2022 Drexel University
135th Commencement Ceremonies
Philadelphia, Pennsylvania
Dear Graduates,

The path to this momentous day has been challenging and difficult. This year’s class navigated many unforeseen circumstances during one of the most tumultuous times in our history.

Through it all you have displayed tremendous resilience, grit and character. For your amazing accomplishments, I extend my heartfelt congratulations to each member of the 2022 graduating class.

The pandemic, the national reckoning over racial injustice and the outbreak of war in Europe have all underscored the value of education and research and the importance of global engagement. Through your civic engagement, many of you already have demonstrated your passion for serving others. Now you will be called upon to deploy the critical-thinking skills you acquired and sharpened at Drexel toward solving the many pressing challenges confronting society.

As your journey continues, the relationships you formed with your classmates and our faculty and professional staff will remain a source of strength and support. As graduates, you also will derive lifelong benefits from belonging to a global network of more than 150,000 Drexel alumni who are always there for one another.

On behalf of the trustees, faculty and professional staff of Drexel University, I applaud your accomplishments and wish you all the joys of lifelong learning, service and fulfillment of your dreams.

Sincerely,

John Fry
President

_Teaching the public about biological sciences_

As chief bioscientist and director of science content at the Franklin Institute, Jayatri Das helps us understand ourselves. How do our brains work? How do our neighborhoods affect our health? How will new technologies change our future? More importantly, she brings us all into the conversation.

Ms. Das has led the development of several exhibitions at the Institute — including *Your Brain*, a national award-winning exhibit about the neuroscience and psychology of the human brain — and directs programming initiatives to advance informal science education about materials science, nanotechnology, neuroethics and other areas of emerging science and their societal impact.

An adviser to the National Informal STEM Education (NISE) Network, she contributed to the book, "Museum Education for Today’s Audiences," which was published in early 2022.

After earning her undergraduate degrees in biology and biochemistry from Penn State University, Ms. Das received her PhD in evolutionary biology from Princeton University. She is an invited fellow of the Center for Neuroscience & Society at the University of Pennsylvania. Her work in the museum field has been honored with the American Alliance of Museums’ Nancy Hanks Award for Professional Excellence.

Raphael C. Lee, MSBmE ’75, MD, ScD, FACS
Surgeon and research scientist pioneering treatment for traumatic injuries

Raphael Lee is the Paul and Allene Russell Distinguished Service Professor of Surgery and Medicine at the Pritzker School of Medicine at the University of Chicago, where he is a fellow in the Institute for Molecular Engineering and directs the Laboratory for Molecular Regeneration.

Internationally known for advancing our understanding of the molecular biomechanics of electrical shock, ionizing irradiation, thermal trauma and other injuries, Dr. Lee is among the nation's most esteemed plastic surgeons, recognized for devising functional reconstructive surgery methods.

In 1992, Dr. Lee's laboratory reported a clinically applicable method to seal disrupted cell membranes using amphiphilic copolymers with the capacity to preserve tissue viability following injuries such as burns and military trauma. Most recently, his block copolymer research has been extended to formulation of synthetic chaperones that have important implications for tissue preservation. Therapeutics developed through Dr. Lee's research gave rise to three biotechnology companies.

Dr. Lee has been named a MacArthur Prize Fellow, an American College of Surgeons Schering Scholar, a Searle Scholar and a Bucksbaum Institute Senior Clinical Scholar. In addition, he received the James Barrett Brown Award from the American Association of Plastic Surgeons, the American Electrical Power Association Award for "Advancing Electrical Safety and Health" and the American Institute for Medical and Biological Engineering's Pierre Galletti Award for advancing the field of biomedical engineering.

He has been elected to the American Academy of Arts and Sciences, the National Academy of Engineering and the International Academy of Medical and Biological Engineering.

On the global stage, Dr. Lee led a World Health Organization subcommittee tasked with assessing the impact of the Chernobyl nuclear disaster in Belarus and received a "Key to the City" award from Shanghai for facilitating the development of a national center for treating electrical injuries. Dr. Lee now serves on an American College of Surgeons committee that is advancing surgical training in developing nations.

A trustee of Drexel, Dr. Lee received his MS in biomedical engineering and science from the University's School of Biomedical Engineering, Science and Health Systems and his MD from Temple University Medical School. He received his ScD from MIT.

