Drexel University  
134th Commencement Ceremonies

PHILADELPHIA, PENNSYLVANIA

## Dear Graduates,

Congratulations on this milestone in your academic career, professional development and personal journey. You can take pride in graduating from a university that, with your participation, is pushing the boundaries of academic and research excellence, while setting a new standard for civic engagement and renewing its historic commitment to social justice.

With mentoring from Drexel faculty and the support of your family and friends, you have completed an impressive journey of learning. No one reaches such heights alone, and so I salute family and friends who have helped and supported you throughout your studies.

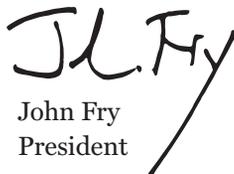

No matter where your career and personal goals guide you after graduation, I know that you will be confident in having worked with outstanding professors whose influence shaped you in so many positive ways — from their teaching and counsel, to the example they set through research and engagement. I believe they can continue to serve as valuable role models.

For the second year, our ability to gather has been limited due to public health concerns stemming from the COVID-19 pandemic. But, however you celebrate this achievement, I hope you come away with an even greater sense of the community of Drexel alumni, which spans the globe. Our alumni are highly accomplished, and I urge you take advantage of the many opportunities offered by the Alumni Association, and also to nourish the friendship of Drexel graduates with whom you share a common bond.

We are proud to send you forth bearing a Drexel diploma. You have the potential to be outstanding ambassadors for Drexel, your colleges, schools and communities. As you join the ranks of Drexel professionals and scholars making a difference, I am more convinced than ever that the future holds great promise.

On behalf of the trustees, faculty and professional staff of Drexel University, I wish you all the best in realizing your dreams.

Sincerely,

  
John Fry  
President

*Accounting career spanned the globe*

Carole Gardner Dodson is an ExxonMobil retiree.

After graduating from Drexel with a bachelor's in humanities and social science in 1971, Ms. Dodson was offered a management position at Bloomingdale's but chose instead to pursue an MBA at New York University's Stern School of Business. After receiving her MBA, she became a Certified Public Accountant and worked at Coopers & Lybrand in New York and Philadelphia before joining the Rohm and Haas Company.

In 1980, she and her husband, Samuel Dodson (Drexel '70), took advantage of a Rohm and Haas assignment that relocated them to Houston, Texas. Although their original plan was to return to Philadelphia, the Dodsons elected to remain in Houston. Ms. Dodson joined ExxonMobil, where she enjoyed a multi-faceted career in financial reporting, procurement and SAP systems. Her work on the ExxonMobil STRIPES project took her, and her husband, to Brussels, Miami and back to Houston.

Among other interests, Ms. Dodson currently serves as a member of board of directors of The Beacon of Downtown Houston. .

**KEYNOTE SPEAKER:****CATHERINE FORD CORRIGAN, PHD***Expert on the biomechanics of human injury*

Catherine Corrigan, PhD, is president and chief executive officer of Exponent, a publicly traded, global engineering and scientific consulting firm. Exponent's interdisciplinary organization of scientists, physicians, engineers and business consultants draws from over 90 technical disciplines to solve the most pressing and complicated challenges facing stakeholders today, analyzing accidents and failures to advise clients as they innovate their technologically complex products and processes, ensure the safety and health of their users, and address the challenges of sustainability.

After joining the company in 1996, Dr. Corrigan was promoted to principal in the biomechanics practice in 2002, and to corporate vice president in 2005. In 2012, she was named vice president of Exponent's Transportation Group, overseeing the company's vehicle engineering, biomechanics, human factors, and statistical and data sciences practices, as well as visual communications. She was appointed president in 2016 and chief executive officer in 2018. Dr. Corrigan has consulted in the area of injury biomechanics and on issues related to motor vehicle and product safety for more than 20 years.

Dr. Corrigan addresses issues involving the biomechanics of human injury, with expertise in the areas of human tolerance and occupant kinematics. Her work includes analysis of traumatic injuries associated with transportation, heavy equipment, falls, consumer products, and the workplace. Her research activities have included studies of occupant kinematics and injuries in the automotive environment, bone and joint mechanics, pediatric biomechanics, and the mechanics of central nervous system injury.

She holds a doctorate in medical engineering from the Harvard-MIT Division of Health Sciences and Technology, a master's in mechanical engineering from MIT, and a bachelor's in bioengineering from the University of Pennsylvania. Dr. Corrigan has held appointments as adjunct professor in the Department of Mechanical Engineering at Temple University, and as visiting lecturer in the Department of Mechanical and Aerospace Engineering at Princeton University. Prior to joining Exponent, Dr. Corrigan was a researcher at the Orthopedic Biomechanics Laboratory of Beth Israel Hospital and Harvard Medical School. *Women Inc.* magazine included Dr. Corrigan on their 2019 list of the most influential corporate board directors.

**STANLEY W. SILVERMAN '69,'74**

*Thought leader on leadership, entrepreneurship, and corporate governance*

Stan Silverman formerly led the PQ Corporation, a privately held global enterprise operating in two core businesses — chemicals and engineered glass materials. His multiple roles included president and member of the board, executive vice president, chief operating officer, president of the Industrial Chemicals Group, and president of National Silicates, Ltd., Toronto, Ontario, a PQ subsidiary.

As the author of “Be Different! The Key to Business and Career Success,” a book that teaches how to build competitive advantage for your company and yourself as you climb your career ladder, Mr. Silverman is a nationally syndicated, weekly contributing writer and a recognized thought leader on leadership, entrepreneurship, and corporate governance for the Philadelphia Business Journal and 42 sister publications across the U.S.

Mr. Silverman is also a former chairman of the board of the Soap and Detergent Association and is a former board member of the American Chemistry Council. He has served as a director on the boards of numerous companies. His current board service includes the boards of Friends Select School and Faith in the Future, which operates the 17 Catholic high schools within the Archdiocese of Philadelphia.

