III. TEACHING EXPERIENCE

Courses

Course Instructor Dornsife

- Policy Analysis for Population Health Spring 2023
 - Department of Health Management and Policy, Dornsife School of Public Health
- Applied Program and Policy Evaluation for Urban Health Summer 2021
 - Urban Health Collaborative Summer Institute, Dornsife School of Public Health

Teaching Assistant

- The Health Care Safety Net and Vulnerable Populations,
 - Department of Health Policy and Management, Harvard T.H. Chan Fall 2016
- Healthy Cities: Assessing Health Impacts of Policies and Plans,
 - Department of Urban Studies and Planning, MIT DUSP Spring 2016

Invited Lectures and Trainings

“Non-Academic Career Path Options for Doctoral Students in Public Health”

- Research and Practice Workshop (HMP 814), Drexel Dornsife School of Public Health, Spring 2023.

“Quasi-experimental analysis: Differences in Differences (DID), DID extensions, and Interrupted Time Series”

- Health Services and Policy Research (GPH-GU 3185), NYU School of Global Public Health, Winter 2023.

“History and Theory: Epidemics and Pandemics”

- Advanced Topics in Epidemiologic History, Theory and Biases (EPI T880), Drexel Dornsife School of Public Health, Winter 2023.

“Epidemiologic Policy Analysis in Practice”

- Executive MPH course, Drexel Dornsife School of Public Health, Fall 2022.

“The importance of units of analysis”

- Advanced Topics in Epidemiologic History, Theory and Biases (EPI T880), Drexel Dornsife School of Public Health, Spring 2021.

“Social Care and Community Health”

- Cityblock Health. Brooklyn NY, Charlotte NC, Waterbury CT. Seminar for all new Cityblock employees, 2018-2020.

“Health Impact Assessment and Community Research”

- Community Based Participatory Action Research (SBS 501), Harvard T.H. Chan School of Public Health, Spring 2016.

“Community Based Organizations and Health Impact Assessment”

- MIT Department of Urban Studies and Planning. Training for Community Based Organizations on

78325 Robert Wood Johnson Foundation **Diez Roux (PI)** **12/15/20- 3/31/2022**
Role: Postdoctoral Research Scholar **Total costs: \$249,000**
Project Title: Tracking outcomes and inequalities of the COVID-19 pandemic across the 30 cities that participate in the Big Cities Health Coalition
Description: This project will continue to develop a web-based data platform with COVID-19 testing and vaccination data for the 30 largest U.S. cities

77644 Robert Wood Johnson Foundation **Diez Roux/Bilal (PIs)** **6/16/20- 10/1/2021**
Role: Postdoctoral Research Scholar **Total costs: \$249,000**
Project Title: Creation of a Dashboard for COVID-19 indicators for the members of the Big Cities Health Coalition with a focus on Health Equity
Description: This project will develop a web-based data platform with COVID-19 data for the 30 largest U.S. cities and analyze inequities in COVID-19 outcomes in and across those cities.

Lee Kum Sheung Center for Health and Happiness **Schnake-Mahl (PI)** **10/01/2017-9/22/2018**
Role: Scholar Award
Project Title: Dissertation Award
Description: This grant aims to assist full-time doctoral students of public health who are conducting dissertation research in the field of positive health science or another closely related field with research related costs

75046 Robert Wood Johnson Foundation **Church/Arcaya(PI)** **12/15/2017-8/31/2020**
Role: Pre-doctoral fellow/trainee
Project Title: Healthy Neighborhoods Equity Fund
Description: This project uses a Community Based Participatory Research (CBPR) framework to understand how mixed-use, mixed-income TOD affects neighborhood conditions, and ultimately residents' health behaviors and outcomes.

HD082032-04S2, National Institutes of Health **Waters et al. (PI)** **9/25/2015-07/31/2019**
Role: Pre-doctoral fellow/trainee
Project Title: Demographic and Health Disparities in Recovery from Hurricane Katrina: Katrina@10
Description: This project aims to advance disaster science by including both breadth and depth in a set of studies that includes three especially-affected populations and two representative analyses of the enduring effects of Hurricane Katrina; by providing a temporal perspective with longitudinal data that highlight differentials in recovery across diverse populations over a decade.