*Elevating corporate leadership*

Born in a small village in Uttar Pradesh, India, Raj Gupta came to the United States in 1968 with just $8 in his pocket to begin his graduate studies in operations research and computer science at Cornell University. He went on to build a 39-year career at the global Fortune 500 specialty materials company Rohm and Haas, where he retired as chairman and CEO in 2009.

Over the course of his career, Mr. Gupta has served as a director at 15 public companies across numerous industries, including Hewlett Packard, DuPont, Arconic/Howmet, Airgas and Tyco. He also held long-term board chair positions at Aptiv PLC (formerly Delphi Automotive) and Avantor, both Fortune 500 companies. In addition, he has served on the boards of six private companies, including Vanguard Group, IRI, Stroz Friedberg, and Aceto. Mr. Gupta received a BTech in Mechanical Engineering, with honors, from the Indian Institute of Technology Bombay, followed by an MS in operations research and computer science from Cornell and an MBA in finance from Drexel University.

After retiring from the Rohm and Haas Company, Mr. Gupta and his wife Kamla established the Ujala Foundation (which means “light” in Hindi), focusing on education and health care in India and the U.S. Since its inception, the Ujala Foundation has provided support for the Raj & Kamla Gupta Governance Institute at Drexel’s LeBow College of Business, to advocate improved governance practices for public, private and nonprofit organizations. The foundation has also contributed to an endowed professorship at Johns Hopkins University, where Mr. Gupta co-chairs the Board of Advisors for the Gupta-Klinsky India Institute. In addition, the foundation supports fellowships at LeBow and at Cornell’s School of Biomedical Engineering, among myriad causes. Local beneficiaries of the foundation include the Philadelphia Zoo, the Philadelphia Museum of Art and the Franklin Institute.

Splitting their time between suburban Philadelphia and Bonita Springs, Florida, Mr. and Mrs. Gupta have two daughters and three grandsons. Family has always been a central source of strength for Mr. Gupta, who describes his remarkable personal and professional journey in the book, “Eight Dollars and a Dream: My American Journey,” which he wrote with Syd Havely and published in 2016.

Executive leadership in health care
As the senior vice president and chief operating officer of the Care Network at the Children's Hospital of Philadelphia (CHOP), Ms. Hawthorne provides operational and strategic leadership for the hospital's primary care network, urgent and specialty care centers and hospital affiliates. Over the course of a career spanning more than 20 years, Ms. Hawthorne has overseen hospital operations, information services, revenue cycle and project management. She is also an expert in strategic planning, comprehensive business plan development, complex information technology projects, budget management and staff and leadership development.

Prior to her current role, Ms. Hawthorne served as CHOP’s senior vice president and chief information officer for seven years. In that capacity, she was responsible for strategic leadership of the Information Services Department, managing a $50 million capital budget, a portfolio of more than 90 large and mid-size projects, and 550 full-time staff members, ensuring organizational information security and protection of patient and family health data.

Ms. Hawthorne serves on numerous strategic CHOP committees, including Growth, Patient Family Experience, Medical Ethics and Patient Safety. For 10 years, she served as an executive sponsor for the Multicultural Professionals Network, one of CHOP's key employee resource groups. Ms. Hawthorne is often a guest speaker for CHOP programs and symposia as well as many external professional, educational and civic organizations. Her recent professional engagements include serving as a mentor for the NextGen Leader program and participating in Divurgent Consulting's Women in Tech panel and a University City Science Center Smart Talk: “The Future is MedTech: Why Philly’s in the Driver's Seat.”

Ms. Hawthorne earned a PhD in Information Studies from Drexel University's College of Computing & Informatics (CCI). She is a graduate of Florida A&M University, the University of Minnesota and St. Thomas University in St. Paul, Minnesota. She currently serves on Drexel's CCI Dean's Executive Advisory Council and the University City Science Center Board.

*Advancing teacher diversity and educational excellence*

The founder and CEO of the Center for Black Educator Development, Sharif El-Mekki is an accomplished educator who is pioneering new approaches to diversifying the teaching profession. Since establishing the center in 2019, Mr. El-Mekki has promoted equity in the recruiting, training, hiring and retention of talented educators whose cultural backgrounds resemble those of the students they serve and who share their sociopolitical interests. The center is developing a four-pillar model for increasing teacher diversity and supporting Black educators so that low-income Black students and other disenfranchised learners can reap the full benefits of a high-quality public education.