At Drexel, Mr. Silverman is vice chairman of the board of trustees, where he serves as chair of the complex transactions committee and as a member of the audit, executive compensation, executive, finance and human resources, and nominating and governance committees. He is the former chairman of the board of Drexel's College of Medicine and former chairman of the Drexel board finance committee.

Additionally at Drexel, he is an Executive in Residence at Drexel's LeBow College of Business and serves on the LeBow Dean's Advisory Board. With his wife, he established an endowment fund and named the Close School's founding Dean Donna De Carolis, as the Silverman Family Professor of Entrepreneurial Leadership.

In February 2017, Mr. Silverman received the Outstanding Director Award from the *Philadelphia Business Journal*, for his service on the Drexel board. In 1995, he was the recipient of Drexel University's College of Engineering Alumnus Award. He is also a charter member of the College of Engineering's Circle of Distinction. Mr. Silverman was inducted into the Drexel 100, a group of the University's most distinguished alumni.

DET ANSINN '95***Software development pioneer and serial entrepreneur*

Det Ansinn is a serial entrepreneur and owner of BrickSimple LLC, a software development studio with offices in Doylestown and Philadelphia. Det made some of the first apps on the iOS and Android platforms, plus innovative apps for wearable devices like Google Glass. For the past seven years, Det has been focused on virtual reality, augmented reality, and mixed reality experiences with deep learning, artificial intelligence, and custom hardware components.

With a reputation as an innovator, Det has worked with many emerging hardware and software technologies and was selected by Microsoft as a HoloLens Wave 1 Developer. He has applied this experience to health care, including patient-worn wearable devices, smart glasses and virtual training experiences. As a software developer who has been coding for forty plus years, Det has a proven track record of building businesses that put cutting-edge technology to work at scale.

Det has provided technology business analysis and commentary for numerous national media outlets and was also featured in the award-winning documentary "DATUNA: Portrait of America" for his work with the artist David Datuna and Google Glass. He currently serves on the board of Startup Bucks, an organization committed to supporting startups in Bucks County, and served on the Business Forward Local Leadership Council and served as a member of the White House Business Council during the Obama administration.

In addition to his entrepreneurship, Det served as the Doylestown Borough council president for a decade, served on the Bucks County Open Space Review Board, and is past president of the Bucks County Free Library system. Det also served as a board member of the Pennsylvania Municipal League.

A graduate of Drexel's electrical engineering program, Det currently serves as the chair of the Dean's Executive Advisory Council for the College of Computing and Informatics. Det has an honorable discharge from the U.S. Air Force.

ANNE STEVENS '80***Global engineering executive for automotive, aerospace, IT*

Anne Stevens is a seasoned corporate governance leader with a successful track record spanning more than three decades with some of the world's leading corporations from the Fortune 50 and FTSE 100, as well as mid-capital and private companies.

In January 2018, Anne became chief executive officer of GKN, a global engineering company based in London with annual revenues over \$10 billion and more than 58,000 employees across 30 countries, supplying components and systems to the automotive and aerospace sectors. Previously, Anne had joined SA IT Services as an equity partner in 2010, and served as chairman and chief executive officer for four years for the majority woman-owned business, which provides managed technical services here and abroad. She also served from 2006 to 2009 as chairman and chief executive officer of Carpenter Technology, a \$2 billion specialty metals producer, where she developed a strategy for growth, improved all aspects of operational performance and achieved record sales, operating income and operating margins.

Anne retired from Ford Motor Company in 2006 as chief operating officer of the America, where she was responsible for systems re-engineering including product development, 68 manufacturing sites and purchasing. At the time, Anne was the highest-ranking woman in the automotive industry and was recognized four times on Fortune's Most Powerful Women list. Prior to this role, she served as group vice president of Canada, Mexico and South America. And, from 1980 through 1990, Anne held various engineering, manufacturing, and marketing positions with Exxon Mobil Corporation.

In addition to being recognized by Fortune, Anne has received numerous awards and recognitions, including election to the National Academy of Engineering, and being named to Motor Trend "Power List of 50 most influential people in the car business." She currently serves on the board of directors of Anglo American, plc., Aston Martin and Harbour Energy PLC. Previously, Anne was on the Board of Directors of Lockheed Martin Corporation, XL Catlin Group, PLC. and GKN PLC.

Anne graduated magna cum laude from Drexel with a bachelor's degree in Materials and Mechanical Engineering and did doctoral-level graduate work at Rutgers University while studying with the renowned Dr. W. E. Deming.

VIJAY ULLAL '82**

*Investor supports 'magic' business ventures*  
Vijay Ullal '82 is founder and CEO of Seabed VC, a venture capital-based firm headquartered in San Francisco. Seabed invests in early-stage tech startups with a portfolio that has risen to over 30 companies. An accomplished leader and visionary, Vijay takes pride in investing in ideas that typical mainstream VCs might overlook. He believes that the “magic happens” when talented founders with a supportive investor solve a difficult problem.

After earning his master's in chemical engineering from Drexel University, Vijay was recruited to join Intel. Five years later Vijay caught the startup bug and joined Saratoga as engineering manager. Two years later the startup was acquired by Maxim Integrated Products where he rose through the ranks to become group president. In 2012, he joined Fairchild Semiconductor for a two-year stint as president and chief operating officer.

Over the course of his career, Vijay has led technology development, operations and business units at companies including Maxim — guiding its growth from startup to a \$10 billion market cap — and Fairchild, the founding company of the Silicon Valley. He has led operations, business units and entire companies at every stage of their life cycle. He is deeply passionate about new technologies and products, as well as evolving and growing businesses.

Vijay has stayed connected with Drexel as a keynote speaker at the Charles D. Close School of Entrepreneurship's Startup Fest 2020 and at Drexel InSites (San Francisco) on the topic of “Start Something: How an Entrepreneurial Mindset Inspires a Career.” In addition to speaking and networking with students and alumni, Vijay helped establish the Drexel Startups Fund and is serving on the executive committee that provides funding and mentorship to student and alumni ventures.

Vijay is currently on the board of trustees of the Santa Fe Institute. He has also served as a board member of the MIT Sandbox Innovation Fund and board chairman at IIT Madras Foundation, where he is currently chairman emeritus.

