## APA or CPA ACCREDITED INTERNSHIP MATCH RATES BY PROGRAM BETWEEN 2011-2014, AS REPORTED BY APPIC

Based on the data below, we have calculated the following Match rates to APA Accredited Internships as follows:	Mean %	SD
All Programs	63.74	31.86
All PhD Accredited	81.20	18.45
All PhD Unaccredited	27.57	32.56
All PsyD Accredited	48.04	23.48
All PsyD Unaccredited	7.29	11.20

IMPORTANT NOTE: An important decision when applying to graduate school pertains to the likelihood of obtaining a predoctoral internship in the very competitive internship application process. In the past ten years, approximately 75% of applicants match to internships, and even fewer to APA or CPA accredited internships that soon may be required for licensure in many states. The attached listing is based on data provided by APPIC regarding the number of students will excussfully matched to an APA-or CPA-accredited internship divided by the total number of students who registered for the APPIC match for an internship placement. CAUTION #1: Note that some students who registered for the APPIC match for an internship placement. CAUTION #1: Observable with the process of the APPIC match for an internship placement. CAUTION #1: Observable with the process of the APPIC match for an internship placement. CAUTION #2: Because in many programs, so few students apply to internship, small differences in the match rate between programs in (i.e., within 10%) likely are meaningless. However, this list may prove useful when examining more substantial differences in match rates and considering different possible graduate programs.

All PsyD Unaccredited 7.29 11.20