The center has also launched Freedom Schools that are inspired by a model inaugurated by the Student Nonviolent Coordinating Committee during the 1960s and that incorporates a research-driven curriculum. The schools are designed to expose high school and college students to the teaching profession to help fuel a pipeline of Black educators.

Mr. El-Mekki gained national recognition for demonstrating exceptional leadership at Mastery Charter Schools. Under his guidance, Mastery Charter Shoemaker received acclaim from President Barack Obama as well as author and philanthropist Oprah Winfrey. The school was awarded the prestigious EPIC award for three consecutive years as one of the top three schools in the country for accelerating student achievement. The Shoemaker Campus was also recognized as a Top 10 middle school and a Top 10 high school in Pennsylvania for advancing the achievements of Black students.

He was named a U.S. Department of Education Principal Ambassador Fellow and America Achieves Fellow in 2013. In addition, he received citations from the Pennsylvania Senate and House of Representatives.

In 2014, Mr. El-Mekki founded The Fellowship – Black Male Educators for Social Justice, an organization dedicated to recruiting, retaining and developing Black male teachers.

A native of Philadelphia, Mr. El-Mekki attended Overbrook High School and received a BA from Indiana University of Pennsylvania and an MA from Cheyney University.

Planetary protector with NASA

Moogega “Moo” Cooper bears responsibility for keeping the red planet safe from the Earth’s microbial contaminants. Ms. Cooper was the planetary protection lead for the famed NASA 2020 Mars mission, which made its widely viewed landing on Feb. 18, 2021. Her work with NASA’s Jet Propulsion Laboratory is integral to ongoing efforts to discern whether Mars could be habitable for humans and how to avoid harming the planet — a job for which she has been preparing most of her life.

Ms. Cooper studied physics as an undergraduate at Hampton University in Hampton, Virginia. She then earned a master’s and PhD in mechanical engineering at Drexel, as a protégée of Professor Alexander Fridman, the John A. Nyheim Chair Professor in the College of Engineering. Concentrating in thermal fluid sciences, she had completed her PhD at age 24. She went on to complete a postdoctoral scholarship in the Jet Propulsion Laboratory at Caltech in 2011.

Passionate about introducing more people to the wonders of science, technology, engineering, arts and mathematics — or STEAM, Ms. Cooper talks about her work to a wide range of audiences. She has made numerous appearances on programs like “Because Space” and “Bill Nye Saves the World.”

Ms. Cooper is a recipient of numerous awards, including the NASA Early Career Public Achievement Medal, the Charles Elachi Award for Exceptional Early Career Achievement and JPL Voyager Awards for Technical Leadership.

Paul Melchiorre is an operating partner at Stripes, a global growth investors' team based in New York City and focusing on SaaS portfolio companies, specifically assessing and advising on go-to-market strategies. Currently, Mr. Melchiorre is an independent director at R3, an enterprise blockchain technology company. Previously, he served as an independent director at Scout RFP, a sourcing and procurement software company that was acquired by Workday.

Mr. Melchiorre has also served as global customer officer and chief revenue officer at Anaplan, a leading SaaS platform to facilitate financial planning and management, where he contributed to a successful IPO in 2018 and saw the company grow from $80 million to more than $300 million in annual recurring revenue and to a market cap exceeding $7 billion.

Before joining Anaplan, he served as global vice president at Ariba, where he joined as the first outside executive in 1998 and built the field organization for sales, implementation, service, alliances and channels, ultimately leading to a sale to SAP for approximately $5 billion in 2012. Earlier in his career, Mr. Melchiorre played a key role in SAP’s rise to a global leader in enterprise software. At SAP, he rose through the ranks to become executive vice president of Global Accounts, where his group was responsible for over 85 percent of revenue in the Americas Division and a field organization of more than 1,000 employees.

Mr. Melchiorre received his MBA from the LeBow College of Business and his BS in Marketing from Villanova University. He is a member of the Charles D. Close School Advisory Board and serves on the President’s Leadership Council at Drexel.

Collin Cavote ’15

Entrepreneur advancing a sustainability mission

Collin Cavote is the founder and CEO of Biome, a venture-backed health-tech company that combines biology and technology to optimize the health of indoor spaces.

Headquartered in Oakland, California, Biome grew from Mr. Cavote’s determination to bring nature into urban communities and to build a company that tackles environmental degradation. Biome produces smart modular devices incorporating living plants that purify the air in a home or office.

