**EDGI 534 Conflict Resolution in an International Context**

How do we think about peace, conflict, and violence in different contexts? What are the root causes and effects of violent conflict at the local, national and global levels? How can we analyze conflict to establish those root causes? What are constructive and peaceful approaches to resolving conflicts? What role can education play in promoting peace in diverse contexts?

**EDGI 522 Education for Global Citizenship, Sustainability, & Social Justice**

How can education protect our planet, develop global citizens, and create sustainable societies? What is climate change education? How has the way we conceptualize climate-oriented education changed over time? What role do politics, culture, and economies play in shaping climate change education? How are the diverse conceptualization of global citizenship similar and different? How might global citizenship education mediate the tensions between local values and global commitments?
