

Graduate Studies at Drexel University

EXPERIENCE GAINED + EXPERIENCE EARNED

120+
Graduate programs

TTrue progress requires a community of forward thinkers, each applying their knowledge and experience to push an idea further.

Drexel University granted its first graduate degree in 1927. Since then, countless CEOs, astronauts, researchers, and leaders across all industries have returned to share their experiences with our community, bridging the gap between classroom learning and real-world impact. As an R1 research institution with a focus on application, Drexel has a lot to offer you, but you have a lot to offer too. We know that you have valuable experience that will serve to enrich our graduate community. Whether you're a working professional, someone interested in changing or advancing your career, or even right out of college — Drexel University's graduate community can help you achieve your aspirations.

As a global leader in experiential education, with over 120 graduate programs, our combination of advanced academics and real-world experiences reaches almost every aspect of the professional world. Drexel's graduate programs present an environment that will not only push you but will allow you to inspire those around you.

BECAUSE YOUR
EXPERIENCE MATTERS.**

Academic Exploration

Since our founding in 1891, Drexel has focused on equipping students with an education that infuses world-class academics with the power of real-world experience. Our graduate programs take this concept even further — with interdisciplinary academics that will allow you to not only choose a singular area of study but also give you the opportunity to take classes, network, and explore subjects outside of your specialization. Think about what you could accomplish if you were immersed in an atmosphere of shared knowledge, surrounded by researchers, specialists, and practitioners intent on helping you advance within your field.

FUSION OF IDEAS

At Drexel, experiential learning is embedded into everything that we do. Our colleges and schools operate in conjunction with one another to facilitate the sharing of knowledge and ideas. This intensive collaboration works to ensure our offerings remain responsive to the emerging trends and expectations of the modern world — and the workspaces within it. Plus, our expert faculty, many of whom are practitioners in their field, focus on bringing industry into the classroom, ensuring that the latest in-demand skills are infused into their curriculum.

GROUNDBREAKING FINDINGS

With over 1,000 full-time faculty members performing research at the R1 level, research at Drexel is driven by the University’s faculty and students from all disciplines and at every level of experience. Our Dragons not only learn and explore alongside other aspiring student researchers but are closely mentored by faculty members, working with them as they advance their own projects. Under direct guidance from leaders on the frontlines of discovery, your work will help us continue to be a hotbed for new inventions, patent awards, and the development of groundbreaking applications and implementation strategies to guide the advancements of the future.

Support Resources for You

It’s important to find a graduate education that not only fits your interests but also offers the right level of support to help you achieve your goals. Drexel prioritizes providing comprehensive support, state-of-the-art facilities, career advising resources, and numerous support services to help you through any challenge you may encounter.

AN OFFICE DEDICATED TO YOU

From the moment you officially become a Dragon, you’ll find the Office of Graduate Studies to be one of your greatest resources. Their professional staff work in close collaboration with our deans, associate deans, program directors, professional staff, and faculty advisors to ensure the success of our graduate students.

CUTTING-EDGE FACILITIES

Drexel provides access to state-of-the-art laboratories and facilities, enabling students to take advantage of the latest technologies, resources, and equipment while exploring emerging concepts and practices. The University’s spirit of collaboration thrives among our labs and facilities, allowing for multidisciplinary solutions addressing large-scale questions to emerge and take flight.

SUPPORTING THOSE WHO HAVE SERVED

Annually recognized as a Military Friendly School, the University offers a number of specialized services to specifically support our thriving student-veteran population. As a proud Yellow Ribbon participant, we are able to offer all of the benefits of the Post-9/11 GI Bill, including full tuition and University fees for an unlimited number of eligible veterans pursuing full- and part-time graduate, doctoral, and professional programs, either on campus or online.

WORLD-CLASS CAREER SERVICES

The Steinbright Career Development Center provides tremendous support for our graduate student population as they prepare to advance as professionals. Through career counseling, job skill workshops, one-on-one advising sessions, and more, this dedicated team of career services experts provides students with the tools, knowledge, and both in-person and virtual guidance necessary to construct successful professional trajectories in the modern workplace. Steinbright also connects our Dragons with Drexel’s constantly growing network of employers, agencies, and industry leaders from across the globe, often serving as the initial point of contact for students interested in cooperative education or post-graduate job placement opportunities.

Today

Drexel is a modern university
for a modern world

Our Home in Philadelphia

Philadelphia is the nation's sixth largest city, home to Fortune 500 companies, trailblazing technology laboratories, influential teaching hospitals, trend-setting culinary establishments, and so much more. Since its birth, Philadelphia has embraced innovation and new thinking — today, it provides unlimited opportunities to grow as a professional, a researcher, or as an individual. We view this great city as the University's extended campus, allowing our students to develop enhanced skills as they learn directly from the visionaries shaping the landscape of tomorrow.

MAKING AN IMPACT TOGETHER

Drexel holds a strong commitment to the neighborhoods and communities that surround us. We are proud of our deep connection to Philadelphia and recognize that as engaged citizens, we have a responsibility to give back to the city that supports us — and beyond. As a University, we work to integrate service into all aspects of our academic model. This not only includes the sharing of knowledge and the development of community-enriching projects but also direct service participation and volunteer initiatives.

Your Experience Matters

We recognize that as a graduate student, you are in search of a transformational experience that considers and integrates where you are, what you've done, and what you hope to accomplish. Pursuing a graduate degree at Drexel will empower you to leverage the knowledge you already have, broaden the scope of your education, and gain insights from your peers that will allow you to take the next step in your career.

We believe you — and the experience you bring — will strengthen the studies of everyone around you. But know that it is not only you who will benefit; as an active member of this collective of thought and exploration, your knowledge, insights, and perspectives will help guide the trajectory of the students around you.