The invention originated when Mr. Cavote was a student in Drexel’s Pennoni Honors College, where he drew inspiration from the biowall in the Papadakis Integrated Sciences Building, the largest living biofilter in North America. He completed a custom-designed degree in biomimicry, harnessing the power of natural processes to solve problems, after seeking and obtaining approval for a curriculum that combined courses in biology, product design and entrepreneurship. During his studies, he completed a co-op through the Close School of Entrepreneurship and received funding to help launch his company at the Baiada Institute for Entrepreneurship.

It was the second time as an honors student for Mr. Cavote, who dropped out of an honors business program at another institution before spending time working on farms, traveling by train and foraging for food in pursuit of a carbon-neutral lifestyle. He returned to Philadelphia, drawn to the autonomy and interdisciplinary thinking that Drexel encourages.

In 2014-15, Mr. Cavote was selected as a Udall Congressional Fellow for leadership in sustainable urban resiliency and generating positive human health outcomes.

His company is positioning itself to produce carbon offsets for sale to carbon markets.

RICHELLE PARHAM ’91
Savvy global marketing strategist

Richelle Parham is the president of global e-commerce and business development at Universal Music Group, the world leader in music-based entertainment. Overseeing e-commerce strategy and business development across the company’s iconic labels, publishing company, operating units and territories, Ms. Parham leverages 25 years of experience in global strategy, consumer marketing, audience growth and business development to elevate artists and advance a holistic fan-centric ecosystem that complements partner platforms.

From 2019 to 2021, she served as a managing director at WestRiver Group, which provides integrated capital solutions to the global innovation economy with investments focused on technology, life sciences, energy and the experiential sector.

She was previously a general partner of Camden Partners, a private equity firm focused on investing in growth-stage global consumer companies.

In a prior role, she served as chief marketing officer of eBay, where she developed and executed brand strategy, marketing and customer relations activities to reach more than 180 million active users. Before joining eBay, Ms. Parham headed global marketing innovation and initiatives as well as marketing services at Visa Inc. and held senior leadership roles at Digitas, a global marketing agency.

Ms. Parham has garnered widespread recognition, including being named one of the 50 Most Influential CMOs in the World by Forbes, among the Most Creative People in Business 1000 by Fast Company, one of the Most Influential Women in Corporate America and Most Influential Black Corporate Directors by Savoy magazine and appearing on the Power in the Boardroom list published by Black Enterprise. She also received the Women of Influence award by the Silicon Valley/San Jose Business Journal, while being inducted into the World Association for Cooperative Education Co-op Hall of Fame.

Ms. Parham earned a bachelor of science degree in business administration at the Bennett S. LeBow College of Business — then called the College of Business and Administration — and a bachelor of science in design arts from the Antoinette Westphal College of Media Arts & Design — then known as the Nesbitt College of Design Arts. She joined the Drexel University Board of Trustees in 2014.

*Fighting food insecurity*

Melanie Cataldi is a committed leader and collaborator for social justice who filled a variety of roles at Philabundance, the premier anti-hunger organization serving Southeastern Pennsylvania and New Jersey, for more than 21 years.

Starting in 2000, Ms. Cataldi founded the Philabundance Community Kitchen (PCK), a culinary arts workforce development training and employment program for adults who qualify for public assistance. By achieving an employment rate of 80% and a retention rate of 70% after two years, PCK became known as a national leader in workforce development services. As participants integrate life and job-readiness skills with culinary training, they also provide hundreds of thousands of nutritious meals a year for the community. In 2020, Philabundance opened a state-of-the-art 20,000-square-foot commissary kitchen facility in North Philadelphia to expand training and meal services to our communities, including 70,000 emergency meals for recent Afghan evacuees.

Expanding her role as the chief operations officer, Ms. Cataldi oversaw Philabundance logistics and programs, including warehousing and transportation, as well as all community food programs. Through a network of more than 350 agency partners in nine counties, Philabundance grew food distribution from 27 million pounds to 57 million pounds annually during 2020 and the pandemic crisis.

Motivated by a strong desire to expand the mission to include longer-term solutions to food insecurity, and in her most recent role as chief impact officer, Ms. Cataldi helped create the Philabundance Impact Department, aligning cross-sector partnerships with housing, health care and education initiatives to form a more holistic approach to ending hunger. In seeking measurable long-term outcomes, Ms. Cataldi also helped create a new Evaluation Department whose focus is to help Philabundance develop a learning culture and make data-driven decisions across all departments.