In addition to his Drexel degree, Vijay holds a BS in chemical engineering from the Indian Institute of Technology Madras. Vijay is married to Jayshree Ullal, president and CEO of Arista Networks. They have two daughters and a grandson, and live in the San Francisco Bay area.

**KEYNOTE SPEAKER:****DAWN MARIE BAZEMORE***Using art to investigate sociopolitical issues*

Dawn Marie Basemore is a dancer/choreographer who has dedicated her research and pedagogy to finding new and inventive ways of using art to investigate the sociopolitical issues that affect the African American community. In 1998, after receiving her bachelor of fine arts from SUNY Purchase, she relocated to Philadelphia from New York to join Philadanco, where she performed professionally for 10 years. During that time she had the opportunity to work with esteemed choreographers such as Ronald K. Brown, Bebe Miller, Dianne McIntyre, Dwight Rhoden, Camille A. Brown, Christopher Huggins, Alonzo King, Jawole Willa Jo Zollar, Geoffrey Holder, Elisa Monte, Lynne Taylor-Corbett, Daniel Ezralow and Rennie Harris.

Dawn Marie has also lent her talents to Waheed Works, the Tania Isaac Dance Project, the Fred Benjamin Dance Company and Deeply Rooted Dance Productions. In 2009, Dawn Marie transitioned into musical theatre performing ensemble and featured roles in various Broadway and regional theater productions including All Shook up, Dreamgirls, Purlie and The First National Tour of the Color Purple.

After earning her master of fine arts from Hollins University, Dawn Marie served as a guest choreographer and artist in residence at Virginia Commonwealth University and the University of North Carolina School of the Arts and a Master Lecturer in the Ira Brind School of Theater Arts at the University of the Arts.

In 2013 Dawn Marie presented her solo work “Loss: Loving Into Life” at the American Dance Festival and her piece “A Movement for Five”, created for Philadanco and inspired by the events surrounding the Central Park Five, made its world premiere at the Kimmel Center for the Performing Arts in 2015. Also, in 2015, Dawn Marie’s essay Dance and Activism: The Practice and Impact of Sociopolitical Activism was published in the online journal The Dancer-Citizen. Dawn Marie teaches Modern Dance technique, Dance for the Musical Theatre and theory courses in World Dance Forms and African Influences in American Dance. In 2019, she was awarded the DanceVisions residency at the Performance Garage, where she created the world premiere of Letters, a collaborative performance about fragmented relationships and profound loss within American culture.

**LISA JACKSON**

*Greening the Apple brand*

Lisa oversees Apple's efforts to minimize its impact on the environment by addressing climate change through renewable energy and energy efficiency, using greener materials, and inventing new ways to conserve precious resources. She also leads Apple's \$100 million Racial Equity and Justice Initiative, focused on education, economic opportunity, and criminal justice reform — and is responsible for Apple's education policy programs, its product accessibility work, and its worldwide government affairs function.

From 2009 to 2013, Lisa served as administrator of the U.S. Environmental Protection Agency. Appointed by President Barack Obama, she focused on reducing greenhouse gases, protecting air and water quality, preventing exposure to toxic contamination, and expanding outreach to communities on environmental issues.

She has also served as chief of staff to New Jersey Governor Jon S. Corzine and as commissioner of New Jersey's Department of Environmental Protection.

Lisa holds a master's in chemical engineering from Princeton University and a bachelor's in chemical engineering from Tulane University. She serves on the boards of Tulane, SF Film, Conservation International, and the American Film Institute.

**KEYNOTE SPEAKER:****RANDOLPH RASCH***Nursing educator designed prisons health services*

Randolph Rasch, PhD, is dean and professor of the Michigan State University College of Nursing. He has been the director/coordinator of two well-known family nurse practitioner (FNP) programs, with over 25 years of experience teaching in BSN, MSN, DNP and PhD programs in nursing.

Dr. Rasch was the first statewide director of nursing services and programs director in the Tennessee Department of Correction (TDOC), where he provided leadership and direction for nursing services, and assisted the director of health services with the overall development, management, and operation of health services in the TDOC. As part of a three-member management team, Dr. Rasch was responsible for designing and implementing a system of health care for the TDOC, and as Programs Director, leading the development and facilitating the implementation of the quality assurance program for Health Services in the TDOC.

Widely published and presented in the areas of primary care, HIV risk reduction, and diversity in health care education and clinical practice, Dr. Rasch previously served as chair of the Department of Community Practice Nursing in the School of Nursing at The University of North Carolina at Greensboro.

Dr. Rasch's clinical experiences as a registered nurse include charge nurse on a surgical unit in a community hospital and public health nurse (PHN) and PHN Team Leader and home health nurse in a county health department. As an FNP, he has provided care in a prison system; a corporate health care center; and a nurse managed clinic recognized as a clinical agency by the North Carolina Board of Nursing.

A Fellow in the American Academy of Nursing (FAAN), a Fellow in the American Association of Nurse Practitioners (FAANP) and a Distinguished Scholar and Fellow in the National Academies of Practice (DS&FNAP), Dr. Rasch holds the distinction of being the first African American male graduate of the nursing program at Andrews University, and the first African American male masters-prepared FNP (Vanderbilt School of Nursing). He is the first African American male to hold a doctorate in nursing, and was the first African American male public health nurse in Michigan. .

**MARILOU E. WATSON**

*IP attorney brings life sciences training to protect clients' ideas*

Co-chair of the life sciences practice at the national law firm of Fox Rothschild LLP, Marilou Watson is an accomplished intellectual property attorney who leverages degrees in pharmacy and biology to help major chemical, biotechnology and pharmaceutical industry clients capitalize on and protect their most valuable assets – their ideas. A former pharmaceutical researcher and in-house patent attorney, Marilou assists clients with patent prosecution, infringement analysis and patent invalidity and freedom-to-operate studies, as well as licensing, due diligence and divestiture matters in the chemical and pharmaceutical arts.

