URBAN FOCUS.
GLOBAL IMPACT.
The Dornsife School of Public Health at Drexel University – Philadelphia’s #1 school of public health – prepares students to become public health professionals, researchers, and advocates ready to take on today’s public health challenges at a local, national, and global level.

Our School is a center of excellence in urban health, and we stand at the forefront of addressing many of today’s public health challenges through science, partnerships, and policy.

WHAT IS PUBLIC HEALTH?

Public health is a broad discipline that includes science, community engagement, and policy aimed at protecting and improving the health and well-being of communities.

Public health professionals are concerned with the health of entire populations. They work to prevent and solve public health challenges through education, research, policy development, advocacy, and service.

The field of public health is continuously evolving in response to the needs of communities and populations around the world.

WHAT IS PUBLIC HEALTH?

Public health is a broad discipline that includes science, community engagement, and policy aimed at protecting and improving the health and well-being of communities.

Public health professionals are concerned with the health of entire populations. They work to prevent and solve public health challenges through education, research, policy development, advocacy, and service.

The field of public health is continuously evolving in response to the needs of communities and populations around the world.
Drexel Dornsife prepares students to become innovative public health leaders by blending classroom learning with real-world experiences in the core public health disciplines. Community Health and Prevention, Health Management and Policy, Environmental Public Health, and Epidemiology.

Benefits of the Public Health Bachelor’s program include:

• Individual attention: Small class sizes mean closer connections with classmates and instructors.
• Community: Located and deeply rooted in the city of Philadelphia, where students can build lifelong relationships with high-impact, diverse peers.
• Highly developed coursework: A curriculum grounded in a human rights and social justice foundation.
• Cooperative education: Drexel’s co-op program offers public health students opportunities to gain months of real-world experience in their disciplines.

UNDERGRADUATE CURRICULUM

Public Health Bachelor’s program consists of four years of structured coursework, including required core courses and electives at Drexel and in other academic units across Drexel University.

The DREXEL CO-OP is a key component of the curriculum and provides students with professional development experiences. Students gain up to six months of valuable, resume-enhancing experiences and graduate prepared to make real-world contributions to public health careers.

The INNER CAPSTONE is a comprehensive research project that provides an individualized public health learning experience. Public health majors develop their skills as experts and benefit from the close mentorship of faculty advisors, preparing them for successful employment in the work force or graduate school.

PROGRAMS

The Bachelor of Science (BS) in Public Health provides students with a comprehensive overview of the fundamentals of public health.

The Bachelor of Arts (BA) in Public Health provides a challenging program in global public health, of which the core is unique.

The Bachelor of Arts (BA) in Urban and Regional Planning provides public health knowledge within a framework of urban and regional planning.

The Bachelor of Arts in Public Health (BA) is an accelerated degree program that allows students to graduate in four years.

Internships in public health provide unparalleled experience at Drexel with additional international opportunities. The program includes one or two career paths for people interested in a career in public health—Public Health, Community Health Management (through Drexel’s Community Health Management program), and Environmental Public Health, and Health Policy.

EXPERIENCE: Drexel Dornsife provides a world-class education that provides students with the skill set to enter the workforce immediately upon graduation.

WHAT MAKES DORNSIFE’S PUBLIC HEALTH PROGRAMS UNIQUE?

Drexel Dornsife provides a world-class education that prepares students for the workforce immediately upon graduation.

Student Life

Drexel Dornsife students become part of a close-knit and diverse community of Drexel Dragons. The student experience extends beyond classrooms and life is inclusive, innovative, and full of opportunities. Students gain up to six months of valuable, resume-enhancing experiences, and many other ways to get involved.

Our diverse student body comes from many parts of the United States and from different countries all over the world. Students bring their experience, curiosity, and ambition, and life on campus is Drexel Dornsife, where they can create a unique identity and grow as individuals.

Drexel’s hometown of Philadelphia offers many opportunities to explore with friends. It is a walkable, bikeable city full of unique neighborhoods and communities.

STUDENT LIFE

Drexel Dornsife provides a world-class education that prepares students for the workforce immediately upon graduation.

What can you do with a public health degree? Some settings in which public health professionals work include government agencies, hospital administration, nonprofit organizations, community health centers, pharmaceutical corporations, clinical research facilities, and nonprofit organizations.

A degree in public health can lead you to a challenging career, especially at the moment when the world of public health educators is in need and important in the USA.

YOUR FUTURE

Drexel Dornsife provides a world-class education that prepares students for the workforce immediately upon graduation.
