*Totals are predicted **without** allowance for annual tuition rate increases that are established on a year-by-year schedule by action of the University's Board of Trustees. Historically, for planning purposes, University related costs increase by approximately 2 - 4.5% per academic year. Therefore, tuition rates will likely increase each academic year. The costs listed above are subject to change annually.

Financial Aid:

The University does not provide direct stipends or scholarships to Physician Assistant students. The Financial Aid Office acts as an intermediary for agencies providing scholarships and loan assistance through traditional sources. Students are urged to actively begin securing financial aid now.

Students are also encouraged to investigate additional, lesser known sources of aid such as fraternal organizations, employers' educational funds, etc. Additionally, college/university counselors and the financial aid offices at schools where you may be currently attending are often good sources of financial aid information.
