GAANN FELLOWSHIP
CHEMICAL & BIOLOGICAL ENGINEERING

We invite you to apply for the GAANN Fellowship to pursue a Ph.D. degree in the Department of Chemical and Biological Engineering at Drexel University in the areas of Energy and the Environment. You will receive:

- yearly stipend up to US$ 34,000
- full tuition support
- training in STEM teaching
- Ph.D. in energy-focused research

You will be able to work with highly engaged faculty that includes 10 NSF CAREER and PECASE awardees, and choose from a broad range of research topics in energy and the environment:

- organic, perovskite photovoltaics
- batteries, supercapacitors
- alternative fuels
- catalysis, electrochemistry

Drexel University is one of the top 100 global universities in creating intellectual property, and is one of the “Most Innovative Schools” in the U.S. We are in the vibrant, diverse city of Philadelphia, rich in history, arts, culture, music and sports.

- U.S. citizen or permanent resident
- excellent academic record
- demonstrate financial need
- enrolled in or accepted to our Ph.D. program