Having recently left her post at Philabundance, Ms. Cataldi looks forward to broadening the scope of her work at the intersection of public and private sectors aligning with population health.

She received a bachelor of science in Nutrition & Food Science from Drexel University and a master of public health from Temple University.

*Professional development leader and educator*
Craig Loundas is the associate vice president for the Penn Medicine Experience at Penn Medicine, the academic medical center of the University of Pennsylvania. Featuring six hospitals, over 450 ambulatory practice sites and home care/hospice services, Penn Medicine is a Top 10 ranked academic medical center with more than 40,000 faculty and staff and $8.2 billion in revenues.

Mr. Loundas oversees development of staff and administrative leadership, performance management and organizational effectiveness initiatives that affect the patient experience.

Earlier in his career, Mr. Loundas worked in the energy sector, serving as a change practice leader in marketing at Sunoco. There, he focused on talent development and system integration in their Midwest and Southeast market acquisitions. As a principal management development consultant with Exelon Nuclear, he provided strategic talent management, succession planning and executive coaching in Pennsylvania and New Jersey.

Before entering the field of organizational development, Mr. Loundas provided leadership in the academic sphere, serving as associate dean and dean of students at Widener University in Chester, Pennsylvania and earlier as director of residence life at St. Mary's College of Maryland. He served in a variety of professional organization leadership roles, including president of the Mid-Atlantic Association of College and University Housing officers.

Mr. Loundas is a certified facilitator for Crucial Conversations, Meyers Briggs Type Indicator, Development Dimensions International and Denison Organizational Culture tools. He has presented nationally at Press Ganey, Next Generation Patient Experience, University Healthcare Consortium, the American Society for Training and Development and the National Center for Healthcare Leadership.

He received a PhD in adult and organizational development from Temple University, where his dissertation explored the impact of active learning techniques on class involvement, satisfaction and achievement. A member of the adjunct faculty in Drexel's Goodwin College of Professional Studies, he teaches Career and Professional Development and Professional Applications of Emotional Intelligence.

Keynote Speaker:
SALEEM CHAPMAN
Advancing equity amidst climate change
Saleem Chapman became Philadelphia’s inaugural chief resilience officer in September 2020. In this role, Mr. Chapman oversees the city’s preparedness for the unprecedented challenge of the climate crisis. He also ensures that the city is making progress toward goals laid out by Mayor Jim Kenney’s administration to create a more resilient, equitable city for current and future residents.

As deputy director of the city’s Office of Sustainability, Mr. Chapman also works with the Environmental Justice Advisory Commission that was formed in February 2022 to engage citizens who live in vulnerable neighborhoods. The city established an Interagency Working Group on Environmental Justice to collaborate with the commission in promoting practices, programs and policies to advance equitable outcomes.

Before joining the City of Philadelphia, Mr. Chapman served as a campaign manager with Penn Future and as a policy and advocacy manager with the Sustainable Business Network of Greater Philadelphia. In these roles, he amassed an array of experience in urban policy analysis and advancing environmental justice and sustainable economic development.

Mr. Chapman is a native of West Philadelphia who received his BS and MPA degrees from Penn State University.
Freeman A. Hrabowski III

Forging New Pathways in Higher Education

Nationally recognized as a transformative leader in higher education, Freeman A. Hrabowski III, has served as president of the University of Maryland, Baltimore County (UMBC) since 1992. His research and publications on science and math education have identified numerous pathways for improving minority participation and performance. He chaired the National Academies’ committee that produced the 2011 report, “Expanding Underrepresented Minority Participation: America’s Science and Technology Talent at the Crossroads.” In 2012, President Obama named him to chair the President’s Advisory Commission on Educational Excellence for African Americans.

The Meyerhoff Scholars Program, which he co-founded with philanthropist Robert Meyerhoff in 1988, is recognized as a national model for advancing high-achieving students interested in pursuing advanced degrees and research careers in science and engineering and also advocating for underrepresented minorities in these fields. Mr. Hrabowski has authored numerous articles and co-authored two books published by Oxford University Press, “Beating the Odds” and “Overcoming the Odds,” which focus on parenting and offer strategies for raising high-achieving African American males and females in science. In “The Empowered University: Shared Leadership, Culture Change, and Academic Success,” published in 2019 by Johns Hopkins University Press, he and his co-authors examine how university communities support academic success by cultivating an empowering institutional culture.

