Security

Require that all meetings are secured with one security option

Require that all meetings are secured with one of the following security options: a passcode, Waiting Room, or "Only authenticated users can join meetings". If no security option is enabled, Zoom will secure meetings with Waiting Room. [Learn more](#)

Go to Settings

Waiting Room

When participants join a meeting, place them in a waiting room and require the host to admit them individually. Enabling the waiting room automatically disables the setting for allowing participants to join before host

Why is This
Important?

Importance of ADA

- State and local law under the ADA states that both public and private entities must provide reasonable accommodation to mitigate the barriers attributed to disability.
- Disability is defined as "substantial limited impairment" including both mental (ie neurological) and physical
 - Hearing loss/hard of hearing/deafness can fall under either or both of those categories
