# A GUIDE TO STUDY ABROAD FOR BIOMEDICAL ENGINEERING

## CONSIDER...

1. Which **subjects/courses** in my plan of study do I need to take while abroad?
2. Am I interested in **studying a language** as part of my abroad experience?
3. Which **term** makes the most sense for me to go abroad, academically and personally?
4. Which **locations** offer the best opportunities to grow my personal, professional and academic network?

**"My first international experience was actually studying abroad at the University of Sheffield which was one of the best experiences of my entire life!... I met so many wonderful people while I was there and wouldn't trade the experience for the world."**

**- Peter Looft '23, College of Engineering, University of Sheffield**

Going abroad offers Biomedical engineering students an opportunity to **broaden their knowledge**, gain **global experience**, and **grow their network** abroad. Students have the opportunity to attend a number of programs designed specifically for engineering majors throughout the world, including several highly ranked universities.

## Program Recommendations

### University of Sheffield

Fall or Spring Term

Sample Coursework:

- BMES 338 Biomed Ethics & Law
- BMES 375 Computational Engineering
- BIO 270 Developmental Biology

### Hong Kong University of Science & Technology

Fall, Spring or Summer Term | No lang requirement

Sample Coursework:

- BMES 310 Biomedical Statistics
- BIO T480 Biochemistry of Life
- BIO 212 Biotechnology

### Technical University of Denmark

Fall or Summer Term | No lang requirement

Sample Coursework:

- BMES 484 Genome Information Engineering
- BMES 524 Introduction to Biosensors
- BIO T480 Engineering & Physiology

### Spotlight on Intensive Courses Abroad!

### Summer Break in Italy: Water Resource Engineering in Venice

Join an interdisciplinary group of faculty, students, and practitioners for a late summer trip to Venice, Italy focusing on water, sustainability, and resilience in a contemporary and historical context. Our goal is to promote cross-cultural, multidisciplinary dialogue on these important topics.

# HOW DO I GET STARTED?

Click on each step to learn more.

**1** Research programs on our website

**2** Attend a Study Abroad 101

**3** Meet with your academic advisor

**4** Meet with a study abroad advisor

## FREQUENTLY ASKED QUESTIONS

### Can co-op students go abroad?

Yes! Most students who study abroad are in co-op degree programs, though study and co-op do not happen simultaneously. Talk to your co-op advisor about international co-op.

### Can I fulfill specific degree requirements while abroad?

Potentially! While not every program offers every subject, start by exploring the pre-approved course database and program course catalog. Then speak with an Education Abroad Advisor about options that are best suited to your major.

### What's the best term for me to go abroad?

Students must study abroad during a Drexel academic term. There are many programs offered during fall & summer terms, with some winter and spring term options, as well as Intensive Courses Abroad during break periods. Talk to your academic advisor to determine when is best for you!
