ENGINEERING, COMPUTING, AND DATA ANALYSIS
In 1891, A.J. Drexel founded this university with the dream to establish an institution that would fully prepare its students to excel in their future careers. To meet his vision, Drexel has developed a model of learning that takes students beyond the typical collegiate experience as they are challenged to apply what they’ve learned in the classroom by working in the real world alongside mentors and industry professionals, pushing the boundaries of knowledge and achievement.

Drexel’s curriculum is uniquely designed to put our students at the forefront of innovation. Here, you can pursue your interests and build a learning experience that works for you. Our university does not restrict students to a singular focus, instead allowing them to take the lead in their own studies as they assist faculty and staff with major projects in our state-of-the-art facilities. With your classroom-based learning supplemented with our cooperative education program (co-op), you can gain up to 18 months of entry-level professional work experience in the United States and abroad, building an impressive résumé and obtaining a unique working perspective — all before you graduate.

Drexel’s engineering, computing and data analysis, and information systems programs will allow you to explore your interests and equip you with the capabilities needed to make a lasting impact in your career field. These programs will ask how you can use technology to discover new solutions to modern societal problems. We know there is no limit to what you can achieve — you simply need the opportunity to begin.
Finding Your Path

Drexel is a place that will allow you to develop and explore your own unique path. Here, you will discover how you can bring your interests and inspirations to life and make an impact in the world. To learn more of what it means to be a Dragon and get a sense of all the possibilities that await, visit drexel.edu/academics.

ENGINEERING

Drexel’s engineering programs encourage students to help move the world forward by striving to find answers for many of society’s most pressing issues. Here, an emphasis on applied learning gives you the chance to make substantial contributions in the community, be creative and address real-world challenges right from the start of your journey. From taking on innovation in health care and medical devices, to developing smart buildings or smart fabrics, to improving bridges and batteries or battling climate change — engineering at Drexel offers concentrations and the options to customize your learning experience to graduate from Drexel with the tools you need to engineer change.

POTENTIAL CAREER OPPORTUNITIES

Mechanical Engineer, Chemical Engineer, Civil Engineer, Computer Engineer, Aerospace Engineer, Materials Engineer, Industrial Production Manager, Construction Manager, Electrical Engineer, Robotics Engineer, Network Engineer

MAJORS

• Architectural Engineering
• Biomedical Engineering
• Chemical Engineering
• Civil Engineering
• Computer Engineering
• Construction Management
• Electrical Engineering
• Engineering Technology
• Environmental Engineering
• Materials Science and Engineering
• Mechanical Engineering
• Undeclared Engineering
Today's digital age means that the possibilities are virtually endless for students whose interests lie in computers. Whether you want to help predict natural disasters, analyze market trends, or stop cyber attacks, Drexel’s computing and data analysis programs will provide you with the foundation of knowledge to understand the connection between people, information, and technology. Through unique events, like our University’s annual 36-hour hackathon — Philly Codefest — you’ll find opportunities to apply your skills and tackle local and global challenges, giving you valuable insights into the technological needs society faces today.

POTENTIAL CAREER OPPORTUNITIES

Software Developer, Computer Programmer, Computer Network Architect, Database Administrator, Analyst

MAJORS

- Business Analytics
- Computer Engineering
- Computer Science
- Computing and Security Technology
- Data Science
- Economics and Data Science
- Health Data Analytics
- Undeclared – Computer and Information Sciences
INFORMATION SYSTEMS

In Drexel’s information systems program, you’ll learn the intricacies of high-level system design, databases, and human–computer interaction to examine how organizations can best use technology to provide the information needed to achieve their goals. Our co-op program will put you at the forefront of innovation as you work alongside industry professionals in the field, allowing you to gain real-world experience bridging the gap between complex computer data and business even before you graduate.

POTENTIAL CAREER OPPORTUNITIES

Information Security Analysis, Network and Computer Systems Administrator, Emergency Management Director, Database Administrator, Computer Programmer, Cost Estimator, Software Developer

MAJORS

• Information Systems
• Management Information Systems
• Software Engineering
• Technology and Innovation Management

GET A FIRSTHAND PERSPECTIVE

PaperClip is a collection of unique stories about Drexel experiences written by students. Learn more at drexel.edu/paperclip.