Through her work on the Drexel University Goodwin College Advisory Board and the Mandela Washington Fellowship for Young African Leaders via the U.S. State Department, Marilou invests time, legal knowledge, and resources in supporting projects aimed at improving the lives of others, particularly people in Sub-Saharan Africa. Her work has included supporting a drive to provide food aid to struggling villages and an internship program for young girls in South Sudan and the launch of a pre- and post-natal clinic in a remote area of Ghana.

Dedicated to community service, Marilou mentors multiple students, aspiring lawyers and new attorneys who come to her through a variety of avenues, including the Philadelphia Diversity Law Group, Fox Rothschild's Summer Associate program and the Montgomery Bar Association's internship program for first-year law students. A strong advocate for public education, she is the creator of the Montgomery Bar Association's award-winning Day in Court Program, which provides high school students from diverse backgrounds an up-close, in-person look at the legal system and an introduction to careers in the profession. She also previously served since 2008 on the Pennsylvania's Early Learning Investment Commission.

Marilou is the recipient of multiple professional and community honors over the past several years, including more recently the Montgomery Bar Association's 2019 Honorable Horace A. Davenport Diversity Award. She was also named a 2020 Lifetime Achievement Award winner by Philadelphia's *Legal Intelligencer* newspaper, a 2020 Minority Business Leader by the Philadelphia Business Journal, and a 2021 "IP Star" by Managing Intellectual Property magazine.

**KEYNOTE SPEAKER:****KENNETH OLDEN, PHD***Public health professional with a legacy of promoting excellence*

Dr. Kenneth Olden recently retired from the U.S.

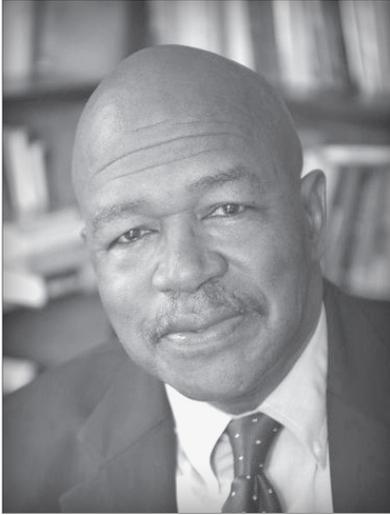

Environmental Protection Agency, where he served as director of the National Center for Environmental Assessment from 2012-2016 and left a legacy of promoting excellence in environmental health research and chemical risk assessment.

Ken started his distinguished career in medical research as a postdoctoral fellow in physiology and biochemistry at the Harvard School of Medicine in Boston. He then moved to the National Cancer Institute of the National Institutes of Health as a senior staff fellow in the Laboratory of Molecular Biology. In 1977, Ken was promoted to tenured independent investigator; becoming the first African American to achieve such a rank in the National Institutes of Health. In 1979, Dr. Olden was appointed professor in the Department of Oncology and scientific director of the Howard University Cancer Center at Howard University Hospital in Washington, DC. Six years later, he was promoted to director of the Cancer Center and chair of the Department of Oncology.

From 1991-2005, Ken served as director of the National Institute of Environmental Health Sciences (NIEHS), in the National Institute of Health (NIH), and the National Toxicology Program (NTP) in the U.S. Department of Health and Human Services. He made history in this role as the first African American to direct one of the Institutes in the National Institutes of Health. In 2005, Ken resigned as director of NIEHS and NTP to spend more time directing the institute's research program in cancer metastasis. Ken spent the 2006-2007 academic year at the Harvard School of Public Health as the Yerby Visiting Professor. From 2008-2012, he served as founding dean of the School of Public Health at the City University of New York. In this capacity, he integrated four programs in the CUNY system to create a system-wide School of Public Health, recruited faculty and staff, got the school a five-year accreditation, and transitioned the school to a new campus in East Harlem.

Ken has published extensively in peer-reviewed literature, chaired or co-chaired numerous national and international meetings, and has been an invited speaker at more than 250 symposia. He has been the recipient of a long list of honors and awards including the Presidential (William J. Clinton) Distinguished Executive Rank Award; the Presidential (William J. Clinton) Meritorious Rank Award; the Toxicology Forum Distinguished Fellow Award; and the HHS Secretary's Distinguished Service Award, among many others. In 2012, he received the Cato T. Laurencin Lifetime Research Award from the National Medical Association. In 2015, Dr. Olden was awarded the Sackler Prize by 'Research America' in recognition for sustained leadership in prompting Community-Based Participatory Research. And he was elected to the National Academy of Medicine of the U.S. National Academy of Sciences in 1994.

## Elijah Anderson

*Exploring inequality in urban America*

One of the nation's most influential scholars in the field of urban inequality, Elijah Anderson is the Sterling Professor of Sociology and of African American Studies at Yale University. He is considered by his peers as a prolific and groundbreaking ethnographer of urban life. He is the author of the classic sociological work "A Place on the Corner: A Study of Black Street Corner Men" (1978; 2nd edition 2003). His most recent ethnographic work, "The Cosmopolitan Canopy: Race and Civility in Everyday Life," was published by WW Norton in 2011.

His publication "Code of the Street: Decency, Violence, and the Moral Life of the Inner City" (1999) won the Komarovsky Award from the Eastern Sociological Society and "Streetwise: Race, Class, and Change in an Urban Community" (1990) was recognized with the American Sociological Association's Robert E. Park Award for the best published book in the area of Urban Sociology.

Professor Anderson is the recipient of numerous prestigious awards, including the 2013 Cox-Johnson-Frazier Award, the 2017 Merit Award from the Eastern Sociological Society, the 2018 W.E.B. DuBois Career of Distinguished Scholarship Award and the 2021 Robert and Helen Lynd Award for Lifetime Achievement from the American Sociological Association.

He has served on the boards of the American Academy of Political and Social Science and is a former vice-president of the American Sociological Association. He has also served as a consultant to a variety of government agencies, including the White House, the United States Congress, the National Academy of Science and the National Science Foundation. Additionally, he was a member of the National Research Council's Panel on the Understanding and Control of Violent Behavior.

