Roommate Selection

Important information for roommate selection:

- You do not need to complete your roommate selection the first time through; you can always return to this section later.
- Only students with a completed housing application will appear in the roommate search feature.
- You should return to this section later if you receive a roommate request, since you will confirm or decline that request below.
- All roommate requests must be mutually confirmed.
- When you see a userID for a student in this system (ex: abc123), this is also the short version of a student's Drexel email address (ex: abc123@drexel.edu). While you may choose to email students based on this information, don't forget to return here to officially Accept or Decline any roommate requests.
- Potential roommates can view how you answered questions on the [Living Style](#) questionnaire page. You may return to that page if you wish to change your answers. You can also search for students based on how they responded to questions on that page. This is a good opportunity to search by criteria that's important to how you wish to share a room.
