collective problem-solving process? What impact do you hope the project will have?

7

Is your project or initiative new or has it been ongoing? If new, please share what led to the project being started. If ongoing, please share how long and a brief summary of what has already been done.

8

We are interested in projects that align with the values of the grant (Informed, Collective, Process-focused, Short- and long-term - see grant description for expanded definitions of these). Please pick two of the values and describe how your project aligns with those values.

9

We are interested in projects and initiatives that incorporate learning, community-building, and problem-solving. How does your project or initiative incorporate these elements?

10

Who is involved in this project and how are you ensuring that your approach to problem-solving is inclusive, equitable, and authentic?

11

How will funding of up to $1,000 help you advance this project? Please provide a rough idea of what you will spend funds on.

12

What is the general timeline of when you will need funds for your project? For example, "late spring term".