Before joining the Yale faculty in July 2007, Professor Anderson served for many years as the Charles and William L. Day Distinguished Professor of the Social Sciences and professor of Sociology at the University of Pennsylvania, with a secondary appointment in the Wharton School. Previously, he worked as an assistant professor at Swarthmore College. He has also served as a visiting professor at Princeton University and Ecole des Etudes Hautes en Science Sociales in Paris, France.

Professor Anderson received his bachelor's degree from Indiana University, his master's from the University of Chicago and his doctorate from Northwestern University, where he was a Ford Foundation Fellow.

For his scholarly work in exposing and redressing urban inequality, Drexel University is proud to present Elijah Anderson with the degree of Doctor of Humane Letters, *honoris causa*. ❖

## Gail Walker Hearn, PhD

*A pioneer in the field of conservation learning and research*

Gail Walker Hearn, PhD, is a renowned conservation biologist who retired from her position as professor of biology at Drexel University in 2014. As founding director of the Bioko Biodiversity Protection Program (BBPP), Dr. Hearn championed solutions for the benefit of people and nature, leaving an indelible mark on the field of conservation. What

began as a study abroad program transformed under her leadership into a robust academic partnership between Drexel and the National University of Equatorial Guinea that enabled many firsts for the Equatoguinean institution, including its first international academic partnership, biological research station and degree program in environmental sciences.

Home to an impressive array of wildlife, Bioko Island, Equatorial Guinea is one of the planet's most biologically significant places. Over three decades, Dr. Hearn has worked to cultivate the appreciation and preservation of Bioko Island's wildlife and natural ecosystems through education, research and active conservation. Her legacy continues today: Nearly all Equatoguinean environmental scientists have trained with BBPP; the organization continues to provide opportunities for environmental leaders to hone their skills; and BBPP employs around 80 local people annually. In areas where BBPP is active in monitoring and patrolling, a primate is seven times less likely to encounter one of its greatest threats: a hunter.

Dr. Hearn's work was featured in a seven-part series in *The Philadelphia Inquirer* in 2005 and a 22-page feature article in *National Geographic Magazine* in 2008. It resulted in the recognition of more than a dozen new species, and led the first Equatoguinean to be awarded a doctorate in environmental sciences.

Educated at Bryn Mawr College and Rockefeller University, Dr. Hearn previously taught at Bryn Mawr College and Arcadia University. In addition to her work in biodiversity conservation, she is co-author of the groundbreaking textbook, "Writing Across the Curriculum," and has served as a board member of Williams College, Germantown Savings Bank, Wistar Institute, The Academy of Natural Sciences, Pennsylvania Hospital, First Hospital Foundation and Penn Medicine.

For her dedication to conservation and the environmental sciences, Drexel University is proud to present Gail Hearn the degree of Doctor of Humane Letters, *honoris causa*. ❖

## Daniel J. Hilferty

*Transformative health care leader*

As president and chief executive officer of Independence Health Group, parent of Independence Blue Cross, one of the nation's leading health insurers, Daniel J. Hilferty's vision for his company was to lead the transformation of health care in the region, seeking innovative technologies and new models of care that would increase the quality and lower

costs. During Mr. Hilferty's decade-long tenure as chief executive, the company tripled in size, serving 8 million people across the country.

Mr. Hilferty led the creation of the Independence Blue Cross Center for Innovation; launched Tandigm Health, a unique venture that arms primary care physicians with tools and data to better manage chronic conditions and deliver personalized care; and established Quil, a joint venture with Comcast NBCUniversal dedicated to revolutionizing the consumer experience in health care. He has built business collaborations with world-renowned institutions such as the University of Pennsylvania to foster innovation in health care and partnered with Blue Cross and Blue Shield plans and other leaders in health care to build dynamic health care companies, including AmeriHealth Caritas, one of the country's largest Medicaid managed care companies.

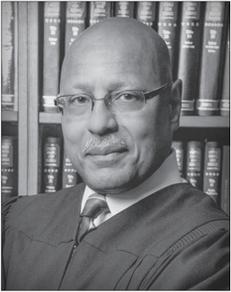

Retired from Independence Blue Cross, Mr. Hilferty is a sought-after speaker on leadership, transforming health care, and the role of technology and big data and has appeared in national media outlets. He is among a select group of nonpartisan health care leaders called upon by government leaders for advice on health care reform.

Mr. Hilferty is a director for Aqua America, where he is also the lead independent director, and for FS Investment Corporation III. In 2015, he served as cochair on the executive leadership cabinet of the World Meeting of Families, which brought Pope Francis to Philadelphia. He earned his undergraduate degree from St. Joseph's University and a master's in public administration from American University. He lives in the Philadelphia area with his wife, Joan. The couple has five children and three grandchildren.

For his dedication to expanding access and innovation in health care, Drexel University is proud to present Daniel J. Hilferty with the degree of Doctor of Humane Letters, *honoris causa*. ❖

## Honorable C. Darnell Jones, II

*Bringing independence to the judiciary*

Senior U.S. District Court Judge C. Darnell Jones, II has been a role model for fellow jurists since his election to the bench in Philadelphia on a slate of reform candidates recommended for their independence and qualifications. He received the Pennsylvania Bar Association's highest rating during a subsequent election bid and has taught extensively at the college

level and among his peers. He also served as president judge of the Philadelphia Court of Common Pleas, Pennsylvania's largest and busiest court system.

Since 2008, Judge Jones has served on the federal court based in Philadelphia, following his nomination by President George W. Bush. On several occasions, Judge Jones served by designation on the U.S. Court of Appeals for the Third Circuit. He also served a six-year term on the Committee on Criminal Law of the Judicial Conference of the United States, having been appointed by Chief Justice John G. Roberts Jr. in 2012. Among his other judicial responsibilities, Judge Jones presided over federal grand juries. During his 21-year tenure on the Philadelphia court, Judge Jones presided over numerous civil and criminal trials and served in many capacities, including three years as president judge from 2005 to 2008.

