**Early Decision**
Binding application decision that allows students to be notified of their application decision at an earlier date. If a student is offered admissions, they must attend Drexel University and withdrawn other applications.

**Early Action**
Non-binding application decision that allows students to be notified of their application decision at an earlier date.

By applying early, students will receive a decision of admission, denial, or deferral to regular decision about a month and a half after the deadline.

**Regular Decision**
Non-binding application to Drexel. This is the last deadline for students to apply for admission.

Every major will have seats open for students applying regular decision.

Tips For Appropriate Interactions with Minors

Do not engage in any discussions of a sexual nature, including jokes, flirtatious banter, comments about the student's appearance. (This includes online interactions)

If you feel uncomfortable in any of your interactions with students, please notify us in admissions as soon as possible. We're here to help.

If you witness any child abuse, sexual abuse, or child sexual exploitation (child pornography), report it immediately to 911 (and, if on a Drexel campus, to Public Safety).

Every state's laws are different with regard to conduct that might be considered criminal involving minors. In addition, states may have laws regarding the mandatory reporting of child physical or sexual abuse and child exploitation. It is best to steer clear of any conduct that might create a problem for you.

We all take pride in Drexel and our shared commitment to protecting minor students.