In 2008, he was named one of America’s Best Leaders by U.S. News & World Report, which for more than a decade has recognized UMBC as a national leader in academic innovation and undergraduate teaching. In 2011, he received both the TIAA-CREF Theodore M. Hesburgh Award for Leadership Excellence and the Carnegie Corporation of New York’s Academic Leadership Award, recognized by many as the nation’s highest awards among higher education leaders. Also in 2011, he was named one of seven Top American Leaders by The Washington Post and the Harvard Kennedy School’s Center for Public Leadership. In 2022, Mr. Hrabowski received the Yale Legend in Leadership Award and was inducted into the National Academy of Engineering for development of a national educational model for students from diverse backgrounds to excel in engineering and science.

Other honors include election to the American Academy of Arts & Sciences and the American Philosophical Society, receiving the prestigious McGraw Prize in Education; the U.S. Presidential Award for Excellence in Science, Mathematics and Engineering Mentoring; the Columbia University Teachers College Medal for Distinguished Service; and the GE African American Forum ICON Lifetime Achievement Award.

A native of Birmingham, Alabama and a child-leader in the Civil Rights Movement, Mr. Hrabowski was prominently featured in Spike Lee’s 1997 documentary, “Four Little Girls,” on the racially motivated bombing in 1963 of Birmingham’s Sixteenth Street Baptist Church.

Mr. Hrabowski graduated from Hampton Institute with highest honors in mathematics. He received his MA in mathematics and PhD in higher education administration/statistics from the University of Illinois at Urbana-Champaign.

For his visionary leadership in expanding academic and professional opportunities, Drexel University is proud to present Freeman Hrabowski with the degree of Doctor of Humane Letters, honoris causa.
Lynn Yeakel, MSM
Champion for Women’s Leadership and Gender Equity

Lynn Yeakel was director of Drexel University College of Medicine’s Institute for Women’s Health and Leadership and held the Betty A. Cohen Chair in Women’s Health. For 20 years, she was committed to the Institute’s core mission of honoring the past, enriching the present and shaping the future. Her boundless energy and passion for women’s equality issues resulted in her founding of Vision 2020, now VisionForward, a national initiative to achieve gender equity through women’s leadership in all aspects of life, including business, government, voting representation and public service.

Ms. Yeakel was integral to the development of the Woman One Award and Scholarship Fund and the D. Walter Cohen Shared Leadership Scholarship for medical students from underrepresented communities. To date, the Institute has raised almost $3 million in tuition support for medical students and recognized an exceptional leader each year through the Woman One Award. This year, Ms. Yeakel was unanimously chosen by the selection committee to receive the 2022 Woman One Award, honoring her longtime leadership and contributions to the Philadelphia region and her role in founding the award and scholarship program almost two decades ago.

Prior to her work at Drexel, Ms. Yeakel was a founder of Women’s Way, the first and largest women’s fundraising coalition in the nation, and served as its CEO for more than a decade. In 1992, she ran for the U.S. Senate, drawing national attention in what was called the “Year of the Woman,” winning the primary and nearly unseating the longtime incumbent. In 1994, she was appointed by President Clinton to be mid-Atlantic regional director for the U.S. Department of Health and Human Services.

Ms. Yeakel was a Phi Beta Kappa graduate and a former trustee of Randolph-Macon Woman’s College who received a master’s degree in management from the American College. She was active in leadership positions for local and national nonprofit organizations and received numerous honors and awards for leadership and humanitarian contributions, including the Pennsylvania Citizen Action Award, the Lucretia Mott Award, the Distinguished Daughters of Pennsylvania Award, the John Gardner Lifetime Achievement Award from Common Cause and the Integrity Award from the Philadelphia chapter of the Public Relations Society of America.

Ms. Yeakel’s death in January 2022 does not dim her legacy as an unrelenting advocate for women’s equality, which will continue to have influence at Drexel and beyond. The College of Medicine is proud to present her with the posthumous degree of Doctor of Humane Letters, *honoris causa*.

In the closing decades of the 19th century, Philadelphia financier and philanthropist Anthony J. Drexel envisioned an institution of higher learning uniquely suited to the needs of a rapidly growing industrial society and of the young men and women seeking their place in it. In 1891, he realized his vision with the establishment of the Drexel Institute of Art, Science and Industry.

