

Drexel Business Inclusion Center

Supporting businesses to build a diverse and inclusive workforce

Workforce Solutions

We build businesses' capacity to hire, train and retain employees on the autism spectrum and with other disabilities. Research suggests workers with disabilities are innovative, productive, and loyal employees.

Strategy

We customize our approach based on business needs, and assist with leveraging tax and other incentives.

Team

The Drexel Business Inclusion Center is a partnership between Transition Pathways of the A.J. Drexel Autism Institute and Community Integrated Services.

Commitment

We are committed to accelerating inclusive hiring practices that support your diversity, equity, and inclusion goals.
