DragonsTEACH

DragonsTeach is a Drexel University initiative designed to provide students with experiences in education and pathways to teacher certification that can be completed alongside your desired content major. In many cases, students can do it without affecting their graduation timeline.

In order to provide the most valuable programs of study, we have two different pathways within a DragonsTeach.

	DragonsTeach	DragonsTeach Middle Years
WHO	Science, Technology, Engineering and Mathematics (STEM) Majors	Non-STEM Majors and others interested in teaching grades 4-8
BENEFITS	• Experience teaching from the first course • Collaborate with colleagues from different colleges, departments, and majors • Make your resume stand out • Develop valuable skills such as communication, leadership, mentoring, etc. • Make a difference in the life of Philadelphia students • Earn teaching certification and increase possible career paths	
CERTIFICATION/AREAS	7-12 Certification in a STEM Subject • Mathematics • Physics • Chemistry • Biology	4-8 (Middle Level) Certification in • Mathematics/Social Studies • Mathematics/Language Arts • Science/Social Studies • Science/Language Arts
	Requires significant coursework in subject area, the majority of which are already part of major plan of study. Additional education coursework includes DragonsTeach pedagogy courses.	Requires 9-12 credits of coursework in each certification area. Additional education coursework includes education courses focused on social justice, DragonsTeach pedagogy and other middle-level specific courses.