Before joining the bench, Judge Jones served as a trial attorney at the Defender Association of Philadelphia, and subsequently became chief of the Family Court Division for that organization. His undergraduate degree is from Southwestern College, and he received his law degree from The American University, Washington College of Law.

He has taught at the Saint Joseph's University's graduate school and the National Judicial College and serves as an adjunct professor of law at the University of Pennsylvania Carey Law School and as an adjunct professor of law at Temple University Beasley School of Law. He is a member of the University of Pennsylvania American Inn of Court and the Thomas R. Kline Law School American Inn of Court, where he is also a member of the law school advisory board.

For his many contributions to an independent judiciary, his service to the profession, and his legal acumen, Drexel University is proud to present C. Darnell Jones, II with the degree of Doctor of Laws, *honoris causa*. ❖

## Bill Marimow

*Journalist with 'a dead reckoning for truth'*

Over a storied journalism career, Bill Marimow, a two-time Pulitzer Prize winner, has led three news organizations — as editor-in-chief at The Philadelphia Inquirer and The Baltimore Sun, and as vice president of news at National Public Radio.

As a reporter for *The Philadelphia Inquirer*, Mr. Marimow received journalism's top

prize for public service in 1978 for stories he wrote with a colleague detailing criminal violence by Philadelphia police. His second Pulitzer Prize came in 1985, for his investigation of the Philadelphia police K-9 unit. Also that year, his reporting on the police bombing of the MOVE house in West Philadelphia — which led to the deaths of 11 people and destroyed a block of city homes — formed the backbone of the paper's Pulitzer entry, selected as a finalist in the general reporting category. Mr. Marimow also received two Silver Gavel Awards from the American Bar Association and two Robert F. Kennedy awards — the first, for his *Philadelphia Inquirer* coverage, and the second, for his work as NPR vice president of news. His former editor at *The Philadelphia Inquirer*, Eugene L. Roberts Jr., lauded Mr. Marimow for his "commitment, common sense, persistence, and a dead reckoning for truth."

Mr. Marimow's tenure as editor-in-chief of Philadelphia's paper of record spanned a decade, until 2017 — with one year off teaching at the Walter Cronkite School of Journalism and Mass Communication at Arizona State University. He is a 1969 graduate of Trinity College, from which he received an honorary doctorate. As a Nieman Fellow from 1982–1983, Mr. Marimow studied First Amendment law at Harvard Law School. At Drexel University's 2020 Commencement, Mr. Marimow delivered the keynote addresses, which can be viewed at [Drexel.edu/commencement/keynote-2020](https://drexel.edu/commencement/keynote-2020).

For his commitment to a free press and its central role in preserving democracy, Drexel University is proud to present Bill Marimow with the degree of Doctor of Humane Letters, *honoris causa*. ❖

## Frederica Massiah-Jackson

*Judicial pioneer in the Philadelphia Courts*

Over a judicial career spanning nearly four decades, Philadelphia Judge Frederica Massiah-Jackson achieved historic firsts as a woman of color, ushered in key reforms and expert management in Pennsylvania's largest court system, and was honored widely for her accomplishments.

Elected to the Philadelphia Court of Common Pleas in

1983, Judge Massiah-Jackson presided over medical malpractice and product liability cases, complex commercial litigation and personal injury matters. A graduate of Chestnut Hill College, she earned her law degree from the University of Pennsylvania and went into private practice with a large Philadelphia law firm. She also worked as chief counsel for the Pennsylvania Senate Insurance and Business Committee.

On the city courts, Judge Massiah-Jackson was the first African American woman to preside in civil jury trials. In 2001, she was elected the first African American president judge of any county in Pennsylvania. While guiding a court system with a \$110 million budget, 2,500 employees and 130 judges, Judge Massiah-Jackson enacted innovative management and advances in technology, expanded access to justice, and enhanced public perception of judges and the courts. She also increased pay rates for court-appointed counsel, signed a mitigation protocol for representation in death penalty cases, opened an information center, expanded judicial education initiatives, and implemented programs to promote race and gender fairness within the courts.

Judge Massiah-Jackson also was a lecturer at the Wharton School of the University of Pennsylvania from 1992 to 2002, and is one of several women whose contributions are highlighted in the 2020 book, "They Carried Us: The Social Impact of Philadelphia's Black Women Leaders." She received the 2010 NAACP's Cecil B. Moore Award, and was honored in a mural created by Philadelphia's Mural Arts program.

She sits on the board of the Center for Literacy, and is a member of the Forum of Executive Women. She is a member and past president of the Delaware Valley, Pa. Chapter of The Links, Inc. and is a member of Alpha Kappa Alpha Sorority. The Judge is the proud mother of Dr. Julia L. Jackson and Thomas H. Jackson, IV.

For her trailblazing leadership, activism and legal acumen, Drexel University is proud to present Frederica Massiah-Jackson with the degree of Doctor of Laws, *honoris causa*. ❖

## Evelyn and Jim Piazza

*In memory of their son, on a mission to end fraternity hazing*

Before Evelyn and Jim Piazza became two of the most prominent advocates for ending fraternity hazing on college campuses, they were parents of a 19-year-old son who had an infectious smile and a seemingly unlimited future. Then, tragedy struck.

With the death of their son, Timothy J. Piazza, a student at Pennsylvania State University who rushed a fraternity that boasted, falsely, of being alcohol- and hazing-free, the Piazzas made it their cause to spare other parents the same fate. As they wrote in an open letter to parents published a year after their son's death in 2017, "It is too late for Tim, but it is not too late for your son or daughter."

The Piazzas' campaign to raise awareness of the dangers from hazing led to demands for reform and legislation to ensure that colleges and university take steps to prevent hazing. It has taken the Piazzas to campuses all over the country, where they drive home the shocking details of how their son died on the night in February 2017. In Pennsylvania, the Piazzas successfully lobbied for the Timothy J. Piazza Anti-Hazing Law, signed into law by Gov. Tom Wolf in 2018. They created a foundation that gives prosthetic limbs and other medical equipment to children with disabilities, raising more than \$1 million in aid of more than 40 children, as well as providing \$10,000 in scholarships each year to students from their late son's high school. And at Penn State, university officials established the Timothy J. Piazza Center for Fraternity and Sorority Research and Reform, a national Greek life research center funded by \$2 million in seed money from the university.