In founding the Institute, Anthony J. Drexel launched a tradition of innovation, which Drexel University carries on today. Although distinguished by more than 125 years of growth and change, the University remains faithful to its founder’s vision. Its expanded enrollment, campuses and curriculum reflect a determination to answer societal and individual needs, which Mr. Drexel sought to address in his day.

Originally a non-degree-granting institution, Drexel began conferring the Bachelor of Science degree in 1914, when its 18 departments were organized into four schools. In 1927, the Commonwealth of Pennsylvania granted Drexel the privilege to confer the Master of Science degree, and in 1965, doctoral degrees. Drexel has undergone two changes in name, in 1936 becoming Drexel Institute of Technology and in 1970, Drexel University. The current name reflects the institution’s commitment to research, as well as the breadth of its graduate programs.

Since its founding, Drexel has remained a privately controlled, non-sectarian, coeducational center of higher learning, distinguished by a commitment to preparing students for success in their chosen careers. The cornerstone of this career preparation is the University’s cooperative-education program, which provides students with alternate periods of study and full-time professional employment related to their academic and career interests. Launched in 1919, Drexel’s co-op program was among the first in the nation, and today it is one of the largest and most diverse, placing students nationally and globally as well as in unique research and entrepreneurial opportunities.

Another constant element in Drexel’s identity has been its commitment to providing technological expertise for society’s needs. The institution operated around the clock during World War II to serve 3,000+ visiting participants in the Engineering Defense Training Program. Following the war, rapid
expansion of knowledge and the nation's drive for technological preeminence continued to drive growth at the University.

In 1983, Drexel became the nation's first university to require all undergraduates to have personal access to a microcomputer for use in their coursework. Drexel also was the nation's first major university to operate a fully wireless campus.

Today, Drexel continues to build upon strengths in the fields of science and engineering, preparing professionals for leadership in our global technological community through studies in myriad disciplines. It houses impressive resources for teaching and research, as well as facilities to serve a large and growing population of residential students.

In 2002, Drexel's mission, services and opportunities expanded when MCP Hahnemann University, a major Philadelphia health sciences institution, became Drexel University College of Medicine, as well as Drexel's College of Nursing and Health Professions and the Dana and David Dornsife School of Public Health. This historic relationship allowed productive synergies in teaching and research.

In 2006, Drexel became the first major research university in 25 years to open a new law school. Receiving American Bar Association accreditation in 2011, it is one of only two law schools to follow a co-operative model. In 2014, the school was named for Philadelphia attorney Thomas R. Kline, a nationally renowned trial litigator, in recognition of his landmark gift.

In 2011, the University announced a groundbreaking affiliation with the Academy of Natural Sciences of Philadelphia, the nation's oldest major natural history museum and a world leader in natural sciences research. The move has opened new opportunities for teaching, research and community education for both institutions.

A desire to bring its innovative brand of education to students everywhere resulted in the establishment of Drexel University Online in 2002. Drexel became the first university with a freestanding, degree-granting entrepreneurship school when it launched the Charles D. Close School of Entrepreneurship in 2013.

Meanwhile, the institution's dedication to health care education and community service continued to grow with Drexel's acquisition, in partnership with Tower Health, of St. Christopher's Hospital for Children in 2019 and the construction in 2021 of a regional medical campus in West Reading known as the Drexel University College of Medicine at Tower Health.

The University’s progress has accelerated over the past decade with the construction of offices, life sciences labs, classrooms and public spaces in Drexel's Schuylkill Yards and uCity Square developments. These improvements set the stage for an innovation economy centered in West Philadelphia, advancing Drexel's partnerships with industry and its status as an R1 research institute.

Drexel University enrolls more than 24,000 full- and part-time students in programs leading to associate's, bachelor's, master's, doctoral and professional degrees, including MD and JD. The University's record of success to date promises an auspicious future and testifies to the genius of Anthony J. Drexel's vision, which has shaped the growth of the institution since its inception.

The land on which Drexel University stands is Lenape land, and we pay respect and honor to the caretakers of this land, from time immemorial until now, and into the future. We openly recognize the Lenape Indian tribe as the original inhabitants of eastern Pennsylvania. Acknowledging this history is consistent with the University's commitment to diversity and inclusion. Drexel recognizes the historical links between the land on which the University sits and the Lenape peoples. We honor and respect the enduring relationship that exists between these peoples and nations and this land. This land acknowledgment is one small act in the ongoing process of working to be in good relationship with the land and the people of the land.
