

GATEWAY TO DREXEL

The International Gateway Program

At Drexel University, our innovative curriculum is designed to take our students beyond the typical college experience, uniquely preparing them to meet the challenges of an ever-changing world. Through rigorous academics and our world-renowned cooperative education program, Drexel provides international students with opportunities that will fully prepare them to make a meaningful impact, right away.

Drexel's International Gateway program is the pathway for international students who need additional English language preparation before matriculating into an undergraduate program.

Taught by Drexel faculty, students in the Gateway program receive a foundational year of study, full immersion into campus life, and dedicated student resources. Successful completion of the program allows students to transfer directly into their major at Drexel.

We know you have the ambition to accomplish your goals. The International Gateway Program is here to help you reach them.

BEGIN YOUR UNIVERSITY JOURNEY HERE

An Exceptional Education

Accredited by the Commission on English Language Program Accreditation (CEA), the International Gateway program is an academic offering unlike any other at Drexel. This option is for students who are academically qualified to attend Drexel and would like to have additional English preparation and instruction prior to matriculating into their major. Taught by distinguished faculty who specialize in English as a second language, students in the International Gateway program receive both language support and individualized academic coaching.

The goal of this 6- to 12-month program is to serve as a pathway to a comprehensive academic career. Gateway students not only work to improve their English abilities but also take courses for up to 25 transferable credits within the Departments of Mathematics, Chemistry, Communication, Philosophy, and others.

After successfully completing the program, qualified students will be able to transfer directly into their undergraduate major at Drexel. With over 80 majors and even more minors, there are many options to choose from. Overall, participants in this program see powerful results, including a 94 percent retention rate year to year, for those who matriculate to Drexel. Many also move on to pursue their graduate studies.

A Vibrant Community

Drexel has a thriving student life that Gateway students take part in. With over 250+ clubs and student organizations, including more than 77 spiritual/religious and identity-based organizations, 18 Division I sports teams, and many academic and professional organizations, it's easy to get connected and make new friends on campus.

From the Campus Activities Board (CAB), Drexel's largest student-run event-programming organization, to clubs such as the Community Student Association, Drexel CyberDragons, and fraternities and sororities — Gateway students are active members of our Dragon community.

Additionally, Gateway offers the Intercultural Classrooms, which provide the chance to learn about and share different cultures with the campus community.

On-campus and off-campus housing options are available to students in the program.

A Revolutionary Town

Studying in the United States is a fantastic opportunity to broaden your education and gain experiences that will set you apart from your peers. Drexel's home in the city of Philadelphia has a lot to offer as the birthplace of America.

At Drexel, we are proud to host over 1,500 international undergraduate students from 117 different countries each year. Our students come from many backgrounds and places around the world, and each contributes a unique piece to our inclusive community.

Drexel was founded in 1891 in Philadelphia, the sixth largest city in the U.S. and the nation's first World Heritage City. Our location gives students the benefit of pursuing a world-class education in a city that offers numerous cultural, historical, and community-service opportunities. Philadelphia is also located near both New York City and Washington, D.C.