As half of this dynamic couple, Evelyn Piazza is a graduate of Fairleigh Dickinson University with an undergraduate degree in accounting and a master's in taxation. After working as a certified public accountant (CPA) for several years, Evelyn chose to stay at home with their two boys, Michael and Tim, and was active in all of her children's activities and sports. As the boys got older, Evelyn worked as a part-time tax accountant for a small tax practice in Princeton, N.J. and was working regularly until she got the phone call about Tim's fatal injuries from being hazed.

## Allen Sabinson

*Westphal College dean, three decades in show business*

*Evelyn and Jim Piazza continued*

Since Tim's death, Evelyn has been lobbying for laws on a federal and state level and appearing on national news programs to comment on hazing. She is primarily a speaker now on the dangers and ramifications of hazing, and has travelled across the country addressing universities and Greek life organizations, speaking to well over 100,000 students and advisors since 2018. She, along with Jim and several other parents who lost children to hazing, is committed to changing how hazing is perceived as acceptable behavior and is doing everything in her power to shift the conversation and treatment of hazing by individuals, schools, law enforcement and legislators.

Evelyn's husband, Jim Piazza, is a CPA and tax partner at a global professional services firm serving large corporate clients in various industries. He received his undergraduate degree in accounting from Rider University. Since Tim Piazza's death, Jim has become an active anti-hazing advocate with his wife. He was one of the founding members of Parents United to Stop Hazing (PUSH) and the Anti-Hazing Coalition (AHC), and has spoken on national TV and radio discussing his son's story and the anti-hazing initiative. Like Evelyn, Jim is also a regular speaker on the topic of hazing prevention at universities, fraternities and sororities.

For their activism and determination to safeguard students from the dangers of fraternity hazing, Drexel University is proud to present Evelyn Piazza and Jim Piazza each with the degree of Doctor of Humane Letters, *honoris causa*. ❖

After a show business career spanning three decades, Allen Sabinson was Drexel University's longest serving dean, leading the Antoinette Westphal College of Media Arts & Design through a period that saw the College substantially grow its enrollment, majors and national rankings, as well as open its award-winning home, the URBN Center and

URBN Annex.

During nearly 15 years at Westphal, Mr. Sabinson fostered a culture devoted to students that placed great value on collaboration, respect, passion for Westphal's disciplines, hard work and forward-thinking. He boosted the faculty ranks from 89 to 127, drawing heavily upon individuals with notable industry and academic experience. With its enrollment up by 25 percent — to nearly 2,400 students — Westphal achieved national rankings for 15 programs, including top recognition for the Game Design, Fashion Design, Interior Design and Music Industry programs and for the college as a Top Applied Design and Art School. The College also has gained kudos for the Robert and Penny Fox Historic Costume Collection and the Leonard Pearlstein Gallery.

During his entertainment industry career, Mr. Sabinson was president of production at Miramax Film, and held senior positions at A&E, TNT, ABC, ICM, NBC and Showtime. While he was senior vice president of programming at A&E, the network received more Emmy nominations than any basic cable network for two consecutive years and won Emmy awards for the best mini-series for *Horatio Hornblower* and best non-fiction series for biography.

Sabinson was responsible for all creative and business supervision of A&E's television productions, and commissioned such films as *Dash and Lilly*, a biography of Dashiell Hammett that received eight Emmy nominations; and *The Crossing*, a Peabody Award winner. He also commissioned numerous A&E documentary specials and concert specials with Billy Joel, Sting, Willie Nelson, Neil Diamond and Elton John.

For his dedication to excellence and innovation in media and design education, Drexel University is proud to present Allen Sabinson with the degree of Doctor of Humane Letters, *honoris causa*. ❖

## Anne Stevens '80

*Global engineering executive for automotive, aerospace, IT*

Anne Stevens is a seasoned corporate governance leader with a successful track record spanning more than three decades with some of the world's leading corporations from the Fortune 50 and FTSE 100, as well as mid-capital and private companies.

In January 2018, Anne became chief executive officer of GKN, a global engineering company based in London with annual revenues over \$10 billion and more than 58,000 employees across 30 countries, supplying components and systems to the automotive and aerospace sectors. Previously, Anne had joined SA IT Services as an equity partner in 2010, and served as chairman and chief executive officer for four years for the majority woman-owned business, which provides managed technical services here and abroad. She also served from 2006 to 2009 as chairman and chief executive officer of Carpenter Technology, a \$2 billion specialty metals producer, where she developed a strategy for growth, improved all aspects of operational performance and achieved record sales, operating income and operating margins.

Anne retired from Ford Motor Company in 2006 as chief operating officer of the America, where she was responsible for systems re-engineering including product development, 68 manufacturing sites and purchasing. At the time, Anne was the highest-ranking woman in the automotive industry and was recognized four times on Fortune's Most Powerful Women list. Prior to this role, she served as group vice president of Canada, Mexico and South America. And, from 1980 through 1990, Anne held various engineering, manufacturing, and marketing positions with Exxon Mobil Corporation.

In addition to being recognized by Fortune, Anne has received numerous awards and recognitions, including election to the National Academy of Engineering, and being named to Motor Trend "Power List of 50 most influential people in the car business." She currently serves on the board of directors of Anglo American, plc., Aston Martin and Harbour Energy PLC. Previously, Anne was on the Board of Directors of Lockheed Martin Corporation, XL Catlin Group, PLC. and GKN PLC.

Anne graduated magna cum laude from Drexel with a bachelor's degree in Materials and Mechanical Engineering and did doctoral-level graduate work at Rutgers University while studying with the renowned Dr. W. E. Deming.