Our Admissions Blog gives you the insider’s view of Drexel University. From tips about the admission process to a preview of life on campus and in Philly, you’ll learn from those who know it best. Learn more at drexel.edu/undergrad/blog.
Dornsife School of Public Health

The Dornsife School of Public Health prepares ambitious students to fight for the health and human rights of the world’s growing urban populations and use the insights and innovations to benefit communities of all types around the world. Dornsife prepares students with experience in and out of the classroom, research opportunities, and partnerships with local organizations to improve the health of populations.

Located in Neubott Hall on our University City Campus, Dornsife highlights include:

• The Urban Health Collaborative
• The Ubuntu Center on Racism, Global Movements, and Population Health Equity

College of Computing & Informatics

The College of Computing & Informatics instills the knowledge and skills necessary for students to lead and innovate across industries in a rapidly evolving technological landscape. Building on Drexel University’s exceptional foundation of entrepreneurship and cooperative education, the College provides unparalleled professional experiences and the on-the-job training that is vital to preparing today’s students for tomorrow’s world.

Located in a state-of-the-art building designed with the student experience in mind, highlights of the College include:

• The Metadata Research Center
• Philly Codefest
• The Women in Computing Initiative
• The Entrepreneurial Game Studio (in collaboration with Antoinette Westphal College of Media Arts & Design’s Game Design and Production program and Drexel’s ExCITe Center)

Why Choose Drexel?

At Drexel, we take pride in offering state-of-the-art facilities for our students. No matter your field of study, you will have a wide variety of resources at your disposal, from student-run media outlets to cutting-edge labs.

At Drexel, learning goes well beyond the traditional classroom. We encourage our students to pursue different opportunities, such as studying abroad, immersing themselves in the local community, and developing their own course of study.

Honors Program: At the Pennoni Honors College, the Honors Program serves as a catalyst for enhanced intellectual exploration. Composed of curious and active learners, this program offers exclusive access to Philadelphia events, advising and mentoring, dedicated housing, and a Living Learning Community, along with specialized opportunities to complete service and develop leadership skills. Honors students in this program are scholastic ambassadors at Drexel, raising their academic experience to the next level.

Civic Engagement: We believe in the importance of giving back to local communities — there are always opportunities to make an impact and serve the community here. Students can get involved on campus through Drexel’s Lindy Center for Civic Engagement and the Dornsife Center for Neighborhood Partnerships during community-based learning courses and volunteering for community service. But our impact doesn’t stop there; our dedication reaches out globally to improve the world around us.

Custom-Designed Major: The Custom-Designed program is suited for highly motivated students whose interdisciplinary curiosity and ambition cannot be satisfied by a traditional major. This path enables you to pursue an individualized course of study in place of an existing major, either by developing a plan with your advisor or by combining existing majors and minors to match your career goals. As a student in this unique program, you’ll be advised by staff from the Honors College and mentored by a Drexel faculty member who has expertise in at least one of the areas in your course of study.

Global Opportunities: These options include study abroad, international co-op, and more. All Drexel students can take advantage of study abroad, which enables them to live and learn in another country while immersing themselves in the culture. Using our worldwide connections, you can choose from six continents and 35 countries! International co-op takes study abroad one step further; students not only live in another country but also gain work experience as they test-drive a potential career. Students currently on international co-op are working in 21 countries.

Philadelphia, Pennsylvania, is a revolutionary town founded on revolutionary thinking — much like the ambition Drexel students have for influencing change in the world. As the sixth largest city in the United States, the City of Brotherly Love is an extension of our campus and, as a student here, you’ll take full advantage of all it has to offer.

Philly culture is known for being as diverse as its many neighborhoods. From our University City Campus in the hub of Philadelphia’s higher-learning community, it’s easy to get to the sport stadiums in South Philly, take in some history in Old City, and enjoy the park in Rittenhouse Square. When you’re not in classes, there is plenty to do, no matter how you like to spend your free time. Being the most walkable city in the country according to USA Today 10Best has its perks: concerts, performances, restaurants, and athletic events are all easy to access.

