

Dear Goodwin Graduates,

While I may not have had the privilege to work with you personally, I commend your dedication to your studies. Getting your degree is a big accomplishment. You have worked hard, perhaps attending school part-time, holding down a job or raising a family all while completing your degree. You deserve a round of applause!

Not only have you persisted despite your ordinary life challenges, but you also managed to complete your degrees amidst a global pandemic. You had the commitment and persistence to see it through to the end, despite all the obstacles in your path. The Goodwin Class of 2021 is an inspiration to me.

Regardless of which Goodwin program you are graduating from, I am confident great things are in store for you. You should be as proud of your accomplishments as all the Goodwin faculty and staff are.

Congratulations Class of 2021! You did it!

Best wishes,

Marna Mozeff
