## DREXEL UNIVERSITY COLLEGE OF ARTS AND SCIENCES UNDERGRADUATE MINORS AND CERTIFICATES

Our world's greatest challenges call for flexible thinkers — individuals with cross-disciplinary skillsets and informed perspectives that are both broad and nuanced. Go beyond your intellectual comfort zone and widen the scope of your Drexel education by pursuing a minor — or two! College of Arts and Sciences minors complement all disciplines, from engineering and business to education and public health.

## CHOOSING A MINOR

The most effective minors are chosen with career and educational goals in mind:

- **Deepen your understanding** with a minor that is closely related to your major and shows concentrated study in a particular subfield.
- **Diversify your skills with a minor that complements** your major and demonstrates multidisciplinary readiness for a career. A minor provides a more complete picture of a job applicant by demonstrating areas of proficiency and the initiative to explore beyond the major.
- **Highlight a passion for a particular field** with a minor that is drastically different from your major and showcases the diversity of your intellectual interests.

With over 120 unique minors at Drexel, you can find a minor to meet almost any interest. The College of Arts and Sciences offers over three dozen minors within foundational disciplines to prepare students for the complex challenges of any career.

Italian Studies	

## YOU MAY ALREADY BE ON YOUR WAY TO A MINOR

Since all Drexel students take courses outside of their major, declaring a minor can help you get the most out of your completed courses. Many minors can be completed in 24 credits. Talk to your academic adviser to learn more about how you can add a minor without lengthening your time of study.

### MINOR CHECKLIST

1. **Start with one course:** If possible, take a course in the field before declaring a minor to determine how it compares with your expectations.
2. **Consider your goals:** Think about not only your career goals, but also what you want from your college experience.
3. **Meet with your academic adviser:** Your adviser can help you talk through your options and determine how the minor could fit into your plan of study.
4. **Complete the necessary credits:** You can declare a minor once you have earned at least 30 credits at Drexel.

### COLLEGE OF ARTS AND SCIENCES CERTIFICATES