Public transportation is just steps away from campus — it’s easy to enjoy an authentic cheesesteak and then visit the famous Philadelphia Museum of Art. You will find that all areas of the city are interconnected by simple means of travel, and getting to historic sites around the city or connecting to various locations across the country is an easy task. Living in Philadelphia provides access to everything from farmers’ markets in Lancaster County to ski and snowboarding locations in the Pocono Mountains to the best beaches in the Mid-Atlantic.

For the most up-to-date list of majors, concentrations, and accelerated programs, visit: drexel.edu/undergrad/academics.

Note that transfer students cannot transfer directly into accelerated degree programs or bridge degree programs. Transfer students are encouraged to speak with their advisors about doing so once they have enrolled at the University.

* Not available for transfers
** A second bachelor’s degree program
*** Available to transfers as a part-time program only
**** Not available to international students
***** Transfer may only apply for fall entry
There is no typical Drexel student. Our students are ambitious, curious, complex, and bold. Candidates are selected based on their ability to thrive in our unique academic environment and make contributions to our diverse community. Through a contextual and holistic review process, we carefully consider each applicant, evaluating their personal qualities, academic journey, and intellectual promise.

**Application Deadlines**

**EARLY DECISION** .................................................. NOVEMBER 1
Early Decision is the perfect option for students who know Drexel is the number one school for them and would like a decision in December of their senior year. This is a binding admission plan; if admitted, students must withdraw all other active applications and commit to enrolling at Drexel.

**EARLY ACTION** .................................................. NOVEMBER 1
Early Action allows students to apply by an earlier deadline to receive an admission decision in December, but that decision is non-binding.

**REGULAR DECISION** .............................................. JANUARY 15
Through the Regular Decision application process, students will receive a decision in early spring.

**WINTER ENTRY PROGRAM** .................................. OCTOBER 1
Students start classes in January, providing them with the same level of academic rigor and more time to plan.

**Submitting Your Application**
First-year students can apply through either the Common Application or the Coalition Application.
drexel.edu/undergrad/apply

**Standardized Test Scores**
Applicants can choose whether to include standardized test scores as part of their application under Drexel’s Test-Optional policy. International applicants whose first or native language is not English must take an approved English proficiency exam.
drexel.edu/undergrad/apply/tests

**Financial Aid**
Financial aid is available to domestic and international students in the form of merit scholarships and need-based grants. There are a few applications you should learn about to maximize the financial aid you are eligible for, such as the Free Application for Federal Student Aid (FAFSA) and CSS Profile.
drexel.edu/undergrad/financing

There are many reasons you may consider transferring to Drexel. As you make your transition, we’ll be here to help you every step of the way. Drexel has a vibrant and active transfer community. Qualified applications are considered on a rolling basis through all terms. Applications must be received one month prior to the start of the term for which you are applying.

**Application Deadlines**

**STARTING TERM**

**Fall (September)** ...................................................... April
**Winter (January)** ....................................................... October
**Spring (Late March/Early April)** ................................ February

*Not all majors enroll in our off-terms

**Submitting Your Application**
Transfer students may submit applications through the Common Application or Drexel University’s Admission Application.
drexel.edu/undergrad/apply/transfer

**Financial Aid**
Drexel offers competitive financial aid opportunities for transfer applicants. While students will be reviewed for scholarships during the admissions review process, we highly recommend all U.S. Citizens and Permanent Residents file the Free Application for Federal Student Aid (FAFSA) to be considered for institutional need-based aid; international applicants should submit the CSS Profile to maximize their eligibility for support.
drexel.edu/undergrad/financing

Students who have earned an associate degree at a regionally accredited community college in either Pennsylvania or New Jersey are eligible for The Drexel Promise, a renewable scholarship for 50% of the cost of their tuition as they work to complete their bachelor’s degree at Drexel.
drexel.edu/promise
There are many different ways to visit Drexel University throughout the year, including Open Houses, Daily Visits, Transfer Tuesday and Thursday events, and more.

If you can’t make it to campus, don’t worry; our virtual tours will give you an insider’s look into Drexel University. Whether you’d like to learn about restaurants in the area, what to do in University City, or even the best places to hear some local music, you can see it all through our virtual tours.
