

Gainful Employment Disclosures – 2019

Program Name: Project Management Certificate

This program is designed to be completed in 2 years.

This program will cost \$24,264 if completed within normal time. There may be additional costs for living expenses. These costs were accurate at the time of posting but may have changed.

Of the students who completed this program within normal time, the typical graduate leaves with some debt. However, statistics are not available since all Title IV students who graduated during this reporting period were concurrently enrolled in another regular degree program. Please contact Drexel Central for more information.

State Licensure Requirements: This program does not provide state certification upon completion. Applicants are encouraged to search the web for up-to-date information and check with your state agency.

The Graduate Certificate in Project Management is designed to support the growing need for project management graduate education. It provides students with the knowledge and skills necessary for successful professional and leadership careers in the rapidly-expanding field of project management and will prepare students to pursue the Certified Associate in Project Management (CAPM)[®] or Project Management Professional (PMP)[®] credential from the Project Management Institute (PMI).