For her stellar career in engineering and corporate leadership, Drexel University is proud to present Anne Stevens with the degree of Doctor of Engineering, *honoris causa*. ❖

## Drew Weissman

*Transformative health care leader*

As a professor of medicine at the Perelman School of Medicine at the University of Pennsylvania, Drew Weissman, MD, PhD, is best known for his work with RNA biology that laid the groundwork with Katalin Karikò for the mRNA vaccines for COVID-19 developed by Pfizer/BioNTech and Moderna.

Dr. Weissman's research focuses on the study of RNA and innate immune system biology and the application of these findings to vaccine research, therapeutics, and gene therapy. His lab is developing many vaccines for pathogens, including malaria, norovirus, influenza, C. difficile, HSV2, HIV, HCV, as well as vaccines for potential future pandemics, universal influenza and pancoronavirus. His lab also develops mRNA delivery of proteins, including genetically deficient, therapeutic, and monoclonal antibodies. In newer studies, his lab has developed new technologies to deliver mRNA-LNPs to specific cell types with simple in vivo injection. The cells and organs targeted thus far include lung, heart, brain, CD4+ cells, T cells, and bone marrow stem cells. New therapies are being developed to treat genetic and other disorders in vivo, which has the potential to change and simplify such therapies and allow worldwide use for diseases such as sickle cell anemia.

Dr. Weissman received his bachelor's and master's degrees from Brandeis University and his medical degree and doctorate from the Boston University School of Medicine. He did his residency at Beth Israel Medical Center in Boston and a fellowship at the National Institutes of Health. He is widely published and holds memberships in the American Federation for Clinical Research, the Association of American Physicians, and the American Association of Immunologists.

For his contributions to advancing world public health as a physician-scientist, Drexel is proud to confer upon Dr. Drew Weissman the degree of Doctor of Science, *honoris causa*. ❖

## HISTORY of DREXEL UNIVERSITY

In the closing decades of the 19th century, Philadelphia financier and philanthropist Anthony J. Drexel envisioned an institution of higher learning uniquely suited to the needs of a rapidly growing industrial society and of the young men and women seeking their place in it. In 1891, he realized his vision with the establishment of the Drexel Institute of Art, Science and Industry.

In founding the Institute, Anthony J. Drexel launched a tradition of innovation, which today is carried on by Drexel University. Although distinguished by more than 125 years of growth and change from Mr. Drexel's Institute of Art, Science and Industry, the University remains faithful to his vision. Its greatly expanded enrollment, campuses and curriculum reflect a history of responsiveness to societal and individual needs, which Mr. Drexel sought to address in his day.

Originally a non-degree-granting institution, Drexel began conferring the Bachelor of Science degree in 1914, when its 18 departments were organized into four schools. In 1927, the Commonwealth of Pennsylvania granted Drexel the privilege to confer the Master of Science degree, and in 1965, the doctor of philosophy degree. Drexel has undergone two changes in name, in 1936 becoming Drexel Institute of Technology and in 1970, Drexel University. The current name reflects the institution's commitment to research, as well as the breadth of its graduate programs.

Since its founding, Drexel has remained a privately controlled, non-sectarian, coeducational center of higher learning, distinguished by a commitment to preparing men and women for success in their chosen careers. The cornerstone of this career preparation is the University's cooperative education program, which provides students with alternate periods of study and full-time professional employment related to their academic and career interests. Launched in 1919, Drexel's co-op program was among the first in the nation, and today it is one of the largest and most diverse, placing students nationally and globally as well as in unique research and entrepreneurial opportunities.

In addition to its career focus, another constant element in Drexel's identity has been its commitment to providing technological expertise for society's needs. This commitment kept the institution operating around the clock during World War II to serve more than 3,000 visiting participants in the Engineering Defense Training Program. Following the war, rapid expansion of knowledge and the nation's drive for technological preeminence continued to be a source of growth for the University.

In 1983, Drexel became the nation's first university to require all undergraduates to have personal access to a microcomputer for use in all of their coursework. Drexel also was the nation's first major university to operate a fully wireless campus.

Today, Drexel continues to build upon strengths in the fields of science and engineering, preparing professionals for leadership in our global technological community through studies in a broad range of disciplines. It houses impressive resources for teaching and research, as well as facilities to serve a large and growing population of residential students.

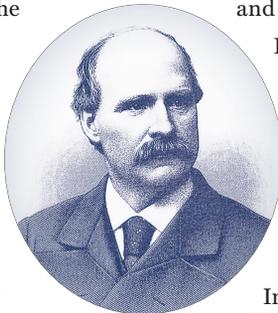

In 2002, Drexel's mission, services and opportunities expanded further when MCP Hahnemann University, a major Philadelphia health sciences institution, became Drexel University College of Medicine, as well as Drexel's College of Nursing and Health Professions and the Dana and David Dornsife School of Public Health. This historic relationship led to many productive synergies in teaching and research.

In 2006, Drexel became the first major research university in 25 years to open a new law school. The School of Law achieved American Bar Association accreditation in 2011 and is one of only two law schools to follow a co-operative model. In 2014, the school was named for Philadelphia attorney Thomas R. Kline, a nationally renowned trial litigator, in recognition of his landmark gift.

In 2011, the University announced a groundbreaking affiliation with the Academy of Natural Sciences of Philadelphia, the nation's oldest major natural history museum and a world leader in natural sciences research. The move has opened new opportunities for teaching, research and community education for both institutions.

Drexel's commitment to finding innovative ways to bring its unique brand of education to students everywhere resulted in the establishment of distance learning through Drexel University Online in 2002. And Drexel became the first university with a freestanding, degree-granting entrepreneurship school when it launched the Charles D. Close School of Entrepreneurship in 2013.

Drexel University enrolls more than 24,000 full- and part-time students in programs leading to associate's, bachelor's, master's, doctoral and professional degrees including MD and JD. The University's record of success to date promises an auspicious future and testifies to the genius of Anthony J. Drexel's vision, which has shaped the growth of the institution since its inception.

Drexel University sits on the traditional land of The Lenape Nation of Pennsylvania.
